Alexandrian Cosmopolitanism Hala Halim, 2013-09-19 Interrogating how Alexandria became enshrined as the exemplary cosmopolitan space in the Middle East this book mounts a radical critique of Eurocentric conceptions of cosmopolitanism The dominant account of Alexandrian cosmopolitanism elevates things European in the city's culture and simultaneously places things Egyptian under the sign of decline The book goes beyond this civilization barbarism binary to trace other modes of intercultural solidarity Halim presents a comparative study of literary representations addressing poetry fiction guidebooks and operettas among other genres She reappraises three writers C P Cavafy E M Forster and Lawrence Durrell who she maintains have been cast as the canon of Alexandria Attending to issues of genre gender ethnicity and class she refutes the view that these writers' representations are largely congruent and uncovers a variety of positions ranging from Orientalist to anticolonial The book then turns to Bernard de Zogheb a virtually unpublished writer and elicits his camp parodies of elite Levantine mores in operettas one of which centers on Cavafy Drawing on Arabic critical and historical texts as well as contemporary writers and filmmakers engagement with the canonical triumvirate Halim orchestrates an Egyptian dialogue with the European representations

discusses the modular curriculum embodied in The Epistle from educational historical sociolinguistic anthropological phenomenological and non sectarian perspectives It shows the cross boundary philosophical reasoning and pedagogic dimensions of St Paul as a great teacher and thinker from the Jewish and Christian faith In doing so this book refocuses academia s attention on the inevitable antimonic nature inherent in humans efforts to create systemic knowledge Knowledge about the inner aesthetic and volitional interpretative self the immanent psychic I and other philosophical aspects of the realm of the transcendental should be rescued from the deepening trends of secularity Being strong powerful productive and performative should not be taken as the indisputable and exclusive aim of education Science Technology Engineering and Mathematics STEM do not constitute a sufficient basis for building a better humanity Education via public curriculums ought to serve both the belly and the mind Deliberative curricular recalibrations with rationales for grace are thus needed for a better future for humanity This book is relevant for anyone with a core fascination about truths values epistemologies life spirituality and holistic human development It can also be used as a textbook or a reference in a number of fields including counselling psychology translation cultural studies and theology

The Body and Shame Luna Dolezal,2015-03-31 The Body and Shame Phenomenology Feminism and the Socially Shaped Body investigates the concept of body shame and explores its significance when considering philosophical accounts of embodied subjectivity Body shame only finds its full articulation in the presence actual or imagined of others within a rule and norm governed milieu As such it bridges our personal individual and embodied experience with the social cultural and political world that contains us Luna Dolezal argues that understanding body shame can shed light on how the social is embodied that is how the body experienced in its phenomenological primacy by the subject becomes a social and cultural artifact shaped by external forces and demands The Body and Shame introduces leading twentieth century phenomenological and sociological accounts of embodied subjectivity through the work of Edmund Husserl Maurice Merleau Ponty Jean Paul

Sartre Michel Foucault and Norbert Elias Dolezal examines the embodied social and political features of body shame contending that body shame is both a necessary and constitutive part of embodied subjectivity while simultaneously a potential site of oppression and marginalization Exploring the cultural politics of shame the final chapters of this work explore the phenomenology of self presentation and a feminist analysis of shame and gender with a critical focus on the practice of cosmetic surgery a site where the body is literally shaped by shame The Body and Shame will be of great interest to scholars and students in a wide variety of fields including philosophy phenomenology feminist theory women s studies social theory cultural studies psychology sociology and medical humanities **The Rough Guide to Crete** John
