Reason And Revelation In Middle Ages:

Reason and Revelation in the Middle Ages Etienne Gilson, 1938 Etienne Gilson French historian and philosopher was born in 1884 Member of the French Academy and Director of the Institute of Medieval Studies at Toronto he is the author of among many brilliant works *The Spirit of Medieval Philosophy* and *The Unity of Philosophical Experience* Reason and Revelation in the Middle Ages Etienne Gilson, 1964 *God and Reason in the Middle Ages* Edward Grant, 2001-07-30 Between 1100 and 1600 the emphasis on reason in the learning and intellectual life of Western Europe became more pervasive and widespread than ever before in the history of human civilization Of crucial significance was the invention of the university around 1200 within which reason was institutionalized and where it became a deeply embedded permanent feature of Western thought and culture It is therefore appropriate to speak of an Age of Reason in the Middle Ages and to view it as a forerunner and herald of the Age of Reason that was to come in the seventeenth century The object of this study is twofold to describe how reason was manifested in the curriculum of medieval universities especially in the subjects of logic natural philosophy and theology and to explain how the Middle Ages acquired an undeserved reputation as an age of superstition barbarism and unreason *The End of the Middle Ages* Kelly Roscoe, 2017-07-15 The Middle Ages were marked by economic and territorial expansion demographic and urban growth the emergence of national identity and the restructuring of secular and ecclesiastical institutions Readers will learn about the great achievements of the ninth through twelfth centuries a time when people were often categorized into three orders those who fight those who pray and those who labor Other notable events and phenomena examined in this authoritative history include the Carolingian renaissance the Crusades Gothic art and architecture the papal monarchy the birth of the university and the recovery of ancient Greek thought **Jonathan Edwards's Philosophy of History** Avihu Zakai, 2009-02-09 Avihu Zakai analyzes Jonathan Edwards's redemptive mode of historical thought in the context of the Enlightenment As theologian and philosopher Edwards has long been a towering figure in American intellectual history Nevertheless and despite Edwards's intense engagement with the nature of time and the meaning of history there has been no serious attempt to explore his philosophy of history Offering the first such exploration Zakai considers Edwards's historical thought as a reaction in part to the varieties of Enlightenment historical narratives and their growing disregard for theistic considerations Zakai analyzes the ideological origins of Edwards's insistence that the process of history depends solely on God's redemptive activity in time as manifested in a series of revivals throughout history reading this doctrine as an answer to the threat posed to the Christian theological teleology of history by the early modern emergence of a secular conception of history and the modern legitimation of historical time In response to the Enlightenment refashioning of secular historical time and its growing emphasis on human agency Edwards strove to re-establish God's preeminence within the order of time Against the de-Christianization of history and removal of divine power from the historical process he sought to re-enthroned God as the author and lord of history and thus to re

enchant the historical world Placing Edwards's historical thought in its broadest context this book will be welcomed by those who study early modern history American history or religious culture and experience in America

A Deeper Vision Robert Royal, 2015-12-15 In this wide ranging and ambitious volume Robert Royal a prominent participant for many years in debates about religion and contemporary life offers a comprehensive and balanced appraisal of the Catholic intellectual tradition in the twentieth century The Catholic Church values both Faith and Reason and Catholicism has given rise to extraordinary ideas and whole schools of remarkable thought not just in the distant past but throughout the troubled decades of the twentieth century Royal presents in a single volume a sweeping but readable account of how Catholic thinking developed in philosophy theology Scripture studies culture literature and much more in the twentieth century This involves great figures recognized as such both inside and outside the Church such as Jacques Maritain Bernard Lonergan Joseph Pieper Edith Stein Alasdair MacIntyre Charles Taylor Romano Guardini Karl Rahner Henri du Lubac Karol Wojtyla Joseph Ratzinger Hans Urs von Balthasar Charles Peguy Paul Claudel George Bernanos Francois Mauriac G K Chesterton Gerard Manley Hopkins Christopher Dawson Graham Greene Sigrid Undset J R R Tolkien Czeslaw Milosz and many more Royal argues that without rigorous thought Catholicism however welcoming and nourishing it might be would become something like a doctor with a good bedside manner but who knows little medicine It has always been the aspiration of the Catholic tradition to unite emotion and intellect action and contemplation But unless we know what the tradition has already produced especially in the work of the great figures of the recent past we will not be able to answer the challenges that the

modern world poses or even properly recognize the true questions we face This is a reflective non polemical work that brings together various strands of Catholic thought in the twentieth century A comprehensive guide to the recent past and the future *The Historical Constitution of St. Bonaventure's Philosophy* John Francis Quinn,1973 **Philosophy of Religion for a New Century** Jeremiah Hackett,Jerald Wallulis,2004-04-30 Philosophy of Religion for a New Century represents the work of nineteen scholars presented at a conference in honor of Eugene T Long at the University of South Carolina April 5 6 2002 This volume is a good example of philosophy in dialogue there is both respect and genuine disagreement First an account of our present situation in the Philosophy of Religion is given leading to a discussion of the very idea of a Christian Philosophy and the coherence of the traditional concept of God The implications of science and a concern for the environment in our concepts of God are carefully examined A discussion follows on the possibility of speech about God and silence about God Since much of modern European philosophy is concerned with the Death of God theme the positions of Nietzsche and some of his twentieth century interpreters are presented There are presentations on Feminist Approaches to Philosophy of Religion and Comparative Religion is examined in relation to cultures and the demands of rationality The volume concludes with a critical dialogue on the relation of Religious Discourse to the Public Sphere Developing global awareness has led to significant change in the Philosophy of Religion One dimensional approaches have given way to honest dialogue The traditional boundaries between the secular and the religious have shifted and new approaches to traditional problems are required This volume presents examples of these new approaches **The Philosophy of Hebrew Scripture** Yoram Hazony,2012-07-30 This book offers a new framework for reading the Bible as a work of reason The Cultural Context of Medieval Learning J.E.
