RUSSIAN LITERATURE

Saints And Revolutionaries

Jane Kamensky

Saints And Revolutionaries:

Saints and Revolutionaries Marcia A. Morris, 1993-01-01 An examination of literary works spanning more than seven centuries this volume studies the ascetic hero and asceticism exploring the elusive interplay between religion politics and belles lettres in Russia The first part places works including the thirteenth century Kievan Crypt Patericon and Life of Avraamii Smolenskii Epifanii s Life of Sergii Radonezhskii and other lives written in the north of Russia in the context of crucial religious doctrines such as apocalypticism and deification The author shows how Old Russian literature plays a major cultural role in the continuing development of these doctrines on Russian soil The second part traces a revival of the Russian fascination with themes of apocalypse and perfectibility to the nineteenth and early twentieth centuries Morris also documents the development of a divergence in ideological approach between Russian writers who continued to view apocalypticism and deification as religious phenomena and those who used them as tools of social and political struggle Works by Gogol Tolstoy Dostoevsky Chernyshevsky and Gorky as well as classic novels of the socialist realist tradition are analyzed as evidence of the underlying unity of the literary manifestations of this ostensibly bifurcated intellectual tradition

Saints and Revolutionaries Olaf Stapledon, 1939 *Saints and Revolutionaries* David Hall, 1986-02 Olaf Stapledon Robert Crossley, 1994-07-01 William Olaf Stapledon is best remembered for the extraordinary works of speculative fiction he published between 1930 and 1950 As a novelist he was known as the spokesman for the Age of Einstein and has influenced writers as diverse as Virginia Woolf Arthur C Clarke and Doris Lessing This biography is the first to draw on a vast body of unpublished and private documents interviews correspondence archival material and papers in private hands to reveal fully the internal struggles that shaped Stapledon s life and reclaim for public attention a distinctive voice of the modern era Late in his life in an unpublished letter to the future Stapledon unwittingly provided the rationale for his biography It is just possible that my very obscurity may fit me to speak more faithfully for my period than any of its great unique personalities A pacifist in World War I an advocate of European unity and world government one of the first teachers in the Workers Educational Association and an early protestor against apartheid Stapledon turned utopian beliefs into practical politics With roots in the shipping worlds of Devon Liverpool and the Suez Canal he was transformed from a self described provincial on the margins of English literary and political life into a visionary idealist who attracted the attention of scientists journalists and novelists and given his left wing political affiliations even the F B I Stapledon s novels *Last and First Men* *Star Maker* *Odd John* and *Sirius* have gathered a passionate following and they have seldom been out of print in the last twenty five years But the personal experiences and political commitments that shaped this creative work have until now barely been known Robert Crossley s work reveals how in public and in private in his social activism as in his fiction Olaf Stapledon embodied many of the modern era s anxieties and hopes that allow his works to continue to speak to and for the future **The**

Revolution of the Saints Michael Walzer, 1982 The Revolution of the Saints is a study both historical and sociological of the

radical political response of the Puritans to disorder It interprets and analyzes Calvinism as the first modern expression of an unremitting determination to transform on the basis of an ideology the existing political and moral order Michael Walzer examines in detail the circumstances and ideological options of the Puritan intelligentsia and gentry He sees Puritanism in sharp contrast to some generally accepted views as the political theory of intellectuals and gentlemen attempting to create a new government and society

Socialist Realism in Central and Eastern European Literatures under Stalin Evgeny Dobrenko, Natalia Jonsson-Skradol, 2018-02-15 Socialist Realism in Central and Eastern European Literatures is the first published work to offer a variety of alternative perspectives on the literary and cultural Sovietization of Central and Eastern Europe after World War II and emphasize the dialogic relationship between the centre and the satellites instead of the traditional top down approach The introduction of the Soviet cultural model was not quite the smooth endeavour that it was made to look in retrospect rather it was always a work in progress often born out of a give and take with the local authorities intellectuals and interest groups Relying on archival resources the authors examine one of the most controversial attempts at a cultural unification in Europe by providing an overview with a focus on specific case studies an analysis of distinct particularities with attention to the patterns of negotiation and adaptation that were being developed in the process

Forgotten Features of the Founding James H. Hutson, 2003-01-01 Forgotten Features of the Founding The Recovery of Religious Themes in the Early American Republic is a book of six original essays that explore the deep significance of previously neglected religious themes in the Founding Era Author James Hutson argues convincingly that without understanding these themes it is impossible to comprehend the religious mentality of the Founding Era

