Second Thoughts about Race in America Peter Collier, David Horowitz, 1991 In this work veterans of the Civil Rights Movement use their experiences from the 1960s to discuss growing racial tension in the USA Addressed are such issues as what happened to civil rights and why did the emphasis of the struggle for racial justice shift from the individual to the group

The Rhetoric of Racism Revisited Mark Lawrence McPhail, 2002 Looks at the rhetorical dynamics of racism how in addition to social and material structures and institutions language can be a cause and facilitator of racism Thoroughly discusses essentialism and racial difference theories of complicity and coherence and the theory of racism as a problem of psychiatry back cover

Second Thoughts Janet M. Ruane, Karen A. Cerulo, 2014-08-21 Co authored by Karen A Cerulo the Eastern Sociological Society's Robin L Williams Lecturer for 2013 2014 Do birds of a feather flock together or do opposites attract Is honesty the best policy Are children our most precious commodity Is education the great equalizer Adages like these shape our social life This Sixth Edition of *Second Thoughts* reviews several popular beliefs and notes how these conventional wisdoms cannot be taken at face value but instead require careful second thoughts This unique text encourages students to step back and sharpen their analytic focus with 25 essays that use social research to expose the gray areas of commonly held beliefs revealing the complexity of social reality and sharpening students sociological vision

Civil Rights in America Christopher W. Schmidt, 2020-12-17 The term civil rights has such a familiar presence in discussions about American politics and law that we tend to use it reflexively and intuitively but rarely do we stop to think about what exactly we mean when we use the term and why certain uses strike us as right or wrong In this book Professor Christopher W Schmidt tells the story of how Americans have fought over the meaning of civil rights from the Civil War through today Through their struggles over what it means to live in a nation dedicated to protecting civil rights each generation has given the label new life and new meaning *Civil Rights in America* shows how the words we use to understand our world become objects of contestation and points of leverage for social political and legal action

The End of Racism Dinesh D'Souza, 1996-09-30 The first comprehensive inquiry into the history nature and ultimate meaning of racism

Neo-slave Narratives Ashraf H. A. Rushdy, 1999 *NeoSlave Narratives* is a study in the political social and cultural content of a given literary form the novel of slavery cast as a first person slave narrative After discerning the social and historical factors surrounding the first appearance of that literary form in the 1960s *NeoSlave Narratives* explores the complex relationship between nostalgia and critique while asking how African American intellectuals at different points between 1976 and 1990 remember and use the site of slavery to represent the crucial cultural debates that arose during the sixties

Guess Who's Coming to Dinner Now? Angela D Dillard, 2023-11-21 An excellent overview of African American LGBT and other minority group conservatives *The New Republic* In *Guess Who's Coming to Dinner Now* Angela Dillard offers the first comparative analysis of a modern conservatism that cuts across boundaries of race ethnicity gender and sexuality To be an African

American and a conservative or a Latino who is also a conservative and gay is to occupy an awkward and contested political position Dillard explores the philosophies politics and motivation of minority conservatives such as Ward Connerly Glenn Loury Linda Chavez Clarence Thomas and Bruce Bawer as well as their tepid reception by both the left and right Welcomed cautiously by the conservative movement they have also frequently been excoriated by those African Americans Latinos women and LGBT people who view their conservatism as betrayal Dillard s comprehensive study among the first to take the history and political implications of multicultural conservatism seriously is a vital source for understanding contemporary American conservatism in all its forms Dillard analyzes the famous Clarence Thomas Linda Chavez the obscure Elizabeth Wright s black conservative newsletter Issues and Views and the in between the memoirs of the gay conservative Marvin Liebman The New York Times

African Americans and Jews in the Twentieth Century Vincent P. Franklin, 1998 In recent scholarship academics have focused primarily on areas of conflict between Blacks and Jews yet in the long struggle to bring social justice to American society these two groups have often worked as allies in both the organized labor and the civil rights movements Demonstrating the complexity of the relationship of Blacks and Jews in America African Americans and Jews in the Twentieth Century examines the competition and solidarity that have characterized Black Jewish interactions over the past century These essays provide an intellectual foundation for cooperative efforts to improve social justice in our society and are an invaluable resource for the study of race relations in twentieth century America Copyright Libri GmbH All rights reserved

Black Conservative Intellectuals in Modern America Michael L. Ondaatje, 2011-11-29 In the last three decades a brand of black conservatism espoused by a controversial group of African American intellectuals has become a fixture in the nation s political landscape its proponents having shaped policy debates over some of the most pressing matters that confront contemporary American society Their ideas though have been neglected by scholars of the African American experience and much of the responsibility for explaining black conservatism s historical and contemporary significance has fallen to highly partisan journalists Typically those pundits have addressed black conservatives as an undifferentiated mass proclaiming them good or bad right or wrong color blind visionaries or Uncle Toms In Black Conservative Intellectuals in Modern America Michael L Ondaatje delves deeply into the historical archive to chronicle the origins of black conservatism in the United States from the early 1980s to the present Focusing on three significant policy issues affirmative action welfare and education Ondaatje critically engages with the ideas of nine of the most influential black conservatives He further documents how their ideas were received both by white conservatives eager to capitalize on black support for their ideas and by activists on the left who too often sought to impugn the motives of black conservatives instead of challenging the merits of their claims While Ondaatje s investigation uncovers the themes and issues that link these voices together he debunks the myth of a monolithic black conservatism Figures such as Supreme Court Justice Clarence Thomas the Hoover Institution s Thomas Sowell and Shelby Steele and cultural theorist John McWhorter emerge as individuals with

their own distinct understandings of and relationships to the conservative political tradition **Racism and Resistance**

Franziska Meister, 2017-04-15 Even a cursory look at U S society today reveals that protests against racial discrimination are by no means a thing of the past What can we learn from past movements in order to understand the workings of racism and resistance In this book Franziska Meister revisits the Black Panther Party and offers a new perspective on the Party as a whole and its struggle for racial social justice She shows how the Panthers were engaged in exposing structural racism in the U S and depicts them as uniquely resourceful imaginative and subversive in the ways they challenged White Supremacy while at the same time revolutionizing both the self conception and the public image of black people Meister thus highlights an often marginalized aspect of the Panthers how they sought to reach a world beyond race by going through race A message well worth considering in an age of color blindness
