Safety In Numbers Safer Sex And Gay Men:

Safety in Numbers Edward King, 1994 Gay men remain the group primarily affected by the AIDS epidemic in most industrialized countries Although governments and AIDS organizations increasingly stress the dangers of a heterosexual HIV epidemic it is gay men who are still bearing the brunt of the crisis In the 1980s gay men pioneered safer sex campaigns long before governments responded Rates of HIV transmission were drastically reduced through the most successful health related behaviour changes in history Today however the challenge for health educators is to understand the early successes and to translate them into new and equally effective strategies This unprecedented book provides a comprehensive overview of safer sex education for gay men It offers a critical analysis of the professionalization and de gaying of AIDS education in recent years and demonstrates conclusively how those at greatest risk from HIV have become the most neglected By looking back over the successes of the past it provides an accessible essential guide to meeting current and future needs Book Jacket

constructions in the construction of gay men and or lesbians and conversely the role of sexual identities in forming racial and ethnic constructs Other are focused on the body and how it it created in reponse to American cultural forces The diversity of the contributors academics filmmakers activists and authors results in a book of broad scope and will be an important work for those with an interest in issues of sexuality race and gender Contributors Joseph A Boone Julia Creet Samuel Delany Monica Dorenkamp Richard Fung Yukiko Hanawa Richard Henke Marcia Ian Richard Meyer Sylvia Molloy Eve Kosofsky Sedgwick Jennifer Terry Simon Watney

Determinants of High Risk Sexual Behavior Harry Drasin, 2000-12 AIDS has become a ubiquitous disease of catastrophic proportions In this sex study included as part of the Advocate magazine in 1994 attitudes and sexual activities of 13 000 gay men nationwide were surveyed A set of research hypotheses were made these were that there would be a relationship between various sociodemographic interpersonal and relational substance use sexual experiential and health care variables and high risk sexual behavior Some of these hypotheses were confirmed while others were not The particular value of this study is that it was nationwide contained large numbers of participants and large numbers of variables included all sizes of metropolitan areas and specifically defined high risk sexual activity While many of the results confirm previous studies the constellation and clustering of results perhaps points to issues larger than HIV and high risk sexual behaviors alone issues that are fundamentally societal It is hoped that basic societal changes in attitudes towards gay men and women will reduce the isolation loneliness and feelings of being different that may well underlie the high rates of drug use and the meaning of the nature of sexual activity that is often present in gay community It is at this fundamental societal level that progress against AIDS will need to proceed

Beyond Sexuality Tim Dean, 2000-09 Beyond Sexuality points contemporary sexual politics in a radically new direction Combining a psychoanalytic emphasis on the unconscious with a deep respect for the historical variability of sexual identities this original work of queer theory makes the case for viewing erotic desire as fundamentally impersonal Tim Dean develops a reading of Jacques Lacan that rather than straightening out this notoriously difficult French psychoanalyst brings out the queer tensions and productive incoherencies in his account of desire Dean shows how the Lacanian unconscious deheterosexualizes desire and along the way he reveals how psychoanalytic thinkers as well as queer theorists have failed to exploit the full potential of this conception of desire The book elaborates this by investigating social fantasies about homosexuality and AIDS including gay men s own fantasies about sex and promiscuity in an attempt to illuminate the challenges facing safe sex education Taking on many shibboleths in contemporary psychoanalysis and queer theory and taking no prisoners Beyond Sexuality offers an antidote to hagiographical strains in recent work on psychoanalysis Foucault and sexuality

sexual scripts and sexual identities of performers writers directors and editors to produce sexually exciting videos and movies Yet hardcore pornographic films have also created a body of knowledge that constitutes in this digital age an enormous archive of sexual fantasies that serve as both a form of sex education and self help guides Sex Society and the Making of Pornography focuses on sex and what can be learned about it from pornographic representations

introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories Modern Criticism and Theory has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today

Men and masculinities in modern Britain Matt Houlbrook, Katie Jones, Ben Mechen, 2024-01-16 *Men and masculinities* provides an engaging accessible and provocative introduction to histories of masculinity for all readers interested in contemporary gender politics. The book offers a critical overview of ongoing historiographical debates and the historical making of men's lives and identities and ideas of masculinity between the 1890s and the present day. In setting out a new agenda for the field it makes an ambitious argument for the importance of writing histories which are present centred and politically engaged. This means that the book engages head on with ferocious debates about men's social position and the status of masculinity in contemporary public life. In establishing a critical genealogy for the proliferation of this crisis talk it sets out new ways of understanding how men's lives and ideas of masculinity have changed over time while patriarchy and male power have persisted.

Intimacy and Responsibility Matthew Weait, 2007-12-14 In what circumstances and on what basis should those who transmit serious diseases to their sexual partners be criminalised? In this new book Matthew Weait uses English case law as the basis of a more general and critical analysis of the response of the criminal courts to those who have been convicted of transmitting HIV during sex. Examining cases and engaging with the socio-cultural dimensions of HIV/AIDS and sexuality he provides readers with an important insight into the way in which the criminal courts construct the concepts of harm, risk, causation, blame and responsibility. Taking into account the socio-cultural issues surrounding HIV/AIDS and their interaction with the law, Weait has written an excellent book for postgraduate and undergraduate law and criminology students studying criminal law, theory, the trial process, offences against the person and the politics of criminalisation. The book will also be of interest to health professionals working in the field of HIV/AIDS, genito-urinary medicine who want to understand the issues that may face their clients and patients.

AIDS: Activism and Alliances Peter Aggleton, Peter Davis, Graham Hart, 2003-09-02 From the start of the AIDS epidemic there have been calls for greater solidarity between affected groups and communities and public health services. This can be seen both in the move towards healthy alliances in health service work and in the demands of AIDS activists worldwide. This text brings together specially selected papers addressing these and related themes given at the Eighth Conference on Social Aspects of AIDS held in London in late 1995. Among the issues examined are profession and policy, the heightened vulnerability of groups such as women and younger gay men and issues of drug use, disability and HIV prevention.

Policing Public Sex Ephraim Glenn Colter, *Dangerous Bedfellows*, 1996 As some activists have turned to regulation rather than education in the effort to curb the AIDS epidemic the public culture at the foundation of queer culture has come under attack.
