The Nature of Narrative Robert Scholes, Robert Kellogg, Robert Leland Kellogg, 1966 This analytical study provides a welcome balance to the critical practice of judging all narrative literature by standards appropriate only to the novel Scholes and Kellogg argue that such a narrow view obscures the real tradition of narrative literature in the Western world Examining the work of Joyce Proust Mann Lawrence Faulkner and other writers of this century they consider elements common to all narrative forms including myth folktale epic romance allegory confession and satire

The Nature of Narrative: Revised and Expanded Robert Scholes, James Phelan, 2014-05-14 For the past forty years *The Nature of Narrative* has been a seminal work for literary students teachers writers and scholars Countering the tendency to view the novel as the paradigm case of literary narrative authors Robert Scholes and Robert Kellogg in the original edition offered a compelling history of the genre narrative from antiquity to the twentieth century even as they carried out their main task of describing and analyzing the nature of narrative s main elements meaning character plot and point of view Their history emphasized the broad sweep of literary narrative from ancient times to the contemporary period and it included a chapter on the oral heritage of written narrative and an appendix on the interior monologue in ancient texts The fortieth anniversary edition of this groundbreaking work has been revised and expanded to include a new preface and a lengthy chapter on developments in narrative theory since 1966 by James Phelan This chapter describes the principles and practices of structuralist cognitive feminist and rhetorical approaches to narrative paying special attention to their work on plot character and narrative discourse A continued leader in the field of narrative studies *The Nature of Narrative* offers unique and invaluable histories of both narrative and narrative theory

Nature and Narrative Markku Lehtimäki, 2025-05-23 The book explores environmental issues in twenty first century Anglophone fiction and how those issues are dealt with by specific literary means It proposes a reciprocal relationship between nature and narrative the idea according to which nature both informs and inspires artistic creations while literary designs and rhetoric also shape our

ideas and perceptions of the natural environment It is argued that in order to address design and rhetoric in environmental texts we need a close analysis of those world shaping functions of literary narratives that unite ecocritical and narratological interests The author presents readings of contemporary novels and their varying ways of seeing nature through narrative devices and fictional minds The novels discussed in the book are Hilary Mantel's Wolf Hall Toni Morrison's A Mercy Ian McGuire's The North Water Barbara Kingsolver's The Lacuna Paul Harding's Tinkers and Enon J M Coetzee's Elizabeth Costello Ian McEwan's Solar and Jenny Offill's Weather

The Nature of Narrative Robert E. Scholes, Robert Kellogg, 1966

Before Literature Sheila J. Nayar, 2019-10-08 Before Literature examines storytelling that whether due to historical technological or socio economic circumstance is neither shaped nor influenced by alphabetic literacy How does a story unfold when carried solely in memory when it cannot be written down or externally stored What structural and stylistic pressures are imposed when it must travel through space and time exclusively by word of mouth In Before Literature Sheila J Nayar addresses these very questions guiding the reader in a lively and accessible manner through the key features of storytelling that's been unaffected by writing Even more Nayar shows how the very norms that drove oral epics such as the Mahabharata and Homer's Odyssey can continue to shape contemporary forms like Bollywood masala films Hollywood spectacles and comic books This clear and accessible guide is an ideal starting point for undergraduates approaching the study of orality It offers a fundamentally different way of thinking about oral narrative while also disclosing some of the hows and whys of written literature leading to a much broader understanding and appreciation of our storytelling tradition

The Nature of Narrative Robert E. Scholes, Robert Kellogg, 1968

Towards a 'Natural' Narratology Monika Fludernik, 2002-11-01 In this ground breaking work of synthesis Monika Fludernik combines insights from literary theory and linguistics to provide a challenging new theory of narrative This book is both an historical survey and theoretical study with the author drawing on an enormous range of examples from the earliest oral study to contemporary experimental fiction She uses these examples to prove that recent literature far from heralding the final collapse of narrative represents the epitome of a centuries long developmental process

The Power of Narrative Pascal Nouvel, 2025-10-06 Telling a story changes the way we think about an event and makes us understand it differently The very power of storytelling lies in this process of making understanding We give meaning to what is happening on the basis of what we have understood about what was in the past or what could be in the future The same is true when we tell our own story we give different meanings to the events of our own lives in the various accounts we give of them This process was spotted early on by the Stoic philosophers who used it in certain techniques of the self Michel Foucault that they called hupomnemata The analysis of this process is at the heart of this book which lies between philosophy literature and historical reflection How does meditating on one's history help to change one's own attitudes And what does the fact that it is possible to change oneself by looking back at oneself tell us about what man is in general Is this a universal fact or is it limited to one or a few cultures

Interpreting Nature Brian

Treanor, Martin Drenthen, David Utsler, 2013-11-11 Modern environmentalism has come to realize that many of its key concerns wilderness and nature among them are contested territory viewed differently by different people Understanding nature requires science and ecology to be sure but it also requires a sensitivity to history culture and narrative Thus understanding nature is a fundamentally hermeneutic task

Narrative Identity and Personal Responsibility Linda Ethell, 2010-06-28 Narrative Identity and Personal Responsibility is about why and how identifying ourselves by means of narrative makes it possible for us to be responsible morally and otherwise The book begins as an investigation into how it is that we can hold people responsible for who they are despite the fact that we have almost no control over our lives in our formative years It explains the relation between representation personal identity and self knowledge demonstrating how awareness of the vulnerability of our identity as persons is the origin of our capacity for the cathartic revision of a self identifying narrative which is the condition of moral awareness Innovative in its interdisciplinary juxtaposition of ethics moral psychology literary theory and literature Narrative Identity and Personal Responsibility develops a sophisticated and comprehensive account of human nature This book offers an intuitively satisfying and humane yet rigorous account of why and how we think of ourselves as simultaneously free and constrained by nature Its fundamental thesis the mediation of narrative representation between agent and the world suggests new answers to old problems in moral psychology such as the question of free will and responsibility With a more literary style than many philosophy texts it works through a series of interconnected problems of as much interest to a thoughtful layperson as to academic philosophers
