would visit the invisible world to obtain vital information guidance and healing for members of the tribe These edgewalkers
have contemporary counterparts in today s organizations those individuals who don t fit squarely into any one box in their
metaphorical travels they interpret trends from the marketplace translate messages across departments and envision the
future impact of today s decisions and actions Edgewalking doesn t come without its own risks and challenges these
unconventional people often clash with more traditional rule bound colleagues and they are often frustrated by
organizational systems that emphasize quantitative results over creative impulses And yet in today s fast changing diverse
and globalized business environment organizations must recruit and support these people in order to stay competitive
Featuring colorful interviews and practical tools to gauge and manage your own edgewalking skills Edgewalkers explores the
opportunities that are created by defying formal boundaries and fostering creativity at every level of the organization They re
the first people to volunteer to head up a new business unit lead a cross company initiative or take on an overseas
assignment They re the glass half full folks who are constantly thinking out of the box forging alliances with colleagues in
other departments seeking out new solutions to old problems and anticipating challenges on the horizon And in today s
increasingly diverse workplaces they are often people who have pursued unusual educational and career paths traveled
widely and speak more than one language Judi Neal has a term for these people Edgewalkers Literally an edgewalker is
someone who walks between two worlds In ancient cultures each village had a shaman or medicine man who would visit the

East Asian Pedagogies David Lewin, Karsten Kenklies, 2020-07-13 This book opens up philosophical spaces for comparative discussions of education across East and West It develops an intercultural dialogue by exploring the Anglo American traditions of educational transformation and European constructions of Bildung alongside East Asian traditions of transformation and development Comparatively little research has been done in this area and many questions concerning the commensurability of North American European and East Asian pedagogies remain Despite this dearth of theoretical research there is ample evidence of continued interest in self formation through various East Asian practices from martial arts to health and spiritual practices e g Aikido Tai Chi Yoga mindfulness etc suggesting that these traditional practices and pedagogical relations have something important to offer despite their marginal standing in educational discourse This book will appeal to all researchers and students of comparative education studies with an interest in issues of interpretation and translation between different traditions and cultures *Ferocious Engine of Democracy* Michael P.
