Reason and Belief in the Age of Roscelin and Abelard Constant J. Mews, 2024-10-28 The previous collection by Constant J Mews focused on the work and thought of Peter Abelard 1079 1142 the present volume looks more broadly at Abelard s intellectual and religious context in the Latin West and at his teacher the controversial nominalist philosopher and theologian Roscelin of Compi gne It opens with surveys of educational theory and practice in the 12th century schools Mews next explores the widespread movement in the period which sought to explain religious belief in terms accessible to reason and the background to accusations of heresy made by monks troubled by new attempts to interpret Christian belief both within and outside a school environment Five related studies then deal with previously unedited texts by Roscelin of Compi gne and St Anselm that throw new light on the importance of the philosopher and theologian who exercised a major influence on Peter Abelard

Reason and Belief in the Age of Roscelin and Abelard C. J. Mews, 2002 The papers that comprise this collection synthesise the author s research into the dynamism of thinking about reason and belief in northern France from the time of St Anselm until the mid twelfth century

Micro Middle Ages Paul Edward Dutton, 2023-10-30 Micro Middle Ages brings together five microhistorical case studies focusing on small or seemingly inconsequential evidence that leads to broader conclusions about medieval history and the way we do and understand history in general Paul Dutton provides an overview of microhistorical approaches and theorizes about its use in pre modern history As opposed to studying history from above or history from below Dutton shows the advantages for historians of doing history from the inside out starting from some single overlooked but potentially knowable thing delving deep inside and then reattaching it to its time and place Such an approach has one abiding advantage its insistence on being grounded in the particularity of the evidence The book highlights what the microhistorical is its conceptual and practical challenges Dutton argues that the attention to the micro has always been with us and is a constitutive cognitive part of who we are as human beings

Reynolds, 2016-06-30 An indispensable guide to how marriage acquired the status of a sacrament This book analyzes in detail how medieval theologians explained the place of matrimony in the church and her law and how the bitter debates of the sixteenth century elevated the doctrine to a dogma of the Catholic faith

A Companion to Bernard of Clairvaux, 2011-03-21 Bernard of Clairvaux is perhaps the most controversial figure of Western Europe s vibrant twelfth century Unlike Abelard who is seen as a proponent of modern thinking Bernard is often relegated to the darkest corner of the Middle Ages Nothing is easy with Bernard but these fresh evaluations of him and their reviews of recent scholarship enable the reader to make a more balanced evaluation of the man his writings and his impact on his period Bernard emerges as a multifaceted figure who sought to reform monasticism and ended up becoming a saint with an appeal to virtually all classes in medieval society Bernard lives on today with the lay and monastic scholars who continue to find new layers of meaning in his writings Contributors include Christopher Holdsworth Michael Casey James France Diane Reilly John Sommerfeldt Mette B Bruun Burcht Pranger Chrysogonus Waddell E Rozanne Elder and Brian Patrick McGuire

Logical Fictions in Medieval Literature and Philosophy Virginie Greene, 2014-10-23 In the twelfth and thirteenth centuries new ways of storytelling and inventing fictions appeared in the French speaking areas of Europe This new art still influences our global culture of fiction Virginie Greene explores the relationship between fiction and the development of neo Aristotelian logic during this period through a close examination of seminal literary and philosophical texts by major medieval authors such as Anselm of Canterbury Ab lard and Chr tien de Troyes This study of Old French logical fictions encourages a broader theoretical reflection about fiction as a universal human trait and a defining element of the history of Western philosophy and literature Additional close readings of classical Greek philosophers Plato and Aristotle and modern analytic philosophy including the work of Bertrand Russell and Rudolf Carnap demonstrate peculiar traits of Western rationalism and expose its ambivalent

relationship to fiction **Anselm of Canterbury and the Desire for the Word** Eileen C. Sweeney, 2012-04 Sweeney discusses the tensions of prayerful meditations and argumentative essays in Anselm's writings in a cumulative and comparative interpretation **Cistercian Stories for Nuns and Monks** Martha G. Newman, 2020-11-27 Around the year 1200 the Cistercian Engelhard of Langheim dedicated a collection of monastic stories to a community of religious women Martha G Newman explores how this largely unedited collection of tales about Cistercian monks illuminates the religiosity of Cistercian nuns As did other Cistercian storytellers Engelhard recorded the miracles and visions of the order's illustrious figures but he wrote from Franconia in modern Germany rather than the Cistercian heartland His extant texts reflect his interactions with non Cistercian monasteries and with Langheim's patrons rather than celebrating Bernard of Clairvaux Engelhard was conservative interested in maintaining traditional Cistercian patterns of thought Nonetheless by offering to women a collection of narratives that explore the oral qualities of texts the nature of sight and the efficacy of sacraments Engelhard articulated a distinctive response to the social and intellectual changes of his period In analyzing Engelhard's stories Newman uncovers an understudied monastic culture that resisted the growing emphasis on the priestly administration of the sacraments and the hardening of gender distinctions Engelhard assumed that monks and nuns shared similar interests and concerns and he addressed his audiences as if they occupied a space neither fully sacerdotal nor completely lay neither scholastic nor unlearned and neither solely male nor only female His exemplary narratives depict the sacramental value of everyday objects and behaviors whose efficacy relied more on individual spiritual formation than on sacerdotal action By encouraging nuns and monks to imagine connections between heaven and earth Engelhard taught faith as a learned disposition Newman's study demonstrates that scholastic questions about signs sacraments and sight emerged in a narrative form within late twelfth century monastic communities *Friendship and Faith: Cistercian Men, Women, and Their Stories, 1100-1250* Brian Patrick McGuire, 2024-10-28 In these articles Professor McGuire explores the riches of the Cistercian exemplum tradition These texts are made up of brief stories often with a miraculous content which provided moral support for novices and monks in Cistercian abbeys all over Europe in the High Middle Ages The Cistercians have been seen mainly in terms of their great writers like Bernard of Clairvaux and the impressive buildings they left behind But Cistercian literature also provides us with more humble insights from daily life shedding light on questions of sexuality anger depression and bonds of friendship also between monks and nuns They bring a freshness of insight and immediate experience and their seeming naivety lets us be aware of monks' commitment to each other in individual and community bonds In Cistercian storytelling the Gospel's message meets an historical context and bears witness to a transformation of Christian life and idealism while at the same time allowing us precious insights into how ordinary men and women not just monks and nuns lived and thought *The Oxford Handbook of the Trinity* Gilles Emery, Matthew Levering, 2011-10-27 This Handbook surveys the complex history of Trinitarian theology and reveals the Nicene unity still at work among Christians

