The Reception of James Joyce in Europe Geert Lernout, Wim Van Mierlo, 2004 James Joyce is now widely considered the most influential writer of the twentieth century His name and his most important works appeared again and again in fin de millennium surveys This is the case not only in the English speaking world but also in many European literatures Joyce's influence is most pronounced in French German and Italian literatures where translations of most of his works appeared during his life time and where he had a clear impact on

his fellow writers In other countries and cultures his influence took more time to register sometimes after the war in the fifties and sixties and sometimes only in the final decade of the century This was the case in most of the languages of Eastern Europe where the translation of Joyce s work could only begin after the collapse of the Soviet Union in the 1990s This book contains two volumes Series Editor Dr Elinor Shaffer FBA Institute of Germanic Romance Studies School of Advanced Study University of London Contributors to the volume include Sonja Basic University of Zagreb Eric Bulson Columbia University Astradur Eysteinnsson University of Reykjavik Kalina Filipova University of Sofia Marta Goldmann University of Budapest Jakob Greve University of Copenhagen Manana Khergiani New York Teresa Iribarren University of Barcelona Onno R Kusters and Ron Hoffman The Netherlands Alberto L zaro University of Alcal Madrid Marisol Morales Ladr n University of Alcal Madrid Maria Filomena Louro University of Minho Portugal Tina Mahkota University of Ljubljana John McCourt University of Trieste Patrick O Neill Queen s University Canada Adrian Otoiu North University of Baia Mare Rumania Milos Pehlivanos Aristotle University Greece Ale Pogacnik Slovenia Jina Politi Aristotle University Greece Steen Klitg rd Povlsen University of Aarhus H K Riikonen University of Helsinki Frank Sewell University of Ulster Sam Slote University of Buffalo Per Svenson Sweden Emily Tall University of Buffalo Bj rn Tysdahl University of Oslo Tomo Virk University of Ljubljana Jolanta W Wawrzycka Radford University Robert Weninger Oxford Brookes University Wolfgang Wicht University of Potsdam Serenella Zanolli University of Rome

James Joyce's America Brian Fox, 2019-02-14 James Joyce s America is the first study to address the nature of Joyce s relation to the United States It challenges the prevalent views of Joyce as merely indifferent or hostile towards America and argues that his works show an increasing level of engagement with American history culture and politics that culminates in the abundance of allusions to the US in *Finnegans Wake* the very title of which comes from an Irish American song and signals the importance of America to that work The volume focuses on Joyce s concept of America within the framework of an Irish history that his works obsessively return to It concentrates on Joyce s thematic preoccupation with Ireland and its history and America s relation to Irish post Famine history Within that context it explores first Joyce s relation to Irish America and how post Famine Irish history as Joyce saw it transformed the country from a nation of invasions and settlements to one spreading out across the globe ultimately connecting Joyce s response to this historical phenomenon to the diffusive styles of *Finnegans Wake* It then discusses American popular and literary cultures in terms of how they appear in relation to or as a function of the British Irish colonial context in the post Famine era and concludes with a consideration of how Joyce represented his American reception in the *Wake*

Circular Narratives in Modern European Literature Juan Luis Toribio Vazquez,2022-06-16 Breaking with linearity the ruling narrative model in the Jewish Christian tradition since the ancient world many 20th century European writers adopted circular narrative forms Juan Luis Toribio Vazquez shows this trend was not a unified nor conscious movement but rather a series of works arising sporadically in different countries at different times using a variety of circular structures to express similar concerns and ideas about the world This study also shows how the renewed understanding of narrative form leading to this circular trend was anticipated by Nietzsche s critiques of truth knowledge language and metaphysics and especially by his related discussions of nihilism and the eternal recurrence Starting with an analysis of the theory and genealogy of linear narrative the author charts the

emergence of Nietzsche's idea of eternal return before then turning to the history of the circular narrative trend. This history is explored from its inception in the works of August Strindberg, Gertrude Stein and Azorín through its development in the interwar years by writers such as Raymond Queneau and Vladimir Nabokov to its full flowering in the work of authors James Joyce or Samuel Beckett among others and its later employment by post-war writers including Alain Robbe-Grillet, Italo Calvino and Maurice Blanchot. Through a series of close readings the book aims to highlight the various ways in which narrative circularity serves to break with an essentially teleological and theological thinking. Finally, Toribio Vazquez concludes by proposing a new typology of non-linear narratives which builds on the work of recent narratologists.

Handbook of the English Novel of the Twentieth and Twenty-First Centuries Christoph Reinfandt, 2017-06-12. The Handbook systematically charts the trajectory of the English novel from its emergence as the foremost literary genre in the early twentieth century to its early twenty-first century status of eccentric eminence in new media environments. Systematic chapters address The English Novel as a Distinctly Modern Genre, The Novel in the Economy, Genres, Gender, performativity, masculinities, feminism, queer, and The Burden of Representation, class and ethnicity. Extended contextualized close readings of more than twenty key texts from Joseph Conrad's *Heart of Darkness* (1899) to Tom McCarthy's *Satin Island* (2015) supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives.

Finnegans Wakes Patrick O'Neill, 2022-03-01. James Joyce's astonishing final text *Finnegans Wake* (1939) is universally acknowledged to be entirely untranslatable. And yet no fewer than fifteen complete renderings of the 628-page text exist to date in twelve different languages altogether, and at least ten further complete renderings have been announced as underway for publication in the early 2020s in nine different languages. *Finnegans Wakes* delineates for the first time in any language the international history of these renderings and discusses the multiple issues faced by translators. The book also comments on partial and fragmentary renderings from some thirty languages altogether, including such perhaps unexpected languages as Galician, Guarani, Chinese, Korean, Turkish, and Irish, not to mention Latin and Ancient Egyptian. Excerpts from individual renderings are analysed in detail together with brief biographical notes on numerous individual translators. Chronicling renderings spanning multiple decades, *Finnegans Wakes* illustrates the capacity of Joyce's final text to generate an inexhaustible multiplicity of possible meanings among the ever-increasing number of its impossible translations.

Irish Literature in Italy in the Era of the World Wars Antonio Bibbò, 2021-12-14. This book addresses both the dissemination and increased understanding of the specificity of Irish literature in Italy during the first half of the twentieth century. This period was a crucial time of nation-building for both countries. Antonio Bibbò illustrates the various images of Ireland that circulated in Italy, focusing on political and cultural discourses and examines the laborious formation of an Irish literary canon in Italy. The center of this analysis relies on books and articles on Irish politics, culture, and literature produced in Italy, including pamphlets, anthologies, literary histories, and propaganda translations of texts by Irish writers, and archival

material produced by writers publishers and cultural and political institutions Bibb argues that the construction of different and often conflicting ideas of Ireland in Italy as well as the wavering understanding of the distinctiveness of Irish culture substantially affected the Italian responses to Irish writers and their presence within the Italian publishing field This book contributes to the discussion on transnational aspects of canon formation reception studies and Italian cultural studies
