Smoke Blanchard Walking Up and Down in the World Cindy Ross had already hiked the 2000 mile length of the Appalachian Trail when hoping to escape a deadening daily routine and sort out her life she returned to the wild But this time it was a more rugged arena the Pacific Crest Trail a mostly mountainous 2600 mile route from Mexico to Canada vastly different from the relatively gentle well traveled Appalachian Trail Her trip began badly in the California desert where the hiking partner she had selected from an advertisement proved to be totally inexperienced and so strange that they parted company the first day Continuing alone Ross soon became the de facto leader of a motley ever changing crew of PCT walkers that came to be known as Cindy s Circus Long rugged hiking days produced physical ailments and strong emotions but in confronting and surmounting these challenges Ross grew in strength After many months and several major changes in her life Ross beat fall snows and storms to reach the Canadian border More than the end of the trail this was also a symbolic milestone in her life In narrating her story Ross deftly brings the reader into the physical and emotional landscape of long distance hiking Her cast of Crest characters is sharply drawn in both words and sketches

The Twins Saskia Sarginson, 2013-07-30 They were inseparable until an innocent mistake tore them apart Growing up Viola and Issy clung to

each other in the wake of their mother's eccentricity as she dragged them from a commune to a tiny Welsh village. They thought the three of them would be together forever. But an innocent mistake one summer set them on drastically different paths. Now in their twenties, Issy is trying to hold together a life as a magazine art director while Viola is slowly destroying herself consumed with guilt over the events they unknowingly set into motion as children. When it seems that Viola might never recover, Issy returns to the town they haven't seen in a decade to face her own demons and see what answers, if any, she can find. A deeply moving gripping debut, this is a novel about the secrets we carry and the bonds between twins.

The Lone Ranger and Tonto Fistfight in Heaven Sherman Alexie, 2013-10-15 Sherman Alexie's darkly humorous story collection weaves memory, fantasy, and stark reality to powerfully evoke life on the Spokane Indian Reservation. The twenty-four linked tales in Alexie's debut collection paint an unforgettable portrait of life on and around the Spokane Indian Reservation, a place where Survival, Anger, and Imagination where HUD houses and generations of privation intertwine with history, passion, and myth. We follow Thomas Builds the Fire, the longwinded storyteller no one really listens to; his half-hearted nemesis Victor, the basketball star turned recovering alcoholic; and a wide cast of other vividly drawn characters on a haunting journey filled with humor and sorrow, resilience and resignation, dreams and reality. Alexie's unadulterated honesty and boundless compassion come together in a poetic vision of a world in which the gaps between past and present are not really gaps after all. The basis for the acclaimed 1998 feature film *Smoke Signals*, the *Chicago Tribune* noted *The Lone Ranger and Tonto Fistfight in Heaven* is for the American Indian what Richard Wright's *Native Son* was for the black American in 1940. The collection received a Special Citation for the PEN Hemingway Award for Best First Fiction. This ebook edition features a new prologue from the author as well as an illustrated biography and rare photos from Sherman Alexie's personal collection.

Why would a successful American physician choose to live in a twelve foot by twelve foot cabin without running water or electricity? To find out, writer and activist William Powers visited Dr. Jackie Benton in rural North Carolina. No Name Creek gurgled through Benton's permaculture farm and she stroked honeybees' wings as she shared her wildcrafter philosophy of living on a planet in crisis. Powers, just back from a decade of international aid work, then accepted Benton's offer to stay at the cabin for a season while she traveled. There he befriended her eclectic neighbors: organic farmers, biofuel brewers, eco-developers, and discovered a sustainable but imperiled way of life. In these pages, Powers not only explores this small patch of community but draws on his international experiences with other pockets of resistance. This engrossing tale of Powers's struggle for a meaningful life with a smaller footprint proposes a paradigm shift to an elusive Soft World with clues to personal happiness and global healing.
