Reason And Realpolitik:

Air University Review ,1985 **A Theory of Global Energy Governance** Frédéric Sourgens,2025-09-04 Energy governance today is at a crossroads Faced with the pressing issues of energy security climate change and the cost of energy policymakers must grapple with how to achieve critical outcomes in an increasingly tumultuous world A Theory of Global Energy Governance offers the first unitary and interdisciplinary theory of global energy governance that explains the interlinkage between domestic and global energy decision making processes It lays out a new path to resolve global energy geopolitical tensions grounded in a shared sense of belonging within the global energy commons Part I explores the theoretical relationship between development and energy systems Part II presents an understanding of energy governance as founded on a bond of energy belonging contrasting with the prevailing realpolitik approach In Part III Sourgens reimagines the role of institutions in the global energy system to harness the benefits of deeper energy cooperation Finally Part IV furthers the discussion of the global energy commons by highlighting the unique position and potential of energy systems to steer the world towards a broader conception of the common good **Ideology and International Relations in the Modern World** Alan Cassels,2002-11-01 Cassels offers a novel perspective on the part played by ideology in international relations over the past two centuries His treatment is not restricted to the familiar totalitarian ideologies of communism and nazism but also includes conservatism liberalism and nationalism The focus and emphasis given to ideology in an historical survey of such broad scope make this book unusual and even controversial **Air university review, 1984** ,1984 *The War Over Perpetual Peace* E. Easley,2004-12-02 This book examines the various competing interpretations of Kant s foundational Perpetual Peace since its initial publication in the late eighteenth century According to Easley s analysis there are two patterns of interpretations 1 the text endorses peace proposals above the state level 2 the text is in favour of peace proposals at the state level The principal explanation for these two patterns resides in the rise and fall of hopes for peace through international organizations It can also be attributed to the rise in the number of liberal states over time Eric Easley provides a comprehensive historical background and analytical framework for understanding Perpetual Peace allowing scholars of international relations to better understand and appreciate its complex meaning and see beyond the conventionally accepted interpretations of the day Reasoning of State Brian C. Rathbun,2019-02-14 Challenges the assumption of the rationality of foreign policy makers in international relations showing how leaders systematically vary in the rationality of their thinking **Global Limits** Mark F.N. Franke,2001-05-16 Explores the limits of Kantian approaches to the study of international affairs The Legacy of Pierre Bourdieu Simon Susen,Bryan S. Turner,2013-12-01 These critical essays bring together prominent scholars in the social sciences to consider the diverse nature of the legacy of Pierre Bourdieu in contemporary social theory In offering a range of perspectives on the continuing relevance of Bourdieu s sociology the essays of this volume examine Bourdieu s relationship to both classical and contemporary social theory This

collection constructs an intellectual bridge between French speaking and English speaking accounts of Bourdieu's work

Bounded Divinities F. Frohock, 2016-04-30 This serves as a handbook to guide us through the thickets of the sacred the secular religion and politics by charting the supernatural as a natural defining feature of religion Santer a is used as a case study to illustrate the similarities and differences among religious and political practices and discusses effective dispute management

The Killing Trap Manus I. Midlarsky, 2005-10-20 The Killing Trap offers a comparative analysis of the genocides politicides and ethnic cleansings of the twentieth century which are estimated to have cost upwards of forty million lives The book seeks to understand both the occurrence and magnitude of genocide based on the conviction that such comparative analysis may contribute towards prevention of genocide in the future Manus Midlarsky compares socio economic circumstances and international contexts and includes in his analysis the Jews of Europe Armenians in the Ottoman Empire Tutsi in Rwanda black Africans in Darfur Cambodians Bosnians and the victims of conflict in Ireland The occurrence of genocide is explained by means of a framework that gives equal emphasis to the non occurrence of genocide a critical element not found in other comparisons and victims are given a prominence equal to that of perpetrators in understanding the magnitude of genocide

Social States Alastair Iain Johnston, 2014-06-12 Constructive engagement became a catchphrase under the Clinton administration for America's reinvigorated efforts to pull China firmly into the international community as a responsible player one that abides by widely accepted norms Skeptics questioned the effectiveness of this policy and those that followed But how is such socialization supposed to work in the first place This has never been all that clear whether practiced by the Association of South East Asian Nations ASEAN Japan or the United States Social States is the first book to systematically test the effects of socialization in international relations to help explain why players on the world stage may be moved to cooperate when doing so is not in their material power interests Alastair Iain Johnston carries out his groundbreaking theoretical task through a richly detailed look at China's participation in international security institutions during two crucial decades of the rise of China from 1980 to 2000 Drawing on sociology and social psychology this book examines three microprocesses of socialization mimicking social influence and persuasion as they have played out in the attitudes of Chinese diplomats active in the Conference on Disarmament the Comprehensive Nuclear Test Ban the Convention on Conventional Weapons and the ASEAN Regional Forum Among the key conclusions Chinese officials in the post Mao era adopted more cooperative and more self constraining commitments to arms control and disarmament treaties thanks to their increasing social interactions in international security institutions

