Textures of Light Cathryn Vasseleu,2002-01-31 Textures of Light draws on the work of Luce Irigaray Maurice Merleau Ponty and Emmanuel Levinas to present an outstanding and ground breaking study of the vital importance of light in Western thought Since Plato s allegory of the cave light and the role of sight have been accorded a unique position in Western thought They have stood as a metaphor for truth and objectivity and the very axis of modern rationalism More recently however this status has come under significant criticism from continental and feminist thought which has stressed the privileging of subjectivity and masculinity in such a metaphor

Mani Ort,2024-09-23 *Orogenies of Light* Richard Leviton,2019-10-29 ONE DAY IN 2084 EARTH S ORIGINAL MOUNTAINS SUDDENLY REAPPEARED ON THE PLANET AS 85 000 DOMED CANOPIES OF LIGHT FROM THE STARS The story of this return is told by Blaise a well informed but mysterious figure who claims to be an engineer 134 years old and part of an ancient team that first designed the planet It s a chronicle of his last field assignment a unique career retrospective and a firsthand account of the momentous return of the domes These are giant half spheres of Light that originally helped create the biosphere and were the Earth s first mountains They generated the Earth s sacred sites and the mythic homes of the gods and linked them all in a global pattern of Light The domes arrived all at once and started to reorganize the global landscape It was their fourth visit and it would be several perilous years as the planet adjusts to it Blaise and his team of geomancers travel across the Earth and time to deal with the unprecedented perturbations set in motion by this celestial rescue of the planet Problems are rife the revolt of Pan and the Nature Spirits the continuing dark interference by humanity s ghostly forebears the resurgence of Babylon and its imperious agenda and the planet s dangerous drift towards becoming flattened like a hockey puck But the opportunities are fabulous too as the planet enters an era of unceasing Light and beatific conditions The return of the domes lays bare the true history of the Earth how it diminished from perfection the benign superintendents of this bold experiment and who its earliest inhabitants were and the massive problems they created which still affect us today It is a genuinely apocalyptic moment as the Earth reveals its original bright pattern of energy and consciousness and starts at last to fulfill its destiny

The Eschatology of the Restoration of All Things Mike

Parsons,2023-05-17 Eschatology is often thought of as describing the end of the world or end times Yet many have begun to conclude that the restoration of all things is an inevitable consequence of who God really is as Love encouraging them to look to the future with optimistic anticipation and expectation Isaiah prophesied no end to the increase of God s government and peace so why are believers still looking for an end Mike Parsons examines the reasons for this confusion exposing the Great Deception that lies behind it and proposing instead a happy eschatology in which all of God s children can recognise and fulfil their eternal destiny

Cosmology and theology share a long held relationship with one another explaining as they do the constitution of the world and the interaction of forces The author explores the history of this relationship from ancient pre scientific and theological explanations through to contemporary science and philosophy In this history a particular problem is highlighted by the author the prevalence of dualism from Aristotelian philosophy to modern mechanistic conceptions many of these accounts presume a sharp absolute dichotomy between matter and spirit and the material world and the divine Increasingly dualistic conceptions are called into question by contemporary science theology and philosophy The author argues that a particular trajectory stemming from Greek Heraclitian and Platonic philosophy to non orthodox and early Christian theologies provides a fruitful resource for contemporary discussions This is the Logos theology and its attendant language of light The author brings this tradition into dialogue with contemporary science and theology to construct an integrative account
