Bion, 2010 Second Thoughts Dana Lindsey, 1992 *Radical Empiricists* Helen Thaventhiran, 2015 *Radical Empiricists* presents a new history of criticism in the first half of the twentieth century against the backdrop of the modernist crisis of meaning Our received idea of modernist criticism is that its novelty lay in being very empirical critics believed in looking closely at words on the page Such close reading has since been easy to ridicule but this book seeks to consider whether this is fair have we in the rush either to dismiss or even to defend the idea of close reading often failed to look closely at what it involves in practice Against this oversight *Radical Empiricists* turns close reading back on itself proposing some innovative readings of the prose of five major modernist poet critics I A Richards T S Eliot William Empson R P Blackmur and Marianne Moore The book is divided into two parts preceded by an introduction that explores what these five writers share a radical self consciousness about the key critical concept meaning Part I How to read considers the prose techniques of Eliot Richards and Empson as they push at the boundaries of verbal analysis in other disciplines experimental psychology and anthropology classical commentary and textual criticism Part II introduces Blackmur and Moore alongside Empson and takes a more polemical look at how their critical styles defy various modernist orthodoxies about how not to read for example that paraphrase always destroys poetic meaning Many of these orthodoxies remain current re-visiting their history and attending to the rich detail of critical prose styles can allow us to lift some old unreflective constraints on our ways of knowing about poems The Oxford Dictionary of Proverbs Jennifer Speake, 2015 This unique and thoroughly revised collection contains over 1 100 of the most widely used proverbs in English drawing on the resources of the Oxford Languages team for the most up to date research Lively and compelling it is filled with favourites old and new with a strong emphasis on meanings of proverbs catalogued **The Monthly Packet of Evening Readings for Members of the English Church**, 1866 Resonance of Suffering Andre Green, 2018-03-29 Some sixty years after the Controversial Discussions in the early 40s this passionate book resurrects their spirit on a global scale Under the author's generous tactful yet strong leadership a small discussion group of noteworthy analysts of the International Psychoanalytical Association coming from all the theoretical and geographical regions in today's psychoanalytic Babel met several times over three years in order to deal by way of the detailed discussion of their clinical experiences with what to many of those involved was and

still is a polemical concept that of the borderline patient. Such a concept widely accepted in the United States remains controversial in many parts of the psychoanalytic universe mainly in what concerns the multifaceted relationship between psychoanalytic and psychiatric categories. To be remarked upon is the sincerity put to play by the participants in expressing their doubts, their agreements and their disagreements in the heady process of developing a grasp on the others viewpoint.
