What is PHILOSOPHY?

The ancient Greek used this term to refer to “love of wisdom” and they soon applied it to the study or discipline that uses human reason to investigate the ultimate cause, reasons, and principles which govern all things.

Reason in Art and Reason in Science **Introduction to Modern Spanish Literature** Kessel Schwartz, **Reason and Life** Julián Marías Aguilera, 1956 **Reason, Life, Culture** Anna-Teresa Tymieniecka, 2012-12-06 Rationality in its various expressions and innumerable applications sustains understanding and our sense of reality It is traditionally differentiated according to its sources in the soul in consciousness in reason in experience and in elevation Such a functional approach however leaves us searching for the common foundation harmonizing these rationalities The perennial quest to resolve the aporias of rationality is finding in contemporary science s focus on origins on the generative roots of reality tantalizing hints as to how this may be accomplished This project is enhanced by the wave of recent phenomenology ontopoiesis of life which reveals expresses the workings of the logos at the root of beingness and all rationality whereby we gaze upon the prospect of a New Enlightenment In the rays of this vision the revival of the intuitions of classical Islamic metaphysics particularly intuition of the continuity of beingness in the gradations of life receive fresh confirmation *The Life of Reason: Introduction, and Reason in Common Sense* George Santayana, 2017-08-20 **The London Mercury** Sir John Collings Squire, 1921 **International Philosophical Quarterly** , 1983 A World of Difference (Reasons to Believe) Kenneth Richard Samples, 2007-09-01 Recent Barna research indicates that less than one in ten evangelical Christians hold a biblical worldview A World of Difference seeks to change this disturbing fact by educating readers on how the Christian perspective is uniquely reasonable verifiable and liveable Author Kenneth Richard Samples faced a profound test of his own belief system during a personal life and death crisis In A World of Difference he uses nine distinct tests to compare the Christian worldview with current religious and philosophical competitors including Islam postmodernism naturalism and pantheistic monism Samples tackles tough issues through this in depth study of Christianity s history creed and philosophical basis An excellent resource for readers who want their view of life and the world to make sense **The Good Life** Wolfgang Pleger, 2023-10-21 The book offers a historical systematic overview of the most important concepts of ethics each of which is presented using three to four exemplary main representatives Central quotations allow textual access to the respective position which is explained compactly and clearly With the title The Good Life the author points to the anthropological basis of all ethics The book is interdisciplinary in nature incorporating philosophical approaches as well as those from the fields of theology biology psychology sociology and politics For the 2nd edition the book will be expanded to include the chapter Education Pedagogical Ethics and a chapter on universal human rights **Reason, Rhetoric, and the Philosophical Life in Plato's Phaedrus** Tiago Lier, 2019-06-28 Plato is a well known critic of rhetoric but in the Phaedrus he defends the art of rhetoric arguing that it can be perfected with the aid of philosophy In Reason Rhetoric and the Philosophical Life in Plato s Phaedrus Tiago Lier provides a new and comprehensive interpretation of this important dialogue He argues that Plato s defense of rhetoric is based on philosophy s ethical nature and that philosophy is a way of life rather than a body of knowledge For Plato an essential element of both rhetoric and the philosophical life is that every use of speech whether to

persuade or to learn depends upon the psychology of the speaker and the audience Lier shows how Socrates develops a dynamic account of this psychology over the course of the dialogue in order to help Phaedrus understand how he is personally engaged in and shaped by every act of communication Only when we grasp the tension between eros and logos will we discover the limitations of the art of rhetoric and that rhetoric alone cannot show us what we truly desire Instead Lier concludes the greatest power of speech is to reveal to ourselves our own desires and understanding of our place in the world This continual self reflection is the philosophical life around which Socrates and Plato fashion their distinctive forms of rhetoric The insights developed in this book will be of particular relevance to students and scholars of ancient philosophy classics and rhetorical theory but it will also be of interest to those working in political science literary studies and communication studies

Debating Transcendence Bin Song, 2025-11-04 A bold and rigorous reexamination of transcendence uniting religion theology philosophy and science while bridging Confucian and Christian thought to explore the origins of the world and human destiny *Debating Transcendence* is a groundbreaking contribution to the ongoing dialogue between Confucian and Christian thought by addressing the transcendence debate a key controversy that has shaped centuries of cross cultural intellectual exchange Song examines whether the Confucian concept of Tian Heaven or Taiji Ultimate Limit possesses a transcendent dimension comparable to Christian understandings of the Creator God This study revisits the historical and philosophical roots of the debate tracing its evolution from early interactions between Confucianism and Christianity during the sixteenth century to present day discussions At the heart of this book is Song's aim to construct a Confucian definition of theology and a Confucian approach to comparative theology Grounded in a scientifically rigorous methodology that transcends the conceptual boundaries of philosophy religion and theology this new approach balances rootedness and impartiality minimizing biases and revealing shared ground Covering essential thinkers from the West and the East such as Plato Augustine Descartes and Paul Tillich alongside Confucius Laozi Wang Bi and Zhu Xi Song explores the historical development of key concepts such as creatio ex nihilo creation out of nothing and sheng birth birth challenging misconceptions and highlighting underexplored commonalities and differences Drawing from his diverse scholarly background and extensive engagement with both traditions Song distinguishes Confucian from Daoist metaphysics and demonstrates that Confucian metaphysics centered around the concept of generatio ex nihilo offers a compelling framework for understanding transcendence that not only resembles but in certain aspects surpasses major streams of its Christian counterpart Readers seeking to understand the profound spiritual foundations underpinning interactions between China and the West will find Song's work essential Combining rigor scope and depth *Debating Transcendence* paves the way for refreshed interactions between Confucian and Christian thought offering insights vital to contemporary scholarship and interreligious exchange

Faith, Reason, and Beyond Reason Mark J. Boone,2024-07-16 The relationship between faith and reason is multifaceted Faith transcends reason in that it is more than reason alone can contain or fully guarantee yet it is neither unreasonable nor something to which reason is irrelevant and reason says some pretty fine things about it This volume updates nine previously published articles on faith and reason by a Christian philosopher who has been studying these matters for two decades alongside one new essay and a philosophical dialogue These articles explain and integrate key ideas on faith and reason including Alvin Plantinga s account of how Christian belief can be knowledge even without evidence defenses of faith from Augustine and William James accounts of empirical evidence for faith from different world religions the distinction between faith and sight in the New Testament the structure of the evidence for the authority of the Bible the idea that faith transcends reason because some articles of faith are beyond human comprehension even if we have evidence that they are true and the nature of faith as a total commitment beyond what the evidence alone can guarantee *Law and Life. Why Law?* Peter van Schilfgaarde,2019-03-25 This book is based on the assumption that the world is governed by a widespread field of interconnected laws In this field man made laws legal laws have to coexist with the laws of nature the laws of science and the laws of logic They have to find their place in relation to a certain society They have to relate to the demands of morality ethics custom and trust They have to follow the laws of language They have to deal with a variety of professional and esthetic rules They have to defend their position between art and craft Finally and significantly they have to cope with a host of different ideas about truth This book approaches law as a human construct meant to strengthen society as it develops through the ages Knowledge of the law legal knowledge is of doubtful value if it ignores the demands and ideals of society The same goes for the thinking leading to legal knowledge This book focuses on a basic concept That concept is met if the legal thinking leading to legal knowledge reaches the level of an independent law and society oriented contemplative discipline A discipline which is in that sense and to that extent in touch with cherished or less cherished parts of given law *Hearst's International* ,1906
