Representations of China in Latin American Literature (1987-2016) Maria Montt Strabucchi,2023-11-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM Representations of China in Latin American Literature 1987 2016 analyses contemporary Latin American novels in which China is the main theme Using China as a multidimensional term it explores how the novels both

highlight and undermine assumptions about China that have shaped Latin America's understanding of China and shows China to be a kind of literary imaginary third term which reframes Latin American discourses of alterity. On one level it argues that these texts play with the way that China stands in as a wandering signifier and as a metonym for Asia, a gesture that essentialises it as an unchanging other. On another level it argues that the novels' employment of China resists essentialist constructions of identity. China is thus shown to be serving as a concept which allows for criticism of the construction of fetishized otherness and of the exclusion inherent in essentialist discourses of identity. The book presents and analyses the depiction of an imaginary of China which is arguably performative but which discloses the tropes and themes which may be both established and subverted in the novels. Chapter One examines the way in which China is represented and constructed in Latin American novels where this country is a setting for their stories. The novels studied in Chapter Two are linked to the presence of Chinese communities in Latin America. The final chapter examines novels whose main theme is travel to contemporary China. Ultimately in the novels studied in this book China serves as a concept through which essentialist notions of identity are critiqued.

Las grandes elegías y otros poemas Nicolás Guillén, 1984 **Routledge**
Handbook of the Chinese Diaspora Chee-Beng Tan, 2013-02-11 With around 40 million people worldwide the ethnic Chinese and the Chinese in diaspora form the largest diaspora in the world. The economic reform of China which began in the late 1970s marked a huge phase of migration from China and the new migrants, many of whom were well educated, have had a major impact on the local societies and on China. This is the first interdisciplinary Handbook to examine the Chinese diaspora and provides a comprehensive analysis of the processes and effects of Chinese migration under the headings of Population and distribution, Mainland China and Taiwan's policies on the Chinese overseas, Migration past and present, Economic and political involvement, Localization, transnational networks and identity, Education, literature and media. The Routledge Handbook of the Chinese Diaspora brings together a significant number of specialists from a number of diverse disciplines and covers the major areas of the study of Chinese overseas. This Handbook is therefore an important and valuable reference work for students, scholars and policy makers worldwide who wish to understand the global phenomena of Chinese migration, transnational connections and their cultural and identity transformation.

Ciento setenta poemas chinos Lucía Carro Marina, 1999-06-01 *La China, silenciosa y elocuente* Dora Mayer de Zulen, 1924 Los chinos perdidos de América Hugo Wong, 2025-03-17 Hugo Wong ha reconstruido la historia de su familia siguiendo los pasos de dos de sus antepasados que hace 150 años abandonaron China huyendo de la pobreza y aterrizaron en el Estados Unidos del siglo XIX, tierra de oportunidades pero que terminó expulsando a los chinos y los empujó a México donde ambos consiguieron amasar fortunas considerables siguiendo caminos muy diferentes. Este libro narra la turbulenta historia de los chinos en América del Norte y abarca un siglo de 1860 a 1960 marcado por convulsiones políticas y sociales sin precedentes: revoluciones, guerras civiles y pandemias mundiales. Las relaciones entre China y Occidente han estado dominadas por malentendidos políticos.

Locane,Benjamin Loy,2018-03-05 How can we talk about World Literature if we do not actually examine the world as a whole Research on World Literature commonly focuses on the dynamics of a western center and a southern periphery ignoring the fact that numerous literary relationships exist beyond these established constellations of thinking and reading within the Global South Re Mapping World Literature suggests a different approach that aims to investigate new navigational tools that

extend beyond the known poles and meridians of current literary maps Using the example of Latin American literatures this study provides innovative insights into the literary modeling of shared historical experiences epistemological crosscurrents and book market processes within the Global South which thus far have received scant attention The contributions to this volume from renowned scholars in the fields of World and Latin American literatures assess travelling aesthetics and genres processes of translation and circulation of literary works as well as the complex epistemological entanglements and shared worldviews between Latin America Africa and Asia A timely book that embraces highly innovative perspectives it will be a must read for all scholars involved in the field of the global dimensions of literature

Orientalism and Identity in Latin America Erik Camayd-Freixas, 2013-03-14 Building on the pioneering work of Edward Said in fresh and useful ways contributors to this volume consider both historical contacts and literary influences in the formation of Latin American constructs of the Orient and the Self from colonial times to the present In the process they unveil wide ranging manifestations of Orientalism Contributors scrutinize the other great encounter not with Europeans but with Arabic Chinese and Japanese cultures as they marked Latin American societies from Mexico Central America and the Caribbean to Peru Argentina and Brazil The perspectives experiences and theories presented in these examples offer a comprehensive framework for understanding wide ranging manifestations of Orientalism in Latin America and elsewhere in the developing world Orientalism and Identity in Latin America expands current theoretical frameworks juxtaposing historical biographical and literary depictions of Middle Eastern and Asian migrations both of people and cultural elements as they have been received perceived refashioned and integrated into Latin American discourses of identity and difference Underlying this intercultural dialogue is the hypothesis that the discourse of Orientalism and the process of Orientalization apply equally to Near Eastern and Far Eastern subjects as well as to immigrants regardless of provenance and indeed to any individual or group who might be construed as Other by a particular dominant culture

The Object of the Atlantic Rachel Price, 2014-11-30 The Object of the Atlantic is a wide ranging study of the transition from a concern with sovereignty to a concern with things in Iberian Atlantic literature and art produced between 1868 and 1968 Rachel Price uncovers the surprising ways that concrete aesthetics from Cuba Brazil and Spain drew not only on global forms of constructivism but also on a history of empire slavery and media technologies from the Atlantic world Analyzing Jose Marti s notebooks Joaquim de Sousa Andrade s poetry Ramiro de Maeztu s essays on things and on slavery 1920s Cuban literature on economic restructuring Ferreira Gullar s theory of the non object and neoconcrete art Price shows that the turn to objects and from these to new media networks was rooted in the very philosophies of history that helped form the Atlantic world itself
