Secret Servant Ilya Dzhirkvelov, 1987 Som teenager kom Dzhirkvelov i 1943 i den sovjetiske efterretningstjeneste og kmpede i KGB s specialstyrker mod ukrainske og lettiske partisaner **Secret Servant** Ilya Dzhirkvelov, 1988 **Secret Servant** Ilya Dzhirkvelov, 1987 *The Ethics of Destruction* Ward Thomas, 2014-06-14 Many assume that in international politics and especially in war anything goes Sherman famously declared war is all hell The implication behind the maxim is that in war there is no order only chaos no mercy only cruelty no restraint only suffering Ward Thomas finds that this anything goes view is demonstrably wrong It neither reflects how most people talk about the use of force in international relations nor describes the way national leaders actually use military force Events such as those in Europe during World War II in the Persian Gulf War and in Kosovo cannot be understood he argues until we realize that state behavior even during wartime is shaped by common understandings about what is ethically acceptable and unacceptable Thomas makes extensive use of two cases the assassination of foreign leaders and the aerial bombardment of civilians to trace the relative influence of norms and interests His insistence on interconnections between ethical principle and material power leads to a revised understanding of the role of normative factors in foreign policy and the ways in which power and interest shape the international system Revolutionary State-Making in Dar es Salaam George Roberts, 2022-12-22 Tracing Dar es Salaam s rise and fall as an epicentre of Third World revolution George Roberts explores the connections between the global Cold War African liberation struggles and Tanzania s efforts to build a socialist state Roberts introduces a vibrant cast of politicians guerrilla leaders diplomats journalists and intellectuals whose trajectories collided in the city In its cosmopolitan and rumour filled hotel bars embassy receptions and newspaper offices they grappled with challenges of remaking a world after empire Yet Dar es Salaam s role on the frontline of the African revolution and its provocative stance towards global geopolitics came at considerable cost Roberts explains how Tanzania s strident anti imperialism ultimately drove an authoritarian turn in its socialist project and tighter control over the city s public sphere This title is also available as Open Access on Cambridge Core The Kravchenko Case Gary Kern, 2013-10-18 Victor Kravchenko the most discussed Soviet defector at the height of the Cold War Chinese Communist Espionage Peter Mattis, Matthew Brazil, 2019-11-15 This is the first book of its kind to employ hundreds of Chinese sources to explain the history and current state of Chinese Communist intelligence operations It profiles the leaders top spies and important operations in the history of China s espionage organs and links to an extensive online glossary of Chinese language intelligence and security terms Peter Mattis and Matthew Brazil present an unprecedented look into the murky world of Chinese espionage both past and present enabling a better understanding of how pervasive and important its influence is both in China and abroad Twilight of the British Empire Chikara Hashimoto, 2018-01-23 A wide ranging study of developments in global French language cinema *The Aesthetic Dimensions of Educational Administration & Leadership* Eugenie A. Samier, Richard Bates, 2006-11-22 The question of

aesthetics as a theoretical framework for thinking about modern leadership issues in educational settings is an emergent area of inquiry that is receiving considerable attention. There is a growing sense that the mechanistic approach to leadership which has been widely encouraged over the last ten years is sterile and that a more philosophical approach is now required. This approach is covered here taking into account the importance of aesthetics on all aspects of the administrative and leadership world: the ways ideas and ideals are created; how their expression is conveyed; the impact they have on interpersonal relationships; and the organisational environment that carries and reinforces them and the moral boundaries or limits that can be established or exceeded. While presenting a significant departure from conventional studies in the field, the international contributors reflect a continuity of thought on administrative and leadership authority from the writings of Plato through to current theory.

Taghi Erani, a Polymath in Interwar Berlin Younes Jalali, 2018-08-28

A prominent civil servant, scientist and intellectual, Taghi Erani was a pivotal figure in interwar Iran. Witness to two of the major political upheavals in the twentieth century—the rise of Pahlavi and the collapse of the Weimar Republic—he turned from fundamental science to leftwing activism and pacifism, leading to his arrest and death in prison. Younes Jalali traces his journey from Tehran to Berlin, where in the 1920s he crossed paths with the greatest German scientists and scholars of his day, including Max Planck, Albert Einstein and Friedrich Rosen, and published seminal works on psychology and political philosophy. In the 1930s, as Reza Shah pursued rapprochement with the Third Reich, Taghi Erani was caught up in a crackdown on left wing and pro labor activists. His life and death offer a unique lens through which to view modern Iranian intellectual and political history.
