The Oxford Illustrated History of World War Two Richard Overy, 2015-04-09 World War Two was the most devastating conflict in recorded human history It was both global in extent and total in character It has understandably left a long and dark shadow across the decades Yet it is three generations since hostilities formally ended in 1945 and the conflict is now a lived memory for only a few And this growing distance in time has allowed historians to think differently about how to describe it how to explain its course and what subjects to focus on when considering the wartime experience For instance as World War Two recedes ever further into the past even a question as apparently basic as when it began and ended becomes less certain Was it 1939 when the war in Europe began Or the summer of 1941 with the beginning of Hitler's war against the Soviet Union Or did it become truly global only when the Japanese brought the USA into the war at the end of 1941 And what of the long conflict in East Asia beginning with the Japanese aggression in China in the early 1930s and only ending with the triumph of the Chinese Communists in 1949 In *The Oxford Illustrated History of World War Two* a team of leading historians re-assesses the conflict for a new generation exploring the course of the war not just in terms of the Allied response but also from the viewpoint of the Axis aggressor states Under Richard Overy's expert editorial guidance the contributions take us from the genesis of war through the action

in the major theatres of conflict by land sea and air to assessments of fighting power and military and technical innovation the economics of total war the culture and propaganda of war and the experience of war and genocide for both combatants and civilians concluding with an account of the transition from World War to Cold War in the late 1940s Together they provide a stimulating and thought provoking new interpretation of one of the most terrible and fascinating episodes in world history

A Ceaseless Watch Angus Britts, 2021-04-15 A Ceaseless Watch Australia s Third Party Naval Defense 1919 1942 illustrates how Australia confronted the need to base its post World War I

defense planning around the security provided by a major naval power in the first instance Britain and later the United States. Spanning the period leading up to Australia's greatest security crisis, the military threat posed by Japan throughout the majority of 1942, the work takes the reader all the way up to the defeat of the Imperial Japanese Navy by the United States Navy in the Solomon Islands campaign. Angus Britts focuses on Anglo-Australian defense relations from 1919-42, when the British were Australia's primary naval protectors until they were superseded in the Pacific by the United States in May 1942 at the battle of the Coral Sea. Britts traces the process of the alignment or divergence of differing strategic interests between Australia and Britain in particular. Taking place against the backdrop of Imperial Japan's expansionism, debates within Australian political and defense circles during this period, namely the nature of the most likely threat to the continent itself, what became an important subplot to the events then unfolding in the Pacific. Looking at the development of the Singapore strategy, which utilized the British fleet at Singapore to protect Australia's interests, Britts lays out how the cornerstone for Australian defense planning was based on the continued assurances from successive British governments that they would honor their naval commitments should Australia itself eventually come under serious threat from Japanese aggression. The Australian-American defense relationship evolved at a later stage within the timeframe in this work, but the varying interactions between both nations throughout the interwar years are likewise addressed, as is the foundation of their wartime relations. Britts illustrates the difficulty in forming a defense relationship between small and great powers where the needs of the former are not subsumed by the interests of the latter from the interwar years to the start of World War II. In an era when the entire Pacific region was at war, the inability of a larger power to fulfill its side of a defensive pact with a smaller power shaped the future of the region itself.
