it developed publicly and as it played out privately including the personal relationships professional rivalries and larger than life personalities that drove it Providing a critical perspective on Freeman s arguments Shankman reviews key questions about Samoan sexuality the alleged hoaxing of Mead and the meaning of the controversy Why were Freeman s arguments so readily accepted by pundits outside the field of anthropology What did Samoans themselves think Can Mead s reputation be salvaged from the quicksand of controversy Written in an engaging clear style and based on a careful review of the evidence The Trashing of Margaret Mead illuminates questions of enduring significance to the academy and beyond 2010

Pacific Insular Case of American Sāmoa Line-Nowe Memea Kruse,2018-02-06 This book is a researched study of land issues in American S moa that analyzes the impact of U S colonialism and empire building in the nineteenth and twentieth centuries Carefully tracing changes in land laws up to the present this volume also draws on a careful examination of legal traditions administrative decisions court cases and rising tensions between indigenous customary land tenure practices in American S moa and Western notions of individual private ownership It also highlights how unusual the status of American S moa is in its relationship with the U S namely as the only unincorporated and unorganized overseas territory and aims to expand the U S empire building scholarship to include and recognize American S moa into the vernacular of Americanization projects *Study Mission to Eastern (American) Samoa; Report of Senators Oren E. Women Among Women Jeanette Dickerson-Putman,Judith K. Brown,1998 Cross cultural in nature the volume looks at relationships between women of different age groups in a village in Taiwan a town in central Sudan a rural setting in western Kenya an Andean peasant community a horticultural village in Melanesia and an Aboriginal community in Australia Adding an interspecies perspective is a study of two age groups of Japanese macaque monkeys Included is an ethnographic bibliography that lists books with a wealth of information on women in sixty societies Disease and Social Diversity Stephen J. Kunitz,1996 Public health specialists epidemiologists medical anthropologists sociologists and physicians are sure to gain insight from the theory and evidence presented in this well researched work *Adolescent Storm and Stress* James E. Cote,2013-06-17 In 1928 Margaret Mead published her first book entitled *Coming of Age in Samoa* in which she described to the Western world an exotic culture where people came of age with a minimum of storm and stress In 1983 Derek Freeman an Australian anthropologist published a book in which he systematically attacked Mead s conclusions about that

culture and the way people came of age Since then a great deal of attention has been directed toward the Mead Freeman controversy This book contributes to that controversy and to the general understanding of adolescent storm and stress by undertaking an interdisciplinary analysis of Freeman s criticisms and an assessment of the plausibility of Mead s work Addressing the issue of what has become of Mead s Samoa of the 1920s this book historically tracks the nature of the coming of age in Samoa to the present in order to give the reader an understanding of the circumstances confronting young people in contemporary Samoa It shows that Mead s Samoa has been lost what was once a place in which most young people came of age with relative ease has become a place where young people experience great difficulty in terms of finding a place in their society to the point where they currently have one of the highest suicide rates in the world While much has been written about this controversy during the past decade a gap exists in the sense that most of the publicity about Mead s work has missed her main focus concerning the processes governing the coming of age of her informants A valuable historical document and a pioneering study Mead s book anticipated changes that are still unfolding today in the field of human development The preoccupation with issues tangential to her main focus issues involving the Samoan ethos and character have not only diverted a clear analysis of Mead s work they have also led to the creation of a number of myths and misconceptions about Mead and her book The author also has an interest in Mead s original focus on the relative impact of biological and cultural influences in shaping the behavior of those coming of age in all societies Despite what has been said by her critics not only was this a crucial issue during the time of her study but it is also an issue that is now just beginning to be understood some 60 years later In addition the issue of biology versus culture the so called nature nurture debate carries with it many political implications In the case of the Mead Freeman controversy this political agenda looms large an agenda which is clearly spelled out in this book The Missionary Herald ,1897 Vols for 1828 1934 contain the Proceedings at large of the American Board of Commissioners for Foreign Missions The Missionary Herald at Home and Abroad ,1897
