Rebels and Rulers, 1500-1660: Society states and early modern revolution agrarian and urban rebellions Perez Zagorin, 1982 The Early Modern Town in Scotland Michael Lynch, 2021-10-12 Originally published in 1987 this volume filled a notable gap in Scottish urban history and considers the place of Scottish towns in urban life during the 16th and 17th Centuries The first part of the book is based on studies of individual burghs Aberdeen Dundee Edinburgh and Perth drawing extensively on archival material The second part includes a discussion of the pressure put upon the burghs by the town between 1500 and 1650 a process which contributed to the destruction of the medieval burgh and examines the burgh during the Scottish Revolution The impact of war and plague on Scottish towns in the 1640s is also analysed and much emphasis is given to the relationship between town and country A *Radical History Of Britain* Edward Vallance, 2013-04-04 From medieval Runnymede to twentieth century Jarrow from King Alfred to George Orwell by way of John Lilburne and Mary Wollstonecraft a rich and colourful thread of radicalism runs through a thousand years of British history In this fascinating study Edward Vallance traces a national tendency towards revolution irreverence and reform wherever it surfaces and in all its variety He unveils the British people who fought and died for religious freedom universal suffrage justice and liberty and shows why now more than ever their heroic achievements must be celebrated Beginning with Magna Carta Vallance subjects the touchstones of British radicalism to rigorous scrutiny He evokes the figureheads of radical action real and mythic Robin Hood and Captain Swing Wat Tyler Ned Ludd Thomas Paine and Emmeline Pankhurst and the popular movements that bore them Lollards and Levellers Diggers Ranters and Chartists each has its membership principles and objectives revealed **The Struggle for Power in Early Modern Europe** Daniel H. Nexon, 2009-04-20 Looks at the pivotal events of the sixteenth and seventeenth centuries including the Schmalkaldic War the Dutch Revolt and the Thirty Years War This book argues that early modern composite political communities had more in common with empires than with modern states Resistance in the Iberian Worlds from

the Fifteenth to the Eighteenth Century Pablo Sánchez León, Benita Herreros Cleret de Langavant, 2024-10-01 This book highlights the broad scope and span of resistance as a contentious practice in the early modern Iberian world In this context from the late Middle Ages onwards resistance rooted in the political and legal language of the old regime that provided agents with legitimacy and resources for their actions occurred mainly within the established jurisdictional system These resources for litigation and demand made resistance a widespread kind of contesting practice related to wider protests The authors assess the wide array of actions developed by individuals and communities to preserve their rights and identities demonstrating how the Portuguese and Hispanic polities and their colonial possessions experienced resistance from below over a long period of change that marked the rise of more complex communities and institutional systems This book offers a comprehensive overview of the variety of forms and expressions of resistance developed in different social cultural and territorial contexts thus shedding additional light on the relationship between order and conflict within early modern European empires Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

The Catholic Church and European State Formation, AD 1000-1500 Jørgen Møller, Jonathan Stavnskær Doucette, 2022 The Catholic Church and European State Formation AD 1000-1500 inserts the Catholic Church as the main engine of the persistent international and domestic power pluralism which has moulded European state formation for almost a millennium

Medieval and Renaissance Drama in England S. P. Cerasano, Heather Anne Hirschfeld, 2006-10 Medieval and Renaissance Drama in England is an international volume published annually Each volume contains essays and studies by critics and cultural historians from both hemispheres as well as substantial reviews of books and essays dealing with medieval and early modern English drama before 1642 Volume 19 reflects a variety of scholarly interests The collection opens with two essays each exploring different aspects of John Webster and James Shirley that further our understanding of attribution studies One essay on the ownership of the Bell Savage Playhouse showcases MaRDIE's ongoing interest in early playhouses while another on Marston's Entertainment at Ashby addresses performance history Two further essays discuss issues related to stage costuming Issues of actual identity are raised in an essay concerning John Lyly's biography while two other authors probe the complex connections between drama and economics William Rowley's All Lost by Lust becomes the