Sociology and Post-Socialist Transformations in Eastern Europe Borut Rončević, Tamara Besednjak Valič, 2024-11-28 The volume offers a unique and comprehensive reflection on the role of sociology and sociologists in the transformation of post socialist Eastern European societies It provides detailed insight on the status of sociology in Eastern Europe its institutional development specifics of national sociological traditions the controversial and ambiguous relationship with the political system and importantly state

of the art knowledge about the role of sociology as a discipline and sociologists as academics educators public intellectuals experts politicians or civil society activists in three decades of transformation The volume follows a cultural political economy approach and provides a series of national case studies that analyse the role of sociology in re imagining Eastern European societies This topical volume is of interest to a wide interdisciplinary readership in the social sciences especially students and researchers working on Eastern Europe and on post socialist societies **Magill's Literary Annual** Frank Northen

Magill,1985-12 **Geography and Ethics** James D. Proctor,David M. Smith,2002-09-11 This book represents a landmark exploration of the common terrain of geography and ethics Drawing together specially commissioned contributions from distinguished geographers across the UK North America and Australasia the place of geography in ethics and of ethics in geography is examined through wide ranging thematic chapters Geography and Ethics is divided into four sections for discussion and exploration of ideas Ethics and Space Ethics and Place Ethics and Nature and Ethics and knowledge all of which point to the rich interplay between geography and moral philosophy or ethics *Melancholy Politics* Jean-Philippe Mathy,2011-01-01 The current cultural climate in France is often described as one of d clinisme or sinistrose a mixture of pessimism about the national future nostalgia for the past and a sinister sense of irreversible decline concerning the present The notion of democratic melancholia has become widely popular cropping up time and again in academic papers and newspaper articles In *Melancholy Politics* Jean Philippe Mathy examines the development of this disenchanted mood in the works of prominent French philosophers historians and sociologists since the beginning of the 1980s This period represents a significant turning point in French intellectual life as the legacy of major postwar and sixties theorists such as L vi Strauss Derrida and Foucault was increasingly challenged by a younger generation of authors who repudiated both Marxism and structuralism The book is not a classic intellectual or cultural history of post 1968 France but rather a contribution to the understanding of the present a collection of soundings into what remains largely a complex ongoing process The Theory and Practice of International Criminal Law Leila Nadya Sadat,Michael P. Scharf,2008 Cherif Bassiouni is often referred to as the father of international criminal law Every major international criminal law instrument developed in the last forty years from the Torture Convention to the Statute of the International Criminal Court bears his hallmark His writings diplomatic initiatives fieldwork and even litigation have made an unparalleled contribution to the emergence of international criminal law as a distinct discipline within the field of international law This book contains a collection of fifteen scholarly essays written by leading experts from around the world about the theory and practice of modern international criminal law with a focus on Cherif Bassiouni s unique legacy within this important area Among the contributing authors are Louise Arbour UN High Commissioner for Human Rights Mahnoush Arsanjani Chief of the UN Office of Legal Affairs Codification Division Diane Orentlicher UN Independent Expert on Combating Impunity Michael Reisman former President of the Inter American Commission for Human Rights Yves Sandoz Director for International Law of the International Committee of the Red Cross

As If Peoples Mattered Zelim Skurbaty, 2021-11-22 Ours is an era of decline for the nation state and one of world wide concern for the problems surrounding sub state groups minorities peoples and indigenous populations The often violent resurgence of conflicts between these groups and States in even the stable democracies poses a challenge to international law as well as to liberal political principles In this volume an expert in international minority rights provides not only significant clarification of the legal issues involved but also trenchant insights taken from a wide range of humanitarian disciplines from philosophy and systems theory to neuro linguistic programming NLP and transactional analysis TA The result is a meticulously researched book exploring from a variety of perspectives the terms peoples and minorities in international law as well as relationships between minorities peoples and indigenous rights individuation and self determination Of special interest is the attempt of the author to explain the existence of double standards in international minority rights dubbing them games with the help of transactional analysis and to redefine and reframe the basic terms such as international law sovereignty self determination etc The straightforward claim of the author is that the proposed theories can help both members of minorities and those in executive positions to gain insights on the cognitive level and make more congruent community oriented decisions on the practical level The book will hold particular appeal for all those interested in the international law of human rights politics and philosophy as well as students seeking a multi disciplinary perspective on these much debated areas

The Community of States James Mayall, 2015-10-08 This volume is a successor volume to *The Reason of States* Part 1 discusses ways in which to understand the nature possibility and limits of community beyond the state Specific chapters are devoted to the practical attempts of statesmen lawyers strategists and economists to devise morally defensible international policies on the basis of interest Part 3 challenges the conventional morality of states from alternative standpoints Kantian morality a reconsideration of the contemporary relevance of natural law an examination of the concept of responsibility in international politics and an analysis of the role of language in the development of communities

Routledge Library Editions: International Relations Various, 2021-08-05 The 10 volumes in this set originally published between 1959 and 1986 analyze the process of radical foreign policy change explore Marxist Leninist models of international relations describe the significance of cultural relations in international affairs highlight the changing nature of political communities and changing patterns of government and examine the interaction between the realms of ethics and international relations

Democratic Wars A. Geis, L. Brock, H. Mueller, 2006-02-28 The book turns the democratic peace theme on its head rather than investigating the reasons for the supposed pacifism of democracies it looks for the causes of their militancy In order to solve this puzzle the authors look across International Relations political theory political philosophy and sociology
