## Saints And Innocents:

The Dead and the Living in Paris and London, 1500-1670 Vanessa Harding,2002-06-20 This 2002 book is an exploration in social history showing how the practices surrounding death can illuminate urban culture     *The Golden Legend, Or, Lives of the Saints* Jacobus (de Voragine),1900     **Paris Sewers and Sewermen** Donald Reid,1991 The expansion of the Paris sewer system during the Second Empire and Third Republic was both a technological and political triumph The sewers themselves were an important cultural phenomenon and the men who worked in them a source of fascination Donald Reid shows that observing how such laborers as cesspool cleaners and sewer men present themselves and are represented by others is a way to reflect on the material and cultural foundations of everyday life For bourgeois urbanites the sewer became the repository of latent anxieties about disease disorder and anarchy The sewer men themselves formed a model army of labor in an era of social upheaval in the workplace They were pioneers both in demanding the right of public servants to unionize and in securing social welfare measures They were among the first French manual laborers to win the eight hour day paid vacations and other benefits Reid transcends traditional categories by bringing together the infrastructure and the cultural supports of society viewing technocracy and its achievements in technical political and cultural terms Historians of modern France and Francophiles in search of the unusual will welcome the cultural interfaces of urban history labor history and the history of technology his book provides His text is enlivened by drawings and photographs of the life below Paris streets and illuminated by references to literary sources such as Hugo's Les Misérables and Giraudoux's The Madwoman of Chaillot     The Cult of Saints in Late Antiquity and the Early Middle Ages James Howard-Johnston,Paul Antony

Hayward,2000-01-07 This book contains eleven essays prefaced by a general introduction on a set of related themes the characteristic traits and diverse functions of holy men the fashioning of saints out of a small minority of holy men and a number of other individuals of high social status but with more dubious spiritual credentials the literary processes involved in the construction of hagiographical texts the role of hagiography in the creation and diffusion of cults and the worldly interests and other purposes which were served by hagiographical texts and the cults which they propagated These themes are explored across a wide range of social and cultural milieux extending from the late antique east Mediterranean through the early medieval Frankish world and Byzantium to Russia and Islam in the high middle ages The work of Peter Brown in particular his article The Rise and Function of the Holy Man in Late Antiquity first published in 1971 forms a constant point of reference acknowledged by the contributors as having irradiated the whole field with fresh provocative and illuminating ideas ,

### **John Lydgate's Dance of Death and Related Works**

Megan L Cook, Elizaveta Strakhov, 2019-10-31 This volume joins new editions of both texts of John Lydgate's The Dance of Death related Middle English verse and a new translation of Lydgate's French source the Danse macabre Together these poems showcase the power of the danse macabre motif offering a window into life and death in late medieval Europe In vivid often grotesque and darkly humorous terms these poems ponder life's fundamental paradox while we know that we all must die we cannot imagine our own death

La Dance Macabre Des Saints Innocents de Paris Jean Gerson, 1975 *Liturgy, Politics, and Salvation* Ann W. Ramsey, 1999 Ramsey employs a new method for the analysis of symbolic behaviors to reveal the relations between political and religious engagement and cultural change at a crucial moment in the development of the French nation

The Hour of Our Death Philippe Ariès, 2013-11-06 An absolutely magnificent book The New Republic the fruit of almost two decades of study that traces the changes in Western attitudes toward death and dying from the earliest Christian times to the present day A truly landmark study The Hour of Our Death reveals a pattern of gradually developing evolutionary stages in our perceptions of life in relation to death each stage representing a virtual redefinition of human nature Starting at the very foundations of Western culture the eminent historian Phillips Ariès shows how from Graeco Roman times through the first ten centuries of the Common Era death was too common to be frightening each life was quietly subordinated to the community which paid its respects and then moved on Ariès identifies the first major shift in attitude with the turn of the eleventh century when a sense of individuality began to rise and with it profound consequences death no longer meant merely the weakening of community but rather the destruction of self Hence the

growing fear of the afterlife new conceptions of the Last Judgment and the first attempts by Masses and other rituals to guarantee a better life in the next world In the 1500s attention shifted from the demise of the self to that of the loved one as family supplants community and by the nineteenth century death comes to be viewed as simply a staging post toward reunion in the hereafter Finally Ari's shows why death has become such an unendurable truth in our own century how it has been nearly banished from our daily lives and points out what may be done to tame this secret terror The richness of Ari's source material and investigative work is breathtaking While exploring everything from churches religious rituals and graveyards with their often macabre headstones and monuments to wills and testaments love letters literature paintings diaries town plans crime and sanitation reports and grave robbing complaints Aries ranges across Europe to Russia on the one hand and to England and America on the other As he sorts out the tangled mysteries of our accumulated terrors and beliefs we come to understand the history indeed the pathology of our intellectual and psychological tensions in the face of death

