Simon and Schuster Crossword Puzzle Book John M. Samson, 1995-08 Who says crossword puzzles shouldn't be educational Words to a writer are like colors to a painter The broader the palette the richer the painting *Scientific advice and evidence in emergencies* Great Britain: Parliament: House of Commons: Science and Technology Committee, Andrew Miller, 2011-03-02 In this report the Science and Technology Committee examines how scientific advice and evidence is used in national emergencies when the Government and scientific advisory system are put under great pressure to deal with atypical situations The inquiry focused on four case studies i the 2009 10 H1N1 influenza pandemic swine flu ii the April 2010 volcanic ash disruption iii space weather and iv cyber attacks While science is used effectively to aid responses to emergencies the detachment of the Government Chief Scientific Adviser GCSA from the National Risk Assessment NRA the key process of risk evaluation carried out by the Cabinet Office is a serious concern The Committee recommends that the NRA should not be signed off until the GCSA is satisfied that all risks requiring scientific input and judgements have been properly considered A new independent scientific advisory committee should be set up to advise the Cabinet on risk assessment and review the NRA The Icelandic volcanic eruption in April 2010 is a stark example of the lack of scientific input in risk assessment the risk of disruption to aviation caused by a natural disaster was dropped from the assessment process in 2009 despite warnings from earth scientists There are concerns over how risk was communicated to the public during the 2009 10 swine flu pandemic are raised in the report with sensationalised media reporting about the projected deaths from swine flu The Scientific Advisory Groups in Emergencies set up to advise government during emergencies were found to work in an unnecessarily secretive way **Wisdom Or Knowledge?** Willem B. Enough of Experts Cara Reed, Michael Reed, 2023-05-08 Enough of Experts Expert Authority in Crisis analyses the challenges and threats to expert authority in neoliberal political economies and societies It focuses upon the deep seated political economic social and cultural transformations which have fundamentally destabilized and eroded the institutional foundations of expert authority over more than four decades The book critically assesses the orthodox or received model of expert authority as it has come under escalating pressures from a nexus of ideological organizational technological and cultural changes that have radically weakened the former's core institutional logic and practical efficacy It also looks forward to a range of expert futures in which expert groups and organizations decline in power and status as their prevalence proliferates to a stage where they become ubiquitous in neoliberal regimes Finally the book presents an alternative reflexive model of expert authority and governance that is grounded in the dynamics of contestation and trust and stands in direct contrast to the orthodox rational model The Four Chinese Classics, 2013-11-18 Discover 4 seminal masterworks of
