Recalling August:

Decisions and Orders of the National Labor Relations Board United States. National Labor Relations Board, 2015-08

California's Recall Election of Gavin Newsom Larry N. Gerston, Mary Currin-Percival, Garrick L. Percival, 2022-08-02 California went through a political earthquake of sorts when the state recalled Governor Gray Davis in 2003 In 2021 the state faced another political turning point with the threatened recall of Governor Gavin Newsom Less than two years after Newsom's overwhelming election victory more than two million Californians signed on to the recall effort hoping to expel him from office in a special election How could such a monumental turnabout be possible Normally the political headwinds would be much too strong for a movement to oust a governor who had decisively vanquished his opponent But with the COVID 19 pandemic dominating every aspect of society including politics these weren't normal times Organizing a recall election is a demanding enterprise it takes abundant political energy tremendous amounts of anger with the status quo and mounds of money Yet for the second time in less than two decades such wheels were set in motion What is it that makes California so dynamic yet so fragile This book explains that paradox and in the process enlightens readers about the recall process the challenges of federalism and the pitfalls of direct democracy It examines the underlying conditions that expose a state with poorly linked institutions a bitterly divided society and a governor who had to act under nearly impossible conditions demonstrating his strengths and vulnerabilities along the way It's a story that could happen only in California a state with a history of only stories Designed to be useful in a variety of college courses this book is the first to unveil the Newsom backstory and will appeal to pundits and politicians as well as interested general readers

Housing and Property Restitution Rights of Refugees and Displaced Persons Scott Leckie,2007-05-28 The legal recognition of the housing land and property rights of refugees and displaced persons has expanded steadily in recent years as the realization has grown that securing these rights will be beneficial to long term peace stability economic vitality and justice This volume first published in 2007 contains more than 240 of the laws cases and materials that have been adopted during the past century which accord those unjustly and arbitrarily displaced from their homes and lands with rights not simply to return to their countries or places of origin but to return to the original home land or property from which they were initially forced to flee The breadth of the restitution standards found within this volume combined with selected examples of case law and other materials are a clear indication that a right to housing land and property restitution for refugees and displaced persons has emerged within the global legal domain **The Recall, Second Edition** Joseph F. Zimmerman,2013-12-12 The recall or election in reverse is meant to allow voters to remove an elected official from office prior to the completion of his her term in office In this revised second edition of The Recall Joseph F Zimmerman examines the rise of the recall in the United States and its use by American voters Proponents of the recall believe the threat of

removal from office would ensure that elected officials would act in accord with the public's will while opponents fear their use would disrupt and inhibit public officers in the performance of their duties Zimmerman provides a detailed analysis of how the recall has functioned in practice and discovers that the recall has seldom been employed against elected state officials Although used more often against local government officials the rate is still not exceptionally high when one considers the extremely large number of elected officials After a century of use in the United States the recall has not produced a new era of public official responsibility as hoped for by proponents but neither has it caused extensive disruption of state and local governments the original concern of early opponents The Recall Joseph F.
