the purity of the Jewish song has always been retained The quality which makes it uniquely Jewish regardless of the influence on it has remained untouched and clearly identifiable What is this quality What is it that makes a song sound Jewish It is a note of longing of a child yearning to unite with his parent a nation pining for its homeland and lost temple a soul in this world remembering the holiness above and longing to reunite Each song resonates with the entirety of the Jewish experience the devastations and victories the separations and reunifications and above all the constant bond with the eternal The study of Jewish music is vast and requires volumes to contain it There are many who have analyzed its unique qualities and have written extensively on it Their examination of music is essentially a lesson in history another means of glimpsing a rich and diverse past There is yet another way to examine a song and that is to view it as an eternal message as relevant today as it was hundreds of years ago at the time of its composition Each song tells its own story in the heart of the one who sings it It evokes a unique response in each listener A tune can touch a soul in a way no words ever could The study of music as response is what I aim to portray in this work Music can be used in a myriad of ways in our everyday lives Especially today with all of the gadgets that can convey music we are bombarded by sound Just by taking a long walk a person changes zones of melodies beats and compositions of various types Our bodies seem to vibrate to uninvited songs and noises that permeate the air around us But invited
