Second Sophistic A Cultural Phenomenon In The Roman Empire:

The Second Sophistic Graham Anderson, 2005-07-25 Sophism was the single most important movement in second century literature prose of that period came to be written as entertainment rather than confined to historical subjects Graham Anderson shows how the Greek sophists skills in public speaking enabled them to perform effectively across a variety of activities As he presents the sophists roles as civic celebrities side by side with their roles as transmitters of Hellenic culture and literary artists a co ordinated view of the Second Sophistic as a complex phenomenon emerges **The second**

sophistic [Electronic book] Graham Anderson, 1993 Sophism was the single most important movement in second century literature Prose of that period came to be written as entertainment rather than confined to historical subjects This book provides a broad view of the cultural outlook of the Second Sophistic Graham Anderson suggests the cultural aspirations which Greek sophists in the Roman Empire were able to cherish and shows how their skills in public speaking could enable them to adjust their horizons to the variety of activities in which they could engage He presents the sophists roles as civic celebrities side by side with their roles as transmitters of Hellenic culture and literary artists While studies of early Imperial culture and society have proliferated many simply touch on the Second Sophistic or concentrate on only single aspects of a complex phenomenon This work presents a series of overlapping perspectives and illustrations to enable the reader to form a more coordinated view Original and comprehensive this book will be of great interest to those concerned with the history or literature of the Roman Empire **The Art of the Roman Empire AD 100-450** Jas Elsner, 2018 A beautifully illustrated new edition of the best single volume guide to Roman and early Christian art Provides an introduction to the great diversity of artistic styles during the period and their context

Reading Other Peoples' Texts Ken S. Brown, Alison L. Joseph, Brennan Breed, 2020-05-14 This volume draws together eleven essays by scholars of the Hebrew Bible New Testament Greco Roman religion and early Judaism to address the ways that conceptions of identity and otherness shape the interpretation of biblical and other religiously authoritative texts The contributions explore how interpreters of scriptural texts regularly assume or assert an identification between their own communities and those described in the text while ignoring the cultural social and religious differences between themselves and the text s earliest audiences Comparing a range of examples these essays address varying ways in which social identity has shaped the historical contexts implied audiences rhetorical shaping redactional development literary appropriation and reception history of particular texts over time Together they open up new avenues for studying the relations between social identity scriptural interpretation and religious authority *The Aesthetics of Hope in Late Greek Imperial Literature* Dawn LaValle Norman, 2019-12-05 This book sheds light on a relatively dark period of literary history the late third century CE a period that falls between the Second Sophistic and Late Antiquity It argues that more was being written during this time than past scholars have realized and takes as its prime example the understudied Christian writer Methodius of Olympus Among his many works this book focuses

on his dialogic Symposium a text which exposes an era's new concern to re-orient the gaze of a generation from the past onto the future Dr LaValle Norman makes the further argument that scholarship on the Imperial period that does not include Christian writers within its purview misses the richness of this period which was one of deepening interaction between Christian and non-Christian writers Only through recovering this conversation can we understand the transitional period that led to the rise of Constantine

Philosophy, Rhetoric, and Sophistry in the High Roman Empire Jeroen Lauwers, 2015-09-07

How is it possible that modern scholars have labelled Maximus of Tyre a second century CE performer of philosophical orations as a sophist or a half philosopher while his own self-presentation is that of a genuine philosopher If we take Maximus' claim to philosophical authority seriously his case can deepen our understanding of the dynamic nature of Imperial philosophy Through a discursive analysis of twelve Imperial intellectuals alongside Maximus' *dialexeis* the author proposes an interpretative framework to assess the purpose behind the representation of philosophy rhetoric and sophistry in Maximus' oeuvre This is thus as yet the first book-length attempt at situating the historical communication process implicit in the surviving Maximean texts in the concurrent context of the Imperial intellectual world

Christian Origins and Greco-Roman Culture Stanley E. Porter, Andrew Pitts, 2012-10-23

In *Christian Origins and Greco-Roman Culture* Stanley Porter and Andrew Pitts assemble an international team of scholars whose work has focused on reconstructing the social matrix for earliest Christianity through the use of Greco-Roman materials and literary forms Each essay moves forward the current understanding of how primitive Christianity situated itself in relation to evolving Hellenistic culture Some essays focus on configuring the social context for the origins of the Jesus movement and beyond while others assess the literary relation between early Christian and Greco-Roman texts
