Kang,2016-08-30 This book is part of the ongoing debate about Paul s understanding of the relationship between his own mission and the church s While this study endorses some previous scholarship on Paul s silence about the church s proactive evangelism in his letters it argues that explanations for such silence cannot be adequately made from exegetical conclusions on related texts alone Rather this study suggests that constructing a plausible conception of mission as understood by Paul influenced by the impact of the Jesus tradition and Jewish restoration eschatology is essential for explaining Paul s thinking Dr Kang proposes that Paul s silence regarding congregational evangelism is due to his unique two pronged conception of mission one being the event of eschatological heralds the other being the event of eschatological community