From the Brink of the Apocalypse John Aberth, 2013-09-13 Praise for the first edition Aberth wears his very considerable and up to date scholarship lightly and his study of a series of complex and somber calamities is made remarkably vivid Barrie Dobson Honorary Professor of History University of York The later Middle Ages was a period of unparalleled chaos and misery in the form of war famine plague and death At times it must have seemed like the end of the world was truly at hand And yet as John Aberth reveals in this lively work late medieval Europeans cultural assumptions uniquely equipped them to face up positively to the huge problems that they faced Relying on rich literary historical and material sources the book brings this period and its beliefs and attitudes vividly to life Taking his themes from the Four Horsemen of the Apocalypse John Aberth describes how the lives of ordinary people were transformed by a series of crises including the Great Famine the Black Death and the Hundred Years War Yet he also shows how prayers chronicles poetry and especially commemorative art reveal an optimistic people whose belief in the apocalypse somehow gave them the ability to transcend the woes they faced on this earth This second edition is brought fully up to date with recent scholarship and the scope of the book is broadened to include many more examples from mainland Europe The new edition features fully revised sections on famine war and plague as well as a new epitaph The book draws some bold new conclusions and raises important questions which will be fascinating reading for all students and general readers with an interest in medieval history

Inventaire du trésor de la Cathédrale de Laon en 1523 avec une introduction par E. Fleury. F.P. Cathedral (LAON), 1855 **Death in the Middle Ages and Early Modern Times** Albrecht Classen, 2016-04-11 Death is not only the final moment of life it also casts a huge shadow on human society at large People throughout time have had to cope with death as an existential experience and this also of course in the premodern world The contributors to the present volume examine the material and spiritual conditions of the culture of death studying specific buildings and spaces literary works and art objects theatrical performances and medical tracts from the early Middle Ages to the late eighteenth century Death has always evoked fear

terror and awe it has puzzled and troubled people forcing theologians and philosophers to respond and provide answers for questions that seem to evade real explanations The more we learn about the culture of death the more we can comprehend the culture of life As this volume demonstrates the approaches to death varied widely also in the Middle Ages and the early modern age This volume hence adds a significant number of new facets to the critical examination of this ever present phenomenon of death exploring poetic responses to the Black Death types of execution of a female murderer death as the springboard for major political changes and death reflected in morality plays and art

**Plastic Past** Christopher Leffler, 2023-11-20 This book uses

plasticity as a metaphor for understanding how the past endures and evolves within the landscape and the ways in which remembering shapes the sites we occupy and use The plastic site is characterised both by its resilience its form never entirely altered from an earlier mould and by its malleability which ensures that whatever persists is inevitably transformed Embodied in its present configuration are the many moments that have produced it over time and these are continually supplemented and modified Surveying examples from Paris Algiers and Marseille and media as diverse as literature film photography blogs and video games Plastic Past interrogates how different communities and cultural producers have grappled with the present past in space as an enduring and dynamic memory It argues that understanding sited memory as plastic entails recognising a multiplicity of immutable pasts that exist in a permanent state of ongoing evolution

**How to**

**Read a Graveyard** Peter Stanford, 2013-04-11 Death is the one certainty in life yet with the decline of religion in the West we have become collectively reluctant to talk about it Our contemporary rituals seek to sanitise death and distance us from our own inevitable fate If we want to know how previous generations dealt with death graveyards famous and not tell us the history if we are able to read them If we want to know how we struggle today with understanding or facing up to death then graveyards provide a starting point And if we want to escape the present taboo on acknowledging our mortality and contemplate our own end then graveyards offer a rare welcome From Neolithic mounds to internet memorials via medieval corpse roads and municipal cemeteries war graves and holocaust memorials Roman catacombs Pharaonic grave robbers Hammer horrors body snatchers Days of the Dead humanist burials and flameless cremations Stanford shows us how to read a graveyard what to look out for in our own and how even the most initially unpromising exploration can enthral This enhanced edition includes suggestions of over 40 graveyards and cemeteries to visit in the UK and beyond a photographic tour of Saint Margaret's Cemetery Burnham Norton and an audio tour by the author of Paddington Old Cemetery London
