Bastin, 2004-12-31 **Bioterrorism** Joseph F. Gustin, 2021-01-07 In the current climate of terrorism the facility manager is in a more critical position than ever before Protecting the organization's building and its occupants from chemical biological and radiological CBR attacks that are designed to disrupt and or destroy business operation is becoming an increasingly important priority for facility managers using practice management Bioterrorism A Guide for Facility Managers provides a rationale for systematically identifying and evaluating the key areas of practice management The book is unique in scope focusing upon the awareness of terrorist threat It addresses CBR attacks as well as other forms of terrorism concerns such as mailroom security bomb threats etc along with the necessary steps for prevention how to assess vulnerability how to improve emergency preparedness and how to assure optimum response and recovery in the event of an attack It also presents examples of lessons learned and mistakes to avoid By focusing on practice management the text turns the challenges of facility management into opportunities for the facility manager These opportunities are manifested in an enhanced productivity that aligns itself with ensuring the safety of building employees occupants and tenants as well as with business operations **The Pocket Disaster Survival Guide** Harris J. Andrews, J. Alexander Bowers, 2010-04-01 Whether it's a

hurricane bearing down on a home near the coast or a power line downed in a snowstorm near a car are you prepared for these situations This slim handbook will provide you with all the information you need to ensure that you your family and your pets can weather any emergency crisis Learn the necessity of backing up important documents how to safely store food and water for more than a day and how to communicate with your family and emergency personnel should a disaster strike

POLICE ANALYSIS AND PLANNING FOR CHEMICAL, BIOLOGICAL AND RADIOLOGICAL ATTACKS John W. Ellis, 1999-01-01 This text is oriented toward planning police operations in the public sector but will be usable by other public officials as well as some private sector police operations It addresses police threat assessment of vulnerability assessment to defense against and response to attacks by special weapons of mass destruction in a civilian setting These include chemical biological and radiological attacks It begins with a review of the policy and legal issues pertaining to special weapons and of the pertinent counter terrorist response considerations discussed in the author's other book POLICE ANALYSIS AND PLANNING FOR VEHICULAR BOMBINGS It continues with assessment of the various types of special weapons of mass

destruction and the terrorist's ability to make and use them a historical review of significant incidents for each of the major subcategories of weapons the limitations of police response operations in the United States and defense response to this form of attack It concludes with commentary on actions that may be needed if this threat continues to develop in the United States Hopefully this text will be of benefit to those officers and officials that have never had to confront this type of problem and will help build the skill and psychological preparation for battle that prevents the attack and enables effective response
