knowledge transfer into sales performance **Dreamcrafting** Paul Levesque, Art McNeil, 2003-02-16 Many people set out to achieve a dream starting a business or learning to play the piano or publishing a book but they don't succeed and the dream fizzles away. In many cases these people have lots of skills and expertise such as deep knowledge of the business or career they are interested in so why don't they succeed? Paul Levesque and Art McNeil have discovered that making a dream come true requires cultivating skills of a higher order: macroskills that inevitably spell the difference between success and failure no matter what the specifics of a person's dreams are. These are the skills Dreamcrafting outlines in detail **How to Run a Meeting** Mary Ann De Vries, 1994 This mini guide to correct parliamentary procedure in conducting meetings is a companion to De Vries' popular *New Robert's Rules of Order*. It also serves as a valuable professional resource behind the Guidelines. New content includes updated research throughout and a reorganization of the KSAs to correspond with the sixth edition of ACSM's *Guidelines*. Significantly revised chapters include Epidemiology of Physical Activity, Physical Fitness, and Selected Chronic Diseases; Diet and Chronic Disease; Medical and Invasive Interventions in the Management of Coronary Artery Disease; Comprehensive Cardiovascular Risk Reduction in Patients with Coronary Artery Disease; Smoking Cessation Policies and Procedures for Clinical Programs. Both the clinical and health fitness tracks are covered in an attractive design that highlights the KSAs for each level of certification. The book features both theoretical and practical physiological concepts and relates the examples to exercise testing, training, and programming, thus providing a complete perspective on clinical exercise physiology and fitness.
