Perse Playbooks, 1914 **Reasons of One's Own** Marc Slors, 2017-11-28 Practical reasoning in contemporary Western societies is characterised by an unprecedented degree of idiosyncrasy and demands of personal authenticity This has resulted from the decline of traditional moral authorities the rise of individualistic lifestyles increasing multiculturalism and rapid technological advance These developments have given rise to reflection on the notion of reasons of one's own an examination of the intelligibility of reasons that are closely connected to a particular agent and recognised as such by others although not shared by them Problems addressed by the contributors include How to account for the cognitive overtones in moral and motivational language given the apparent agent relativity of reasons How to retain the agent relativity of reasons for action given that they require articulation through a language shared by the community and how to account for the practical rationality required for co operation between persons in view of the idiosyncrasy of a person's motivating reasons In dealing with these issues this book presents a range of investigative essays on the concept of reasons of one's own by leading authors from all relevant philosophical areas of expertise **Baumgarten and Kant on Metaphysics** Courtney D. Fugate, John Hymers, 2018-05-24 Baumgarten and Kant on Metaphysics explores the metaphysics of Alexander Gottlieb Baumgarten 1714-1762 and its decisive influence on Immanuel Kant For over a century scholars have recognized the significance of Baumgarten's Metaphysics both because of its impact on Kant's intellectual development and because of the way it fundamentally informed the work of generations of German philosophers including Moses Mendelssohn Thomas Abbt Johann Gottfried Herder Solomon Maimon Johann August Eberhard and arguably even Georg Friedrich Hegel However Baumgarten's Metaphysics has only recently become available in reliable German and English translations as such many scholars have been excluded from the discussion and the significance of Baumgarten's work has remained largely unexplored Thus with the appearance of these translations interest in Baumgarten's work has surged This collection provides an anchor for this emerging discussion by presenting chapters by some of the scholars most responsible for Baumgarten's current reputation together with some of the best young scholars in this emerging field [Chapterwise Objective MCQs Science \(PCB\) Book for CBSE Class 12 Term I Exam](#) Gurukul, 2021-08-23 Score and Prepare well for your 12th Class Board Examination with Gurukul's newly introduced CBSE Chapterwise Objective MCQs Science Stream PCB Book for Term I Exam This practice book Includes subject papers such as Physics Chemistry Biology English and Physical Education How can you benefit from Gurukul CBSE Chapterwise PCB Objective MCQs for 12th Class Our Comprehensive Handbook Includes questions segregated chapter wise which enable Class 12 CBSE students to concentrate properly on one chapter at a time It is strictly based on the latest circular no Acad 51/53 and 55 of July 2021 issued by the board for the Term I/II Examination for in depth preparation 1 Study material strictly based on the Reduced Syllabus issued by the Board in July 2021 for Term 1 Exam 2 Focused on New Objective Paper Pattern Questions 3 Multiple Choice Questions MCQs based on the board's most

Alternative Sociologies of Religion James V. Spickard, 2017-03-14 Uncovers what the sociology of religion would look like had it emerged in a Confucian Muslim or Native American culture rather than in a Christian one Sociology has long used Western Christianity as a model for all religious life As a result the field has tended to highlight aspects of religion that Christians find important such as religious beliefs and formal organizations while paying less attention to other elements Rather than simply criticizing such limitations James V Spickard imagines what the sociology of religion would look like had it arisen in three non Western societies What aspects of religion would scholars see more clearly if they had been raised in Confucian China What could they learn about religion from Ibn Khaldun the famed 14th century Arab scholar What would they better understand had they been born Navajo whose traditional religion certainly does not revolve around beliefs and organizations Through these thought experiments Spickard shows how non Western ideas understand some aspects of religions even of Western religions better than does standard sociology The volume shows how non Western frameworks can shed new light on several different dimensions of religious life including the question of who maintains religious communities the relationships between religion and ethnicity as sources of social ties and the role of embodied experience in religious rituals These approaches reveal central aspects of contemporary religions that the dominant way of doing sociology fails to notice Each approach also provides investigators with new theoretical resources to guide them deeper into their subjects The volume makes a compelling case for adopting a global perspective in the social sciences