today despite ecumenical differences Forty five contributors examine doctrinal developments and variations from biblical times to the present day *When Ego Was Imago* Brigitte Bedos-Rezak,2010-11-26 The diffusion of personal signs of identity during the twelfth century introduced individuals to mediated forms of communication The book analyses the conditions for and the implications of their partnering with material signs and images in expressing self and accountability

Medieval Philosophy of Religion Graham Oppy,N. N. Trakakis,2014-10-20 The Medieval period was one of the richest eras for the philosophical study of religion Covering the period from the 6th to the 16th century reaching into the Renaissance The History of Western Philosophy of Religion 2 shows how Christian Islamic and Jewish thinkers explicated and defended their religious faith in light of the philosophical traditions they inherited from the ancient Greeks and Romans The enterprise of faith seeking understanding as it was dubbed by the medievals themselves emerges as a vibrant encounter between and a complex synthesis of the Platonic Aristotelian and Hellenistic traditions of antiquity on the one hand and the scholastic and monastic religious schools of the medieval West on the other Medieval Philosophy of Religion will be of interest to scholars and students of Philosophy Medieval Studies the History of Ideas and Religion while remaining accessible to any interested in the rich cultural heritage of medieval religious thought **Mediaeval and Renaissance Logic** Dov M. Gabbay,John Woods,2008-03-14 Starting at the very beginning with Aristotle s founding contributions logic has been graced by several periods in which the subject has flourished attaining standards of rigour and conceptual sophistication underpinning a large and deserved reputation as a leading expression of human intellectual effort It is widely recognized that the period from the mid 19th century until the three quarter mark of the century just past marked one of these golden ages a period of explosive creativity and transforming insights It has been said that ignorance of our history is a kind of amnesia concerning which it is wise to note that amnesia is an illness It would be a matter for regret if we lost contact with another of logic s golden ages one that greatly exceeds in reach that enjoyed by mathematical symbolic logic This is the period between the 11th and 16th centuries loosely conceived of as the Middle Ages The logic of this period does not have the expressive virtues afforded by the symbolic resources of uninterpreted calculi but mediaeval logic rivals in range originality and intellectual robustness a good deal of the modern record The range of logic in this period is striking extending from investigation of quantifiers and logic consequence to inquiries into logical truth from theories of reference to accounts of identity from work on the modalities to the stirrings of the logic of relations from theories of meaning to analyses of the paradoxes and more While the scope of mediaeval logic is impressive of greater importance is that nearly all of it can be read by the modern logician with at least some prospect of profit The last thing that mediaeval logic is is a museum piece Mediaeval and Renaissance Logic is an indispensable research tool for anyone interested in the development of logic including researchers graduate and senior undergraduate students in logic history of logic mathematics history of mathematics computer science and AI linguistics cognitive science argumentation theory philosophy and the history of ideas

Provides detailed and comprehensive chapters covering the entire range of modal logic Contains the latest scholarly discoveries and interpretative insights that answer many questions in the field of logic

Kulturen des Lehrens im Früh- und Hochmittelalter Sita Steckel, 2011 Die Gelehrtenkultur des lateinischen Westens vor der Entstehung der Universitäten erscheint in neuem Licht wenn man sie nicht nur als Vorgeschichte späterer Wissenskulturen versteht Die Lehrer des frühen und hohen Mittelalters vermittelten nicht nur Wissen sondern religiöse Lehre Im vorliegenden Band werden Gelehrte daher nicht in Schulen sondern in kirchlichen Netzwerken verortet Ausführlich geht die Autorin den Strategien nach mit denen Lehrer zwischen 800 und 1150 sakralisierte Autorität beanspruchten In einem kontrastierenden Vergleich der kirchlich geprägten Wissensvermittlung des karolingischen Imperiums mit den deutschen und französischen Schullandschaften des Hochmittelalters werden insbesondere neue Zugänge zur Differenzierung europäischer Wissenskulturen um 1100 gesucht

Classical Rhetoric in the Middle Ages John O. Ward, 2018-12-24 Classical Rhetoric in the Middle Ages The Medieval Rhetors and Their Art 400-1300 with Manuscript Survey to 1500 CE is a completely updated version of John Ward's much used doctoral thesis of 1972 and is the definitive treatment of this fundamental aspect of medieval and rhetorical culture It is commonly believed that medieval writers were interested only in Christian truth not in Graeco-Roman methods of persuasion to whatever viewpoint the

speaker writer wanted Dr Ward however investigates the content of well over one thousand medieval manuscripts and shows that medieval writers were fully conscious of and much dependent upon Graeco Roman rhetorical methods of persuasion The volume then demonstrates why and to what purpose this use of classical rhetoric took place
