poem thinks that is what results from the circumstances of a poet's native language choice of words and topics the mentality that the poet shares with other writers and the range of poetic possibilities and limitations in a given language Through exemplary case studies taken from his own experience in writing poetry as well as in translating poetry from languages ranging from Sophocles's and Pindar's ancient Greek to their contemporary French Italian Portuguese Russian and Spanish successors Gibbons traces the curious persistence of classical modes and images into the twenty first century He shows how the very language used in composing a poem be it ancient Greek Renaissance English or contemporary Russian both limits and enables how a poet thinks and what the poet can say Even in describing difficult poetic concepts and operations Gibbons writes in a clear companionable style entirely accessible not just to practicing poets but also to general readers interested in poetry and to writers of various stripes interested in the way our native language can often circumscribe what and how we think poetically and affect how we compose poetry and prose This book joins other titles by this award winning writer on the Press's list
