Salmon Doubts Adam Sacks, 2004 Follows a group of salmon as they make their way to the ocean to fatten up and then return to their stream to spawn

Philosophy of Language and Webs of Information Heimir Geirsson, 2013 The nature of propositions and the cognitive value of names have been the focal point of philosophy of language for the last few decades The advocates of the causal reference theory have favored the view that the semantic contents of proper names are their referents However Frege's puzzle about the different cognitive value of coreferential names has made this identification seem impossible Geirsson provides a detailed overview of the debate to date and then develops a novel account that explains our reluctance even when we know about the relevant identity to substitute coreferential names in both simple sentences and belief contexts while nevertheless accepting the view that the semantic content of names is their referents The account focuses on subjects organizing information in webs a name can then access and elicit information from a given web Geirsson proceeds to extend the account of information to non-referring names but they have long provided a serious challenge to the causal reference theorist

Parliament. House of Commons,1905 **The Pragmatic Perspective** Jef Verschueren,Marcella Bertuccelli Papi,1987-01-01
This volume contains a selection of reviewed and revised papers originally presented at the International Pragmatics Conference held in Viareggio Italy 1 5 September 1985 *The Readers' Advisory Guide to Graphic Novels* Francisca Goldsmith,2010 Graphic novels have found a place on library shelves but many librarians struggle to move this expanding body of intellectual aesthetic and entertaining literature into the mainstream of library materials **A Reasonable Doubt** Phillip Margolin,2020-03-10 A magician linked to three murders and suspicious deaths years ago disappears in the middle of his new act in New York Times bestseller Phillip Margolin s latest thriller featuring Robin Lockwood Robin Lockwood is a young criminal defense attorney and partner in a prominent law firm in Portland Oregon A former MMA fighter and Yale Law graduate she joined the firm of legal legend Regina Barrister not long before Regina was forced into retirement by early onset Alzheimer s One of Regina s former clients Robert Chesterfield shows up in the law office with an odd request he s seeking help from his old attorney in acquiring patent protection for an illusion Chesterfield is a professional magician of some reknown and he has a major new trick he s about to debut This is out of the scope of the law firm s expertise but when Robin Lockwood looks into his previous relationship with the firm she learns that twenty years ago he was arrested for two murders one attempted murder and was involved in the potentially suspicious death of his very rich wife At the time Regina Barrister defended him with ease after which he resumed his career as a magician in Las Vegas Now decades later he debuts his new trick only to disappear at the end He s a man with more than one dark past and many enemies is his disappearance tied to one of the many people who have good reason to hate him Was he killed and his body disposed of or did he use his considerable skills to engineer his own disappearance Robin Lockwood must unravel the tangled skein of murder and bloody mischief to learn how it all ties together **Church Quarterly Review** ,1887 **Between Generations** Victoria Ford Smith,2017-08-07 Winner of the Children s Literature Association s 2019 Book Award Between Generations is a multidisciplinary volume that reframes children as powerful forces in the production of their own literature and culture by uncovering a tradition of creative collaborative partnerships between adults and children in nineteenth and early twentieth century England The intergenerational collaborations documented here provide the foundations for some of the most popular Victorian literature for children from Margaret Gatty s Aunt Judy s Tales to Robert Louis Stevenson s Treasure Island Examining the publication histories of both canonical and lesser known Golden Age texts reveals that children collaborated with adult authors as active listeners coauthors critics illustrators and even small scale publishers These literary collaborations were part of a growing interest in child agency evident in cultural social and scientific discourses of the time Between Generations puts these creative partnerships in conversation with collaborations in other fields including child study educational policy library history and toy culture Taken together these collaborations illuminate how Victorians used new critical approaches to childhood to theorize young people as viable social actors Smith s work not only recognizes

Victorian children as literary collaborators but also interrogates how those creative partnerships reflect and influence adult child relationships in the world beyond books *Between Generations* breaks the critical impasse that understands children's literature and children themselves as products of adult desire and revises common constructions of childhood that frequently and often errantly resign the young to passivity or powerlessness **Report of the Industrial Commission on Agriculture and Agricultural Labor** United States. Industrial Commission, 1901
