Political Realism in Apocalyptic Times Alison McQueen, 2018 From climate change to nuclear war to the rise of demagogic populists our world is shaped by doomsday expectations In this path breaking book Alison McQueen shows why three of history's greatest political realists feared apocalyptic politics Niccol Machiavelli in the midst of Italy's vicious power struggles Thomas Hobbes during England's bloody civil war and Hans Morgenthau at the dawn of the thermonuclear age all saw the temptation to prophesy the end of days Each engaged in subtle and surprising strategies to oppose apocalypticism from using its own rhetoric to neutralize its worst effects to insisting on a clear eyed tragic acceptance of the human condition Scholarly yet accessible this book is at once an ambitious contribution to the history of political thought and a work that speaks to our times

and Religious Realism in the Novels of Dostoevsky Wil van den Bercken, 2011-01-01 This study offers a literary analysis and theological evaluation of the Christian themes in the five great novels of Dostoevsky Crime and Punishment The Idiot The Adolescent The Devils and The Brothers Karamazov Dostoevsky's ambiguous treatment of religious issues in his literary works strongly differs from the slavophile Orthodoxy of his journalistic writings In the novels Dostoevsky deals with Christian basic values which are presented via a unique tension between the fictionality of the Christian characters and the readers experience of the existential reality of their religious problems

Consumer Culture Reborn Martyn J. Lee,2003-09-02 Consumer Culture Reborn focuses on consumption as the point at which economy and culture combine The book draws the often polarised discourses of political economy and cultural studies closer together in a historical context as a means of understanding our social situations as we approach the end of the millenium Taking as its central theme the ability of the capitalist mode of production to transform the material and social world which sustains it the book focuses on some of the ways in which this transformational impulse has altered the means by which ordinary people reproduce their life and their patterns of life Neither a history book nor simply a book of theory Consumer Culture Reborn fuses elements of economic social and cultural theory in an historical perspective

Realism's Others Eva Aldea,Geoffrey Baker,2010-07-12 For at least a century scholarship on realist narrative and occasional polemics against realist narrative have assumed that realism promotes the values of sameness against those of otherness and that it does so by use of a narrative mode that excludes certain epistemologies ideologies and ways of thinking However the truth is more complex than that as the essays in this volume all demonstrate Realism's Others examines the various strategies by which realist narratives create the idea of difference whether that difference is registered in terms of class ethnicity epistemology nationality or gender The authors in this collection examine in detail not just the fact of otherness in some canonical realist and canonical magical realist and postmodern novels but the actual means by which that otherness is established by the text These essays suggest that neither realist narrative nor narratives positioned as anti realist take otherness for granted rather the texts discussed here actively create difference and this creation of difference often occasions severe difficulties for the novels representational schema How does one represent different types of knowledge other aesthetic modes or other spaces for example in texts whose epistemology has long been seen as secular and empirical whose aesthetic mode has always been approached as pure descriptive mimesis and whose settings are largely domestic These essays all begin with a certain collision of nationalities of classes of representational matrices of religions and go on to chart the challenges that this collision presents to our ideas or stereotypes of realism or to the possibilities of writing against and beyond realism This question motivates examination of key realist or social realist texts in some of these essays by Honor de Balzac George Eliot Franz Grillparzer Theodor Storm Gottfried Keller Theodor Fontane Wilhelm Raabe Mar a Amparo Ruiz de Burton Henry James William Dean Howells Charles Chesnutt Theodore Dreiser H T Tsiang Alan Sillitoe and Richard Yates However it is no less central a question in certain non realist texts which engage realist aims to a surprising degree often to debate them openly some of these essays discuss in this light fantastic magical realist and

postmodern works by Abram Tertz Paul Auster Alejo Carpentier Toni Morrison Gabriel Garcia Marquez Salman Rushdie and A S Byatt Realism becomes more than an aesthetic aim or narrative mode It becomes rather a value evoked and discussed by all of the works analyzed here in order to reveal its impact on fiction s treatment of ethnicity nationality ideology space gender and social class *Learn the Art: How to Create Lifelike Reborn Dolls - Tutorial and Instructions - Excellence in Reborn Artistry™ Series* Jeannine M. Classical Indian Metaphysics: Refutations of Realism and the Emergence of New Logic Stephen H. Phillips,1998-01-01 Our knowledge of the most ancient times in India rests mainly on tradition The Puranas the Mahabharata and in a minor degree of Ramayana profess to give accounts from tradition about the earliest occurrences The Rgveda contains historical allusions of which some record contemporary persons and events but more refer to bygone times and persons and are obviously based on tradition Almost all the information therefore comes from tradition The results obtained from an examination of Puranic and epic tradition as well as of the Rgveda and Vedic literature are set forth in the present book which happens to be a pioneering work in the area by an important orientalist of the nineteenth century Postwar Literary Emergence Iris Calder,AI,2025-05-06 Postwar Literary Emergence explores the profound impact of World War II and subsequent social upheaval on global literature It examines how writers navigated historical trauma and crafted new narrative forms to articulate previously unvoiced experiences The book reveals how literature became a tool for social critique political activism and personal healing in the face of unprecedented change The collection of essays analyzes the reinvention of realism the rise of experimental narratives and the exploration of identity in a fractured world For example the book addresses the resurgence of historical fiction as a means of confronting collective memory By examining literary collections and essays from Europe Latin America Asia and Africa the book demonstrates how writers grappled with legacies of war colonialism and injustice The book progresses across chapters by exploring different geographical areas and thematic concerns offering a scholarly yet accessible tone *Speculative Realism* Graham Harman,2018-09-19 On April 27 2007 the first Speculative Realism SR workshop was held at Goldsmiths University of London featuring four young philosophers whose ideas were loosely allied Over the ensuing decade the ideas of SR spread from philosophy to the arts architecture and

