Terrorist Financing Nicholas Ridley, Nick Ridley, 2012-01-01 In recent years a great deal has been written about terrorism and how best to inhibit and undermine terrorist's aspirations Much of this literature tends to be one dimensional reflecting the experience of the author Dr Ridley having had a long and diverse career in intelligence and in particular financial analysis has succeeded in going far beyond description of a series of war stories to providing not only a starting account of the range and character of modern terrorism but also a knowledgeable analysis of the measures adopted around the world to combat the threat Of critical importance in the minds of many has been the adoption of techniques in the main from the war against drugs facilitating the identification and disruption of finance While emphasising the value of financial intelligence Dr Ridley now as a scholar dispassionately questions how successful this strategy has been and where it might take us Such issues need to be aired and resolved if we are not to undermine the very values which we seek to protect Barry Rider University of Cambridge UK This is hugely important and highly relevant contribution by a world

Whither Southeast Asia Terrorism? Arabinda Acharya, 2014-12-30 More than 11 years after the 9 11 attacks and 10 years after the October 2002 Bali bombings the need for a comprehensive assessment of what the countries in Southeast Asia have achieved is overdue We need to consider whether the strategies against both the domestic and transnational terrorist and extremist threat have been appropriate and have yielded desired results The aim of this book is to make a comprehensive assessment of the threats of terrorism and extremism in the region and of the policies and practices adopted by the regional countries to counter the same It is also necessary to evaluate if the region has become a safer place after the decade long fight Most importantly it is time to ask if we need a rethink or develop a new strategy to contain and manage the threats of terrorism and extremism

Los Angeles US and Editor of Journal of Terrorism and Political Violence This stimulating collection of essays underlines how Southeast Asia has again as at the height of the Cold War been pushed towards the top of the list of world conflict zones by the collision between long standing regional problems and more recent external frictions Anyone needing to learn more about the relationship between the war on terror and Southeast Asia particularly regarding terrorism in Thailand Indonesia and the Philippines will need to consult this work Brian P Farrell National University of Singapore and author of The Defence and Fall of Singapore 1940 1942 This book is an excellent addition to the literature on political violence in Southeast Asia providing a wealth of detail on terrorism guerilla insurgency and the use of terror and repression by governments The book is especially valuable for the broad coverage of many different groups not just Islamic ones inclusion of the activities of governments and a variety of opinions and views on terrorism and political violence This book should be one of the essential resources for academics policymakers or anyone else interested in terrorism insurgency and political violence in the region It is an extremely valuable tool for one and all James M Lutz Indiana University Purdue University US and co author of Global Terrorism with Brenda Lutz This is an excellent volume which is very well conceived and balanced in its treatment of the problem of terrorism and insurgency in Southeast Asia This volume will greatly advance our empirical understanding of conflict and violence in this pivotal region The book contains many insightful contributions and overall the Handbook will serve as a standard reference on the subject matter for years to come M L R Smith King s College University of London UK This timely and significant book seeks to explain the deep seated complexities of terrorism and insurgency in Southeast Asia In the aftermath of 9 11 this region has been designated by the United States to be the second front in the war on terrorism Yet despite the emergence of this new global terrorism the authors argue that armed rebellion in Southeast Asia is a phenomenon that predates Al Qaeda and the global Jihadist movement and that much can be learned from the motivations behind it Written by a group of leading Western and emerging Southeast Asian scholars this extensive volume demonstrates the difficulty and diversity of rebellion in Southeast Asia and explores its intricate historical political social and economic roots The book will serve as an excellent reference and educational text providing an empirical and regional guide to the complex problem of insurgency in Southeast Asia It will also contribute to a more educated understanding that could provide the basis for appropriate counter terrorism strategies in this important part of the world Comprehensive and engaging this volume will find widespread appeal amongst researchers students and policymakers interested in terrorism international relations and Asian studies and will also be an invaluable tool for studies into political violence and security The Talibanization of Southeast Asia Bilveer Singh, 2007-10-30 Long before the terrorist attacks of September 11 2001 awakened the United States and the Western world to the heightened level of the terrorist threat Southeast Asia had been dealing with this threat The bombing in Bali that killed 202 people many of them Australian tourists was by no means the region s first experience with Islamic extremism which can be traced back to the 1940s and the Darul Islam struggle The most recent

group to emerge is Al Jama'ah Al Islamiyah (AJAI) the most potent Islamic terrorist organization to date in the region and the group behind the Bali bombing. Understanding the process of Talibanization in Southeast Asia which was once an oasis of moderate Islam in the modern world is a key to unraveling the mystery of the increased radicalization in the region. Essentially this involved the establishment of a political system that was more Islamic in character either nationally or within a specific territory of a national state. This book analyzes the increasing Talibanization of Southeast Asia a relatively new phenomenon that involves the adoption of Islamist doctrines, ideologies and values that are largely militant in character and that for some groups includes the adoption of violence to achieve their goals. This has succeeded in posing one of the most serious security challenges to the region since the end of the Cold War. Jihadists are operating in small and localized cells even though the broad goals remain the same namely to spread sharia, establish an Islamic state and bring down secular regimes. As most governments do not have the credibility or the expertise to diminish the threat posed by Islamist extremism, Wahhabism and Salafism, Southeast Asia is in danger of being Talibanized in the near future. **From Bin Laden To**

Facebook: 10 Days Of Abduction, 10 Years Of Terrorism Maria A. Ressa, 2013-03-22. The two most wanted terrorists in Southeast Asia, a Malaysian and a Singaporean, are on the run in the Philippines but they manage to keep their friends and family updated on Facebook. Filipinos connect with al-Qaeda-linked groups in Somalia and Yemen. The black flag embedded in al-Qaeda lore pops up on websites and Facebook pages from around the world including the Philippines, Indonesia, the Middle East, Afghanistan, Australia and North Africa. The black flag is believed to herald an apocalypse that brings Islam's triumph. These are a few of the signs that define terrorism's new battleground: the Internet and social media. In this groundbreaking work of investigative journalism, Maria Ressa traces the spread of terrorism from the training camps of Afghanistan to Southeast Asia and the Philippines. Through research done at the International Center for Political Violence Terrorism Research in Singapore and sociograms created by the CORE Lab at the Naval Postgraduate School, the book examines the social networks which spread the virulent ideology that powered terrorist attacks in the past 10 years. Many of the stories here have never been told before including details about the 10 days during which Ressa led the crisis team in the Ces Drilon kidnapping case by the Abu Sayyaf in 2008. The book forms the powerful narrative that glues together the social networks both physical and virtual which spread the jihadi virus from bin Laden to Facebook.