The Salem Witchcraft Trials Peter Charles Hoffer, 1997 Historian Peter Charles Hoffer reexamines a notorious episode in American history and presents many of its legal details in true perspective for the first time Hoffer also shows how rights we take for granted today did not exist in colonial times and he demonstrates how these cases relate to current instances of children accusing adults of abuse

The Legacy of Olaf Stapledon Patrick McCarthy, Charles Elkins, Martin Greenberg, 1989-01-10 Although better known today for such classic and influential science fiction novels as Last and First Men Odd John Star Maker and Sirius Olaf Stapledon also wrote eight other science fiction books seven volumes of philosophy and social criticism and hundreds of reviews lectures and articles Common to all his works is a moral vision that is characterized by ecstatic joy and revolutionary zeal though tempered by detachment and skepticism This is the first book collection of original essays devoted entirely to Stapledon Where previous critical interpretation has concentrated on individual works by the author these essays deal with larger issues in Stapledon's writings and with his relationship to such forces as Marxism and literary modernism The articles develop new avenues for the exploration of Stapledon's work focusing on philosophical linguistic political and structural elements and showing how Stapledon's non-fictional writing may illuminate aspects of the fiction In addition the book includes Stapledon's hitherto unpublished manuscript Letters to the Future as well as a primary and

secondary bibliography An important contribution to the study of science fiction and fantasy The Legacy of Olaf Stapledon will be of interest to scholars and students of Stapledon and of the genre *Toxic Voices* Eric Laursen,2013-01-30 Satire and the fantastic vital literary genres in the 1920s are often thought to have fallen victim to the official adoption of socialist realism Eric Laursen contends that these subversive genres did not just vanish or move underground Instead key strategies of each survive to sustain the villain of socialist realism Laursen argues that the judgment of satire and the hesitation associated with the fantastic produce a narrative obsession with controlling the villain s influence In identifying a crucial connection between the questioning subversive literature of the 1920s and the socialist realists Laursen produces an insightful revision of Soviet literary history **Governing the Tongue** Jane Kamensky,1999-02-18 Governing the Tongue explains why the spoken word assumed such importance in the culture of early New England In a work that is at once historical socio cultural and linguistic Jane Kamensky explores the little known words of unsung individuals and reconsiders such famous Puritan events as the banishment of Anne Hutchinson and the Salem witch trials to expose the ever present fear of what the Puritans called sins of the tongue But even while dangerous or deviant speech was restricted as Kamensky illustrates here godly speech was continuously praised and promoted Congregations were told that one should lift one s voice like a trumpet to God and cry out and cease not By placing speech at the heart of New England s early history Kamensky develops new ideas about the complex relationship between speech and power in both Puritan New England and by extension our world today *Making Martyrs* Yuliya Minkova,2018 Examines the ideology of sacrifice in Soviet and post Soviet culture analyzing a range of fictional and real life figures who became part of a pantheon of heroes primarily because of their victimhood *Flag Wars and Stone Saints* Nancy Meriwether Wingfield,2007 In a new perspective on the formation of national identity in Central Europe Nancy Wingfield analyzes what many historians have treated separately the construction of the Czech and German nations as a larger single phenomenon Czech and German nationalism worked off each other in dynamic ways As external conditions changed Czech and German nationalists found new uses for their pasts and new ways to stage them in public spaces for their ongoing national projects These grassroots confrontations transformed public culture by reinforcing the centrality of nationality to everyday life and by tying nationalism to the exercise of power The battles in the public sphere produced a cultural geography of national conflict associated with the unveiling of Joseph II statues that began in 1881 the Badeni Language Ordinances of 1897 the 1905 debate over a Czech language university in Moravia and the celebration of the emperor s sixtieth jubilee in 1908 The pattern of impassioned national conflict would be repeated for the duration of the monarchy and persist with even more violence into the First Czechoslovak Republic Numerous illustrations show how people absorbed on many levels visual clues that shaped how they identified themselves and their groups This nuanced analysis is a valuable contribution to our understanding of Central European history nationalism and the uses of collective memory Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09

