

SECRET MESSAGE GUIDE

An illustration of a secret office environment. In the center, a large, semi-transparent rectangular box contains the text "SECRET MESSAGE GUIDE" in white, bold, sans-serif capital letters. The office is dimly lit with blue and grey tones. Several people are working at desks with multiple computer monitors. In the foreground, a man in a white shirt and dark vest sits on the left, and a woman in a light blue shirt and dark skirt sits on the right, both looking at their monitors. The woman's monitor displays a question mark icon. In the background, other employees are visible at their workstations. Floating around the office are various icons: a clock on the left wall, a clock on the right wall, a speech bubble with a question mark, a heart with a question mark, and an envelope with a question mark. The overall atmosphere is one of mystery and secrecy.

From apparently simple and accessible theories concerning what fashion is to seemingly more difficult or challenging theories concerning globalisation and new media, this collection contextualises different theoretical approaches to identify, analyse and explain the remarkable diversity, complexity and beauty of what we understand and experience every day as fashion and clothing. This second edition contains entirely new sections on fashion and sustainability, fashion and globalisation, fashion and digital social media, and fashion and the body prosthesis. It also contains updated and revised sections on fashion identity and difference and on fashion and consumption and fashion as communication. More specifically, the section on identity and difference has been updated to include contemporary theoretical debates surrounding Islam and fashion and LGBT communities and fashion, and the section on consumption now includes theories of prosumption. Each section has a specialist and dedicated Editor's Introduction which provides essential conceptual background, theoretical contextualisation and critical summaries of the readings in each section. Bringing together the most influential and ground-breaking writers on fashion and exposing the ideas and theories behind what they say, this unique collection of extracts and essays brings to light the presuppositions involved in the things we all think and say about fashion.
