The Futures of the City Region Michael Neuman,Angela Hull,2013-09-13 Does the city region constitute a new departure in urbanisation If so what are the key elements of that departure The realities of the urban in the 21st century are increasingly complex and polychromatic The rise of global networks enabled by supranational administrations both governmental and corporate strongly influences and structures the management of urban life How we conceive the city region has intellectual and practical consequences First in helping us grasp rapidly changing realities and second in facilitating the flow of resources ideas and learning to enhance the quality of life of citizens Two themes interweave through this collection within this broad palette First are the socio spatial constructs and their relationship to the empirical evidence of change in the physical and functional aspects of urban form Second is what they mean for the spatial scales of governance This latter theme explores territorially based understandings of intervention and the changing set of political concerns in

selected case studies In efforts to address these issues and improve upon knowledge this collection brings together international scholars building new data driven cross disciplinary theories to create new images of the city region that may prove to supplement if not supplant old ones The book illustrates the dialectical interplay of theory and fact time and space and spatial and institutional which expands on our intellectual grasp of the theoretical debates on city regions through practical knowing citing examples from Europe the United States Australasia and beyond This book was originally published as a Special Issue of Regional Studies

Going Down for Air Derek Sayer, Charles C. Lemert, 2015-11-17 What is hidden in the taste of a madeleine or in snatches of Bob Dylan songs operatic arias and the remembered sting of a rattan cane An exploration of memory *Going Down for Air* artfully combines two very different yet connected texts A Memoir is richly evocative not only of times past but also of a very English imperial queerly masculine subjectivity caught on the cusp of the extinction of the world in and of which it made sense Derek Sayer's allusive writing succeeds as few have done before in capturing the leaps and bounds of memory itself Rich in its detail unstinting in its honesty this beautifully written memoir is a considerable literary achievement The memoir is complemented by Sayer's provocative theoretical essay on memory and social identity Drawing on linguistic and psychoanalytic theory photographic images and literary texts In *Search of a Subject* argues that it is memory above all that maintains the imagined identities upon which society rests *Going Down for Air* is a bold and strikingly successful literary and sociological experiment which makes a major contribution to understanding how our memories work and gives them social meaning far beyond