numerous disciplines in the humanities and social sciences SR has been arguably the most influential new current in continental philosophy since the works of Gilles Deleuze and Félix Guattari found their second wind in the 1990s But what is SR This book is the first general overview by one of its original members focusing on the aesthetic ethical ontological and political themes of greatest importance to the movement Graham Harman provides a balanced but critical assessment of his original SR colleagues Ray Brassier Iain Hamilton Grant and Quentin Meillassoux along with a clear summary of his own Object Oriented Ontology OOO A number of central philosophical questions tie the four chapters together What exactly is correlationism the chief enemy of SR What are the stakes of philosophical realism and is such realism better served by mathematics and the natural sciences or by a broader model of cognitive activity that includes aesthetics This book covers both the historical and conceptual development of the movement providing a first rate introduction for students aided by helpful end of chapter study questions chosen by Harman himself SR Harman shows is a vital and fast developing field in contemporary philosophy

Magical Realism and the Postcolonial Novel Christopher Warnes, 2009-03-19. This book rethinks the origins and nature of magical realism and provides detailed readings of key novels by Asturias, Carpentier, Garc a M rquez, Rushdie and Okri. Identifying two different strands of the mode, one characterized by faith, the other by irreverence, Warnes makes available a new vocabulary for the discussion of magical realism.

Engendering Realism and Postmodernism, 2021-11-01. This volume assembles critical essays on and excerpts from works of contemporary women writers in Britain. Its focus is the interaction of aesthetic play and ethical commitment in the fictional work of women writers whose interest in testing and transgressing textual boundaries is rooted in a specific awareness of a gendered multicultural reality. This position calls for a distinctly critical impetus of their writing involving the interaction of the political and the literary as expressed in innovative combinations of realist and postmodern techniques in works by A. S. Byatt, Maureen Duffy, Zoe Fairbairns, Eva Figs, Penelope Lively, Sara Maitland, Sunil Namboshi, Ravinder Randhawa, Joan Riley, Michele Roberts, Emma Tennant, Fay Weldon, Jeanette Winterson. All contributions to this volume address aspects of these writers' positions and techniques with a clear focus on their interest in transgressing boundaries of genre, gender and post-colonial identity. The special quality of these interpretations, first given in the presence of writers at a symposium in Potsdam, derives from the creative and prosperous interactions between authors and critics. The volume concludes with excerpts from the works of the participating writers which exemplify the range of concrete concerns and technical accomplishments discussed in the essays. They are taken from fictional works by Debjani Chatterjee, Maureen Duffy, Zoe Fairbairns, Eva Figs, Sara Maitland and Ravinder Randhawa. They also include the creative interactions of Sunil Namboshi and Gillian Hanscombe in their joint writing and Paul Magrs' critical engagement with Sara Maitland.

Ben Okri Salman Rushdie Cristina Garc a and Helen Oyeyemi Italy Reborn Mark Gilbert, 2024-09-24 A brilliant meticulously researched account of the birth of Italian democracy after Mussolini The rebirth of Italy after the Second World War is one of the most impressive political transformations in modern European history In 1945 post fascist Italy was devastated by war and its reputation in the international arena was nil Yet by December 1955 when Italy was admitted to the United Nations the nation had contested three acrimonious but free general elections had a flourishing press and was a leader in the rebuilding of Europe This is the dramatic story told by Italy Reborn It charts the descent of Italy into Fascism the scale of the wartime disaster the Italian resistance to Nazi occupation the horrors of civil war and the establishment of the Republic in 1946 The Cold War divided in 1947 the coalition of parties that had led the resistance to Fascism and Nazism The book s final chapters deal with the consolidation of Italian democracy and with the statesmanship of Alcide De Gasperi the premier from December 1945 to August 1953 The book persuasively argues that De Gasperi deserves more credit than he has typically been accorded for Italy s postwar democratization and shows how Italian democracy was constructed on a sound foundation which is why it has been able to survive its many postwar crises Largely based on contemporary Italian sources Italy Reborn is both an original account of this crucial period in Italian history and a remarkable example of how democracies are made
