**to Congress of the U.S.-China Economic and Security Review Commission** U.S.-China Economic and Security Review Commission,2013 *China's Air Power and Maritime Strategies Towards the Indian Ocean Region* Joshy M. Paul,2025-02-03 This book examines China's naval and airpower strategic direction towards the Indian Ocean region. It discusses China's military modernization program along with naval and airpower capabilities including expeditionary nature. It analyses China's attempt to gain a strategic dominance in the IOR by means of investments and trade with the littoral countries, military diplomatic relationship with friendly countries, permanent presence of naval systems in the Indian Ocean and delivering public goods throughout the region. A comparative analysis of People's Liberation Army Air Force (PLAAF) expeditionary capabilities and Indian Air Force's IAF deterrence mechanisms is also included. Print edition not for sale in South Asia, India, Sri Lanka, Nepal, Bangladesh, Pakistan and Bhutan. *China's Military Transformation* You Ji,2016-01-25 China's military transformation is one of the major geo-strategic developments of the 21st Century. Billions of dollars are being spent modernizing The People's Liberation Army (PLA) as China seeks to upgrade and expand its military capabilities to rival the US. In this cutting edge analysis, You Ji, a leading expert on China's military affairs, explores the changes taking place within the PLA today, covering its ground, aerospace and maritime forces, its ability to meet asymmetric threats and the growing role played by the People's Armed Police in quelling dissent in China. He shows how these transformations in personnel, technology and strategic goals are slowly driving a wedge between China's two most powerful institutions. Until recently, relations between the CCP and PLA were harmonious, but as the PLA becomes increasingly professionalized and autonomous, so its unconditional loyalty to the ruling Party may weaken. The changing relationship between the CCP and PLA, he argues, is likely to have profound implications for China's own political development and the balance of power in the Asia Pacific region. Comprehensive and incisive, this timely book is a valuable resource for anyone interested in the nature and consequences of China's military rise. **China's World** Kerry Brown,2017-08-30 In the next decade, China's actions on the world stage will affect us all. A new superpower with the largest population and GDP on the globe, there are now fears that China is becoming more assertive. Here, award-winning China expert Kerry Brown guides us through China's foreign policy, from its skirmishes with US Navy destroyers in the South China Sea to its arguments with Japan over the Senkaku/Diaoyu Islands and its increased displays of military prowess, including huge investments in cyber warfare. Brown also assesses China's extraordinary plan to create a New Silk Road across Central Asia, one of the biggest infrastructure projects in modern history. In doing so, he seeks to answer a simple question: what does China want? The answer lies in the unique way China thinks about the world. A comprehensive analysis by one of the world's most recognised and respected authorities, and based upon unparalleled research into Chinese leaders, their beliefs and their instincts, *China's World* is an essential read for the Western world. *America's Response to China* Warren I. Cohen,2019-09-24 America's Response to China has long been the standard resource for a succinct, historically grounded assessment of an increasingly complicated relationship. Written by one of

America's leading diplomatic historians this book analyzes the concerns and conceptions that have shaped U.S. China policy and examines their far-reaching outcomes Warren I. Cohen begins with the mercantile interests of the newly independent American colonies and discusses subsequent events up to 2018. For this sixth edition, Cohen adds an analysis of the policies of Barack Obama and extends his discussion of the Chinese-American relationship in the age of potential Chinese ascendancy and the shrinking global influence of the United States, including the complications of the presidency of Donald Trump. Trenchant and insightful, *America's Response to China* is critically important for understanding U.S.-China relations in the twenty-first century. *Routledge Handbook of the South China Sea* Zou Keyuan, 2021-06-28 The *Routledge Handbook of the South China Sea* presents a comprehensive and in-depth analysis of South China Sea issues. It evaluates the dynamics of the latest developments and identifies factors that contribute to dispute settlement and a cooperative management regime of one of the most important seas in the world, one which not only contains rich marine resources and distinctive biodiversity but is also a critical sea route for global trade and communications. The Handbook is divided into six parts, each representing a focused area of enquiry: History and geostrategic landscape; Sovereignty and maritime entitlements; South China Sea policies of major claimants; Natural resources and environment; Cooperation and institutions; Challenges and prospects. Written by world-renowned experts and scholars with specialisms from geography to international law, the volume's 25 chapters contribute interdisciplinary perspectives reflecting the impact of how South China Sea policies are shaped by national governments and international organizations. As such, the Handbook provides an authoritative reference to South China Sea Studies, useful for students and scholars of international relations, history, maritime and Asian studies. **Should the World Fear China?** Zhou Bo, 2025-04-10 For Washington, China is a strategic competitor, the only country with both the will to reshape the world order and increasingly the means to do so. For Europe, the People's Republic is a partner for cooperation, an economic competitor and a systemic rival. For NATO, it is a decisive enabler of Russia's war against Ukraine. Yet Beijing's image is far more positive in the Global South, of which the PRC considers itself a part. Zhou Bo's essays unpack China's own view of its role today. The PRC is operating not only in a world becoming less Western but more importantly a West becoming less Western, and the key to its outlook lies in Africa, the Middle East and the Indo-Pacific as much as in Europe. And the White House, Are Moscow and Beijing really so closely aligned? Where are Sino-Indian relations headed? Is China a new Cold War foe for the West? Or will economic ties inevitably bring the two powers closer together. *The History of China, A History of British, Irish and American Literature* Hans-Peter Wagner, 2021-10-04 The third revised and enlarged edition contains discussions of British, Irish and American literary works up to 2020.
