C. Day-Lewis: The Golden Bridle Albert Gelpi, Bernard O'Donoghue, 2018-01-26 C Day

Lewis was a major figure in British poetry and culture from the 1930s until his death in 1972. The Golden Bridle: Selected Prose takes its title from the myth of Bellerophon and the golden bridle of Pegasus which Day Lewis invoked on several occasions as a metaphor for the creative process. Day Lewis as poet is then the organizing idea of this anthology and the selections indicate the scope and range of his vital engagement with English life and letters. Organised into four parts, the volume illustrates Day Lewis's reflections on the role and function of poetry in society and culture, the creative process and the workings of the imagination as well as the nature of poetic truth and its relation to science, poets who were of particular importance to Day Lewis and the poetic process in relation to the composition of several of his own poems. The notes indicate the particular source circumstances and central issues of each piece to provide a brief intellectual biography and critical account of this eminent poet's development and standing. , Book-auction Records ,1907
