Tillotson, 2004 In a modern world congested with medical information it can come as a surprise that most people are ignorant of basic health principles While technology advocates advanced nutrition supplements and formulas we have overlooked what God has created in perfection Leaves from the Tree of Life is a practical manual based on Biblical principles Eight chapters are devoted to exploring the basic laws of health Nutrition Exercise Water Sunlight Temperance Air

Rest and Trust in Divine Power and showing how these principles can help enhance and lengthen the individual's life. Extensive research was consulted when composing this manual yet it is written in a simple understandable format with specific ways to make these principles into reality including 79 pages of nutritious recipes. Edited by Milton G. Crane, M.D., FACP, Director of Medical Research at Weimar Institute, this manual has a solid medical basis which sets it above many other publications of its kind. I am very pleased with this book; it will be a great asset in working with your students and in presenting your seminars. I believe it will fill a much needed spot in education of lay persons in the basic laws of health. It is well documented and very nicely laid out.

Agatha Thrash, M.D., Uchee Pines Institute: *Leaves from the Tree of Life* is a manual of basic health principles based on the 8 Laws of Health. The author explores God's plan for feeling better and living longer and offers practical tips to promote a healthy lifestyle including exercise, diet, and spirituality. Also included are many nutritious recipes.

Utilizing Your Passion to Create Success by Joe Marsola Eidem, 2010-03: Life is a story and we all have our own special one to live. Some of us are in the early chapters struggling to figure out the plot while others are mired in the middle with too many obstacles and unclear dialogue. Still others are contemplating their grand final act. You, like me, started out somewhere with your own special location, culture, and passions. Your supporting cast—family, friends, neighbors, teachers, mentors, colleagues, and employers—even someone you may have casually met in passing—influenced your thoughts, values, and decisions. The result of these influences leads you to where you are right now, holding this book, reading these words at exactly this moment. While our stories are peppered with our own individuality, surprisingly, they are not that unique. The specific situations are varied, but we've all experienced ups and downs, joys and sorrows, days when we were sure we could fly and mornings when the mere thought of getting out of bed was seemingly the most painful task we had ever faced. I see the quizzical look on your face wondering what these life story mutterings are all about, swearing that you had purchased a cookbook. Let me assure you: this is a cookbook, and in it you will find a vast array of delectable recipes that will invigorate your palate and impress your friends. You will also find a story, my story. You see, these recipes make up one of my most important supporting characters: food. They will also introduce you to my single most influential supporting character: family. It is my sincere hope that these stories of food and family nurture both your body and soul, and as you continue through your life story, provide you with some guidance and much food for thought.
