**Decolonising Europe?** Berny Sèbe, Matthew G. Stanard, 2020-04-01 Decolonising Europe Popular Responses to the End of Empire offers a new paradigm to understand decolonisation in Europe by showing how it was fundamentally a fluid process of fluxes and refluxes involving not only transfers of populations ideas and sociocultural practices across continents but also complex intra European dynamics at a time of political convergence following the Treaty of Rome Decolonisation was neither a process of sudden rapid changes to European cultures nor one of cultural inertia but a development marked by fluidity movement and dynamism Rather than being a static process where Europe's former metropolises and their peoples at home reacted to the end of empire out there decolonisation translated into new realities for Europe's cultures societies and politics as flows ebbs fluxes and cultural refluxes reshaped both former colonies and former metropolises The volume's contributors set out a carefully crafted panorama of decolonisation's sequels in European popular culture by means of in depth studies of specific cases and media analysing the interwoven meaning momentum memory material culture and migration patterns of the end of empire across eight major European countries The revised meaning of decolonisation that emerges will challenge scholars in several fields and the panorama of new research in the book charts paths for new investigations The question mark in the title asks not only how European cultures experienced the end of empire but also the extent to which this is still a work in progress
