Praktische Theologie Geschiedenis Theorie Handelingsvelden:

Praktische theologie Gerben Heitink,1993 *Een kerk met karakter* Gerben Heitink,2007 Analyse van de oorzaken van de leegloop van de traditionele kerken met een betoog over de wijze waarop een herleving van het kerkelijk leven mogelijk is door de emeritus hoogleraar Praktische Theologie van de Vrije Universiteit **Education for Reflective Ministry** J. A. van der Ven,1998 The picture that pastors have of themselves and of their experiences in the ministry is ambivalent On the one hand they find the pastoral work which they perform meaningful important and relevant On the other hand pastors suffer from chronic stress of some sort caused by different factors on the micro meso and macro level of religion church and society Many pastors experience the modernization and subsequently the secularization process as a very serious problem which negatively influences religious life within the parish Pastors are bowed down by uncertainty over how their work contributes to the parish mission in today s society and even more so by doubts over what that mission is in particular the diaconal mission Which direction can shall should the pastor take if neither the church nor the theological institutions are able to provide him or her with a clear frame of reference an attractive perspective a convincing policy a plausible course of action and a meaningful set of aims goals and objectives There is no alternative but to risk taking responsibility for oneself and choosing one s own course of action To take this risk is not reckless or foolhardy as long as the choices are always informed by a religious self reflection that is open to tradition as well as to the future This allows the pastor to be his own guide to transgress useless customs and habits and cross the boundaries into as yet unknown territory The task of education must be to provide the foundation that enables the pastor to make those choices and take those risks in a well considered prudent and truly religious manner This study represents not only an interpretative description of some of the education for ministry in today s societal cultural and ecclesiastical context in the western world but also a proposal for a new model the reflective ministry model **Normativity And Empirical Research In Theology** Johannes Antonius van der Ven,Michael Scherer-Rath,2004 In this publication researchers and academics from South Africa Great Britain Switzerland Germany and the Netherlands provide theoretical explanations and examples of empirical research with regard to the fundamental question of the role of theological normativity in empirical research in theological fields Hermeneutics and Empirical Research in Practical Theology Chris Hermans,Mary Moore,2021-09-20 There is a growing consensus among scholars in different countries about the object of practical theology Hans van der Ven has contributed much to this consensus through his writings on the foundations of practical theology the empirical paradigm within practical theology and specific subdisciplines within practical theology especially religious education moral education church development and ministry At the center of this growing consensus is an understanding of the independent hermeneutical role of religious experiences and practices of people in the process of theological theory building If contemporary religious experiences and practices have a critical role with regard to religious tradition and the ministry of this tradition then practical theology

cannot just be a form of applied theology The contributors of this volume focus on this hermeneutical core foundations of practical theology and on empirical research as a research method within practical theology in the work of Van der Ven

Emerging Leadership in the Pauline Mission Jack Barentsen, 2011-08-04 Winner of the 2012 Fredric M Jablin Doctoral Dissertation Award Where did Paul find leaders for his new churches How did he instruct and develop them What processes took place to stabilize the churches and institute their new leadership This book carves a fresh trail in leadership studies by looking at leadership development from a group dynamic social identity perspective Paul engages the cultural leadership patterns of his key local leaders publicly affirming correcting and improving those patterns to conform to a Christlike pattern of sacrificial service Paul's own life and ministry offer a motivational and authoritative model for his followers because he embodies the leadership style he teaches As a practical theologian *avant la lettre* Paul contextualizes key theological themes to strengthen community and leadership formation and equips his church leaders as entrepreneurs of Christian identity A careful comparison of the Corinthian and Ephesian churches demonstrates a similar overall pattern of development This study engages Pauline scholarship on church office in depth and offers alternative readings of five Pauline epistles generating new insights to enrich dogmatic and practical theological reflection In a society where many churches reflect on their missional calling such input from the NT for contemporary Christian leadership formation is direly needed

God Reinvented? Johannes A. van der Ven, 2023-12-18 Everywhere in the western world the process of secularization leads to the decline of faith in God The concept of secularization itself however has come under attack by critics who believe that it does not adequately account for processes which may be part of a certain renaissance as marginal and unrecognized as it may be of belief in God Whether these processes are actually taking place and whether this renaissance if such it is will bring about a transformation of that belief are questions still waiting to be answered Are we witnessing the re creation of God images or the re discovery of God The tension between re creation and re discovery lies at the root of this book and its title which has been framed very intentionally as a question *God Reinvented* *Dreaming the Land* Friedrich Schweitzer, International Academy of Practical Theology. Meeting, 2007 *Dreaming the Land* Theologies of Resistance and Hope is a theme that testifies to the contextual nature of practical theology This present volume contains a collection of essays with international contributions to practical theology In their original form these essays were presented at the seventh biennial conference of the International Academy of Practical Theology IAPT held at Brisbane Australia in June 2005 The dreaming and the land are both concepts central to the thinking of the aboriginal peoples of Australia The dreaming encompasses the creative and life giving forces which govern and express the lifeworld of these same people while the land is sacred space where the spirits of the ancestors of all human plant and animal life are represented The theme is the common thread in the first part of the book Here the search for Theologies of Resistance and Hope is related to experiences in the southern hemisphere to issues of the land as a concept for practical theology and to questions of human rights **Religious**

Individualization and Christian Religious Semantics Hans-Georg Ziebertz, 2001 In the western world there has been a change in religion Some researchers speak of a general secularization in the sense of a decline of religion in general Other researchers claim that religion represented by the dominant churches in particular are losing importance Still others are discovering that religious vitality is an inherent dimension of modernity The analytical profit might be the greatest if empirical researchers succeed in achieving some sort of balance between functional and substantial dimensions of religion This is the goal of the authors of this volume It is in this balance that the task of practical theology rests to reflect on the tension between traditional Christian religion and actual religious practice and to open up perspectives for action in the pastoral practice and teaching Hans Georg Ziebertz series editor is professor of practical theology pedagogics of religion at the University of Würzburg Germany

Theology of Ministry Borght, 2007-06-30 Theology of ministry has always been a controversial issue in the relation between churches especially with its juridical approach that concentrated on authority In recent decades the secularization and individualization in the Western world have intensified the challenge to reformulate the mission of the church and its ministries Building on the Reformed theology of the 16th century Zwingli Calvin and confessions and on the results of the ecumenical convergence on ministry BEM in the 20th century this study presents building blocks for a renewed theology of ministry in the 21st century

Social constructionism and theology [electronic resource] Chris A. M. Hermans, 2002 Practical theology starts its theological reflections from practices aims at analyzing empirically practices and is directed towards the transformation of these practices From this practice orientation there is a strong connection between practical theology and the social sciences Social constructionism is a growing theory within the social sciences This volume offers a theological and social scientific reflection on this emerging concept of social constructionism