centerpiece for a reassessment of rape tragedy S P Cerasano is the Edgar W B Fairchild Professor of Literature at Colgate University The Oldest Trick in the Book Ben M. Debney, 2020-07-03 This book investigates the normalisation of blame shifting within ideological discourse as a broad feature of history working from Churchill's truism that history is written by the victors To that end it explores historical episodes of political persecution carried out under cover of moral panic highlighting the process of Othering common to each and theorising a historical model of panic driven scapegoating from the results Building this model from case studies in witch panic communist panic and terrorist panic respectively The Oldest Trick in the Book builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill's maxim On this basis it argues that the periodic construction of bogeymen or folk demons is a useful device for enabling the kind of victim playing and victim blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme historically panic driven scapegoating retains great ongoing value to the privileged and powerful and thus conspicuously remains an ongoing feature of world politics Keepers of the City Marvin Lunenfeld, 1987 Through its study of the corregidores this book offers a panoramic view of Castile during the late medieval and Renaissance eras **The Politics of Succession** Andrej Kokkonen, Jørgen Møller, Anders Sundell, 2022-07-08 The death of the ruler poses a significant threat to the stability of any polity Arranging for a peaceful and orderly succession has been a formidable challenge in most historical societies and it continues to be a test that modern authoritarian regimes regularly face and often fail Drawing on a unique dataset of the life and fates of monarchs in all major monarchies in Medieval and Early Modern Europe The Politics of Succession documents how succession have historically been moments of violence and insecurity Deaths of rulers were often associated with civil war and the shadow cast by looming successions caused coups and depositions But this book also shows that the development and spread of primogeniture the eldest son taking the throne mitigated the problem of succession in Europe in the period after AD 1000 The predictability and stability that followed from a clear hereditary principle outweighed the problems of incompetent and irrational rulers sometimes inheriting power The data used in the book demonstrates that primogeniture reduced the risk of depositions and civil war following the inevitable deaths of leaders In this way hereditary monarchy helped create political stability and lengthen the time horizons of rulers and elites alike thereby facilitating state building The book thus sheds light on the rationale of a system of leader selection that today often appears illogical and outdated and it uses these findings to shed light on the key advantage of modern representative democracy its ability to complete power transfers peacefully **The Village and the Outside World in Golden Age Castile** David E. Vassberg, 2002-11-28 This 1996 book based upon a vast range of documentary and secondary sources shatters the disproven but persistent myth of the closed immobile village in the early modern period It demonstrates that even in traditionalist Castile pre industrial village society was highly dynamic with continuous inter village inter regional and rural urban migration The book is rich in human detail with many vignettes of everyday life Professor Vassberg examines

such topics as fairs and markets the transportation infrastructure rural artisans and craftsmen relations with the state and life cycle service The approach is interdisciplinary and pays special attention to how rural families dealt with economic and social problems The rural Castile that emerges is a complex society that defies easy generalizations but one which is unquestionably part of the general European reality Potential History Ariella Aïsha Azoulay, 2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share from one of our most compelling political theorists In this theoretical tour de force renowned scholar Ariella A sha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasized the possibility of progress while it tries to destroy what came before and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practicing what she calls potential history Azoulay argues that we can still refuse the original imperial violence that shattered communities lives and worlds from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium's brutal King Leopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In *Potential History* Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics *Knights at Court* Aldo Scaglione, 2023-11-15 *Knights at Court* is a grand tour and survey of manners manhood and court life in the Middle Ages like no other in print Composed on an epic canvas this authoritative work traces the development of court culture and its various manifestations from the latter years of the Holy Roman Empire ca A D 1000 to the Italian Renaissance of the fifteenth and sixteenth centuries Leading medievalist and Renaissance scholar Aldo Scaglione offers a sweeping sociological view of three geographic areas that reveals a surprising continuity of courtly forms and motifs German romances the lyrical and narrative literature of northern and southern France Italy's chivalric poetry Scaglione discusses a broad number of texts from early Norman and Flemish baronial chronicles to the romances of Chr tien de Troyes the troubadours and Minnesingers He delves into the *Nibelungenlied* Dante Petrarch Boccaccio and an array of treatises on conduct down to Castiglione and his successors All these works and Scaglione's superior scholarship attest to the enduring power over minds and hearts of a mentality that issued from a small minority of people the courtiers and knights in central positions of leadership and power *Knights at Court* is for all scholars and students interested in the civilizing process This title is part of UC Press's Voices Revived program which commemorates University of

California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991 **Revolt and Revolution in Early Modern Europe** Yves Marie Bercé, 1987 **Community without Borders: Scots Migrants and the Changing Face of Power in the Dutch Republic, c. 1600-1700** Douglas Catterall, 2021-10-25 This is a valuable book for anyone interested in the cultural meaning of preindustrial migration Arguing that early modern European migrants could fundamentally influence their fate and their adopted communities it explores the world of Scots migrants to the Dutch port of Rotterdam c 1600 1700 The heart of the study is a reconstruction of the social networks that Scots used to establish and sustain themselves in Rotterdam drawn from unusually rich narrative sources Through their social ties Scots also told stories and kept memories as they created complex identities encompassing Rotterdam Scotland and places further afield By shaping their relationships to Rotterdam Scots had a broad impact on their adopted home Their actions helped change Rotterdam's political religious and legal fabric and even tied Rotterdam to the wider Atlantic world The Politics of Information in Early Modern Europe Sabrina Alcorn Baron, Brendan Dooley, 2005-07-08 The invention and spread of newspapers in the seventeenth century had a profound effect on early modern culture and politics This book is the first to bring together some of the innovative work in this burgeoning field
