The Closing of the Muslim Mind Robert R. Reilly, 2023-06-20 Islam's Intellectual Suicide and the Threat to Us All People are shocked and frightened by the behavior coming out of the Islamic world not only because it is violent but also because it is seemingly inexplicable While there are many answers to the question of what went wrong in the Muslim world no one has decisively answered why it went wrong Until now In this eye opening new book foreign policy expert Robert R Reilly uncovers the root of our contemporary crisis a pivotal struggle waged within the Muslim world nearly a millennium ago In a heated battle over the role of reason the side of irrationality won The deformed theology that resulted Reilly reveals produced the spiritual pathology of Islamism and a deeply dysfunctional culture Terrorism from 9/11 to London Madrid and Mumbai to the Christmas 2009 attempted airline bombing is the most obvious manifestation of this crisis But Reilly shows that the pathology extends much further The Closing of the Muslim Mind solves such puzzles as why peace is so elusive in the Middle East why the Arab world stands near the bottom of every measure of human development why scientific inquiry is nearly dead in the Islamic world why Spain translates more books in a single year than the entire Arab world has in the past thousand years why some people in Saudi Arabia still refuse to believe man has been to the moon why Muslim media frequently present natural disasters like Hurricane Katrina as God's direct retribution Delving deeper than previous polemics and simplistic analyses The Closing of the Muslim Mind provides the answers the West has so desperately needed in confronting the Islamist crisis

The Cambridge Companion to Classical Islamic Theology Timothy Winter, 2008-05-22 Devoting especial attention to questions of rationality scriptural fidelity and the construction of orthodoxy this volume introduces key Muslim theories of revelation creation ethics scriptural interpretation law mysticism and eschatology The treatment is firmly set in the historical social and political context in which Islam's distinctive understanding of God evolved

Moral Rationalism and Shari'a Ali-Reza Bhojani, 2015-03-24 Moral Rationalism and Shar'a is the first attempt at outlining the scope for a theological reading of Shar'a based on a critical examination of why Adliyya theological ethics have not significantly impacted Sh readings of Shar'a Within Sh works of Shar'a legal theory us l al fiqh there is a theoretical space for reason as an independent source of normativity alongside the Qur'an and the Prophetic tradition The

position holds that humans are capable of understanding moral values independently of revelation Describing themselves as Adliyya literally the people of Justice this allows the Sh a who describe themselves as Adiliyya literally the People of Justice to attribute a substantive rational conception of justice to God both in terms of His actions and His regulative instructions Despite the Sh adoption of this moral rationalism independent judgments of rational morality play little or no role in the actual inference of Shar a norms within mainstream contemporary Sh thought Through a close examination of the notion of independent rationality as a source in modern Sh us l al fiqh the obstacles preventing this moral rationalism from impacting the understanding of Shar a are shown to be purely epistemic In line with the emic insider approach adopted these epistemic obstacles are revisited identifying the scope for allowing a reading of Shar a that is consistent with the fundamental moral rationalism of Sh thought It is argued that judgments of rational morality even when not definitively certain cannot be ignored in the face of the apparent meaning of texts that are themselves also not certain An Adliyya reading of Shar a demands that the strength of independent rational evidence be reconciled against the strength of any other apparently conflicting evidence such that independent judgments of rational morality act as a condition for the validity of precepts attributed to a just and moral God

Muslim majority countries today and offers an honest clear eyed answer to this urgent question *The Princeton Encyclopedia of Islamic Political Thought* Gerhard Bowering, Patricia Crone, Mahan Mirza, 2013 In 2012 the year 1433 of the Muslim calendar the Islamic population throughout the world was estimated at approximately a billion and a half representing about one fifth of humanity In geographical terms Islam occupies the center of the world stretching like a big belt across the globe from east to west P vii Political Islam, Justice and Governance Mbaye Lo, 2018-11-08 This book argues that political Islam represented by its moderate and militant forms has failed to govern effectively or successfully due to its inability to reconcile its discursive understanding of Islam centered on literal justice with the dominant neo liberal value of freedom Consequently Islamists polities have largely been abject often tragic failures in providing a viable collective life and sound governance This argument is developed theoretically and supported through a set of case studies represented by the Muslim Brotherhood in Egypt under President Muhammad Morsi s tenure Hassan Turabi s National Islamic Front in Sudan and The Islamic State in Iraq and Syria ISIS It is ideal for audiences interested in Regional Politics Islamic Studies and Middle Eastern Studies Averroes and the Enlightenment Mourad Wahba, 2010-10-04 Thirty four scholars from 18 countries on five continents met in Cairo to debate for the first time the ideals of the Enlightenment and secularism while celebrating the 800th anniversary of the death of one of Islam s greatest philosophers Muslim philosopher Ibn Rushd 1126 1198 known in the West as Averroes may be viewed as a medieval precursor of the European Enlightenment and as a rallying point for dialogue between East and West Averroes s attempt to harmonize philosophy and religion reason and faith led to a rethinking of the tenets of Christianity His work spurred on some of the great rational syntheses of Christian thought such as Thomas Aquinas s Summa Theologica This book offers a rare opportunity to learn about the contemporary Arab world and its efforts to dialogue with the West **Reasoning with God** Khaled Abou El Fadl, 2014-10-23 In light of recent concern over Shari ah such as proposed laws to prohibit it in the United States and conflict over the role it should play in the new Egyptian constitution many people are confused about the meaning of Shari ah in Islam and its role in the world today In Reasoning with God renowned Islamic scholar Khaled Abou El Fadl explains not only what Shari ah really means but also the way it can revitalize and reengage contemporary Islam After a prologue that provides an essential overview of Shari ah Abou El Fadl explores the moral trajectory of Islam in today s world Weaving powerful personal stories with broader global examples he shows the ways that some interpretations of Islam today have undermined its potential in peace and love Rather than simply outlining challenges however the author provides constructive suggestions about how Muslims can reengage the ethical tradition of their faith through Shari ah As the world s second largest religion Islam remains an important force on the global stage Reasoning with God takes readers both Muslim and non Muslim beyond superficial understandings of Shari ah to a deeper understanding of its meaning and potential God's Command J. E. Hare, 2015 This work focuses on divine command and in particular the theory that what makes something obligatory is that God commands it and what makes

something wrong is that God commands us not to do it Focusing on the Abrahamic faiths eminent scholar John E Hare explains that two experiences have had to be integrated The first is that God tells us to do something or not to do something The second is that we have to work out ourselves what to do and what not to do The difficulty has come in establishing the proper relation between them In Christian reflection on this two main traditions have emerged divine command theory and natural law theory Hare successfully defends a version of divine command theory but also shows that there is considerable overlap with some versions of natural law theory He engages with a number of Christian theologians particularly Karl Barth and extends into a discussion of divine command within Judaism and Islam The work concludes by examining recent work in evolutionary psychology and argues that thinking of our moral obligations as produced by divine command offers us some help in seeing how a moral conscience could develop in a way that is evolutionarily stable
