Salt Eaters:

The Salt Eaters Toni Cade Bambara, 1992-06-30 A community of Black faith healers witness an event that will change their lives forever in this hard nosed wise funny novel Los Angeles Times One of The Atlantic's Great American Novels of the Past 100 Years Set in a fictional city in the American South the novel also inhabits the nonlinear sacred space and sacred time of traditional African religion The New York Times Book Review Though they all united in their search for the healing properties of salt some of them are centered some are off balance some are frightened and some are daring From the men who live off welfare women to the mud mothers who carry their children in their hides the novel brilliantly explores the narcissistic aspect of despair and the tremendous responsibility that comes with physical spiritual and mental well being

Women, Philosophy and Literature Jane Duran, 2016-02-17 New work on women thinkers often makes the point that philosophical conceptual thought is where we find it examples such as Simone de Beauvoir and the nineteenth century Black American writer Anna Julia Cooper assure us that there is ample room for the development of philosophy in literary works but as yet there has been no single unifying attempt to trace such projects among a variety of women novelists This book articulates philosophical concerns in the work of five well known twentieth century women writers including writers of color Duran traces the development of philosophical themes ontological ethical and feminist in the writings of Margaret Drabble Virginia Woolf Simone de Beauvoir Toni Cade Bambara and Elena Poniatowska presenting both a general overview of the author's work with an emphasis on traditional philosophical questions and a detailed feminist reading of the work

Breathing Aesthetics Jean-Thomas Tremblay, 2022-08-29 In Breathing Aesthetics Jean Thomas Tremblay argues that difficult breathing indexes the uneven distribution of risk in a contemporary era marked by the increasing contamination weaponization and monetization of air Tremblay shows how biopolitical and necropolitical forces tied to the continuation of extractive capitalism imperialism and structural racism are embodied and experienced through respiration They identify responses to the crisis in breathing in aesthetic practices ranging from the film work of Cuban American artist Ana Mendieta to the disability diaries of Bob Flanagan to the Black queer speculative fiction of Renee Gladman In readings of these and other minoritarian works of experimental film endurance performance ecopoetics and cinema v rit Tremblay contends that articulations of survival now depend on the management and dispersal of respiratory hazards In so doing they reveal how an aesthetic attention to breathing generates historically culturally and environmentally situated tactics and strategies for living under precarity

Turning Points and Transformations Christine DeVine, 2011-07-12 From the Irish Cailleach and other shape shifters of folk legends to modern movie transformers from Ovid's *Metamorphoses* to the moment when Gregor Samsa woke up one morning to find himself transformed into an insect in Kafka's novella from conversion narratives to slave narratives turning points and transformations have always been central to literary works and to cultural developments In fact with Freytag's pyramid in mind one could claim that all literary works focus on the trope of a transformation born of a turning point because such moments comprise the very essence and vitality of human life and culture But why are turning points necessarily transformational and in what way And what brings about those turning points in language literature culture and human lives These are essentially the questions the essays in this volume seek to answer The contributors examine turning points and transformations personal literary and cultural brought about through the randomness of the universe as well as through human interference and discuss ways in which humans in general and writers in particular through their art experience and cope with the ineluctable results

The Black God Trope and Rhetorical Resistance Armondo R. Collins, 2023-05-08 In *The Black God Trope and Rhetorical Resistance: A Tradition of Race and Religion* Armondo R. Collins theorizes Black Nationalist rhetorical strategies as an avenue to better understanding African American communication practices The author demonstrates how Black rhetors use writing about God to create a language that reflects African Americans shifting subjectivity within the American experience This book highlights how the Black God trope and Black Nationalist religious rhetoric function as an embodied rhetoric Collins also addresses how the Black God trope functions as a gendered critique of white western patriarchy to demonstrate how an ideological position like womanism is voiced by authors using the Black God trope as a means of public address Scholars of rhetoric African American literature and religious studies will find this book of particular interest

Breaking the Silence David Ikard, 2007-02 Can black males offer useful insights on black women and patriarchy Many black feminists are doubtful Their skepticism derives in part from a history of explosive encounters with black men who blamed feminism for stigmatizing black men and undermining racial solidarity and in part from a perception that black male feminists are opportunists capitalizing on the current popularity of black women's writing and criticism In *Breaking the Silence* David Ikard goes boldly to the crux of this debate through a series of provocative readings of key African American texts that demonstrate the possibility and value of a viable black male feminist perspective Seeking to advance the primary objectives of black feminism Ikard provides literary models from Chester Himes's *If He Hollers Let Him Go* James Baldwin's *Go Tell It on the Mountain* Toni Morrison's *Paradise* Toni Cade Bambara's *The Salt Eaters* and Walter Mosley's *Always Outnumbered Always Outgunned* and *Walkin' the Dog* that consciously wrestle with the concept of victim status for black men and women He looks at how complicity across gender lines far from rooting out patriarchy in the black community has allowed it to thrive This complicity Ikard explains is a process by which victimized groups invest in victim status to the point that they unintentionally concede power to their victimizers and engage in patterns of behavior that are perceived as revolutionary but actually reinforce the status quo While black feminism has fostered important and necessary discussions regarding the problems of patriarchy within the black community little attention has been paid to the intersecting dynamics of complicity By laying bare the nexus between victim status and complicity in oppression *Breaking the Silence* charts a new direction for conceptualizing black women's complex humanity and provides the foundations for more expansive feminist approaches to resolving intraracial gender conflicts