The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Terrorism and War Jean Arundale, Coline Covington, Jean Knox, Paul ((Psychotherapist)) Williams, 2018-03-29 Following the attacks of September 11th 2001 one of the resounding questions asked was What would make anyone do such a thing The psychological mentality of the suicidal terrorist left a gaping hole in people's understanding This essential volume represents a much needed effort to collate and examine some of the material already at our disposal as an encouragement to serious thought on this question and other related questions If terrorism is not new what is it about the recent attacks that gives us a sense that something has changed Is it the scale of the destruction or the anxiety that we are facing some altogether new uncertainty Are we in some sense facing a new enemy In reflecting on these and other related questions we may be facing a similar watershed of understanding to that faced by Freud at the end of the Great War In the absence of progress in our thinking today political leaders and public opinion will likely turn to previous political and religious ideas investing in them with a fundamentalist certainty that spells disaster *Revolutionary Biographies in the 19th and 20th Centuries* Sandra Dahlke, Nikolaus Katzer, Denis Sdvizhkov, 2023-12-04 The volume contains selected contributions to the Max Weber Foundation's annual conference organised by the German Historical Institute Moscow The contributors look at the crisis ridden processes of modernity through the prism of individual biographies which manifest themselves in national and social anti imperial and de colonial global and regional movements The contributions cover the Russian Habsburg and Ottoman Empires Germany Italy the USA France the Soviet Union Iran Poland Turkey and Africa They focus on transnational and trans imperial life paths networks and the imprints of the actors as well as forms of auto biographical self constitution and the political use of biographical narratives Library of Congress Subject Headings Library of Congress, 1994

Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office, 2001 **The Revolutionary Ascetic** Bruce Mazlish, 2017-07-05 Why have the great revolutionary leaders of modern times from Robespierre to Lenin and Mao Tse tung so often been ascetics austere puritans with few emotional ties What functions political as well as personal do these ascetic traits perform for the modern revolutionary leader and for his followers Noted historian and author Bruce Mazlish is convinced that beginning in the nineteenth century the needs of modernizing revolutions have produced a distinct new type of political leader the revolutionary ascetic This individual's denial of personal

pleasures and commitments both enables him to perform politically necessary if personally repulsive revolutionary acts and to command the allegiance of his more worldly followers Starting with Cromwell and the religious ascetics of the Puritan Revolution Mazlish shows in a series of fascinating personality sketches how this asceticism first became secularized with the French Revolution and then in the nineteenth and twentieth centuries was put to the service of a new kind of total modernizing revolution in Russia China and elsewhere In two remarkably vivid portraits of Lenin and Mao Tse tung Mazlish shows us precisely how two of the century s best known revolutionaries consciously and unconsciously used their personal asceticism to induce revolutionary change *The Revolutionary Temper: Paris, 1748-1789* Robert Darnton, 2023-11-07 A New York Times Book Review Editors Choice This captivating history of the decades leading up to the French Revolution immerse s readers in what agitated Parisians read wore ate and sang on the way to toppling the monarchy of Louis XVI New York Times Book Review A groundbreaking account of the coming of the French Revolution from a historian of worldwide acclaim When a Parisian crowd stormed the Bastille in July 1789 it triggered an event of global consequence the overthrow of the monarchy and the birth of a new society Most historians account for the French Revolution by viewing it in retrospect as the outcome of underlying conditions such as a faltering economy social tensions or the influence of Enlightenment thought But what did Parisians themselves think they were doing how did they understand their world What were the motivations and aspirations that guided their actions In this dazzling history Robert Darnton addresses these questions by drawing on decades of close study to conjure a past as vivid as today s news He explores eighteenth century Paris as an information society much like our own its news circuits centered in caf s on park benches and under the Palais Royal s Tree of Cracow Through pamphlets gossip underground newsletters and public performances the events of some forty years from disastrous treaties official corruption and royal debauchery to thrilling hot air balloon ascents and new understandings of the nation all entered the churning collective consciousness of ordinary Parisians As public trust in royal authority eroded and new horizons opened for them Parisians prepared themselves for revolution Darnton s authority and sure judgment enable readers to confidently navigate the passions and complexities of controversies over court politics Church doctrine and the economy And his compact luminous prose creates an immersive reading experience Here is a riveting narrative that succeeds in making the past a living presence

Thank you for downloading **Saints And Revolutionaries**. Maybe you have knowledge that, people have look hundreds times for their chosen books like this Saints And Revolutionaries, but end up in infectious downloads.

Rather than reading a good book with a cup of coffee in the afternoon, instead they are facing with some infectious virus inside their desktop computer.
