

Governmental Reform

- Edgar issued a new law code recognising the complexities of his multicultural realm and specifically applying equality to all: 'The measure is to be common to all men of the nation, whether Englishmen Danes or Britons, in the very province of my dominion, to the end that poor and rich men may possess what they rightly acquire'.
- Significantly it allowed the Danes to practise their own legal traditions. It would form the basis of law up to and beyond the conquest of 1066.
- The Cerdicynn education programme had by Edgar's reign resulted in a surge in literate clerks as shown by the efficient and uniform language of his charters in contrast to the florid unpredictability of Athelstan's.
- Edgar's government also produced the first nationally standardised currency, the 'reform small cross' penny made using state issued mints ensuring uniformity of currency (providing there was no debasement) boosting trade and inhibiting inflation.

Public Service and Good Governance for the Twenty-First Century James L. Perry, 2020-05-01 Expert analysis of American governance challenges and recommendations for reform Two big ideas serve as the catalyst for the essays collected in this book The first is the state of governance in the United States which Americans variously perceive as broken frustrating and unresponsive Editor James Perry observes in his Introduction that this perception is rooted in three simultaneous developments government's failure to perform basic tasks that once were taken for granted an accelerating pace of change that quickly makes past standards of performance antiquated and a dearth of intellectual capital that generate the capacity to bridge the gulf between

expectations and performance The second idea hearkens back to the Progressive era when Americans revealed themselves to be committed to better administration of their government at all levels federal state and local These two ideas the diminishing capacity for effective governance and Americans expectations for reform are veering in opposite directions Contributors to Public Service and Good Governance for the Twenty First Century explore these central ideas by addressing such questions as what is the state of government today Can future disruptions of governance and public service be anticipated What forms of government will emerge from the past and what institutions and structures will be needed to meet future challenges And lastly and perhaps most importantly what knowledge skills and abilities will need to be fostered for tomorrow s civil servants to lead and execute effectively Public Service and Good Governance for the Twenty First Century offers recommendations for bending the trajectories of governance capacity and reform expectations toward convergence including reversing the trend of administrative disinvestment developing talent for public leadership through higher education creating a federal civil service to meet future needs and rebuilding bipartisanship so that the sweeping changes needed to restore good government become possible Contributors Sheila Bair William W Bradley John J DiIulio Jr Angela Evans Francis Fukuyama Donald F Kettl Ramayya Krishnan Paul C Light Shelley Metzenbaum Norman J Ornstein James L Perry Norma M Riccucci Paul R Verkuil Paul A Volcker

Prophecy and Politics in the Early Carolingian World

Andrew Sorber,2024-04-16 Prophetic and apocalyptic rhetoric play critical roles in the development and articulation of political authority in the reigns of Charlemagne d 814 and Louis the Pious d 840 The rhetorical authority derived from claims of receiving revelation interpreting divine communication speaking for God and foreseeing calamities became a competitive medium through which individuals legitimized political behaviour debated their long and short term aspirations and struggled for political supremacy Ranging from claims of revelations dreams and visions to the adoption of rhetorical voices based on biblical prophets to the interpretation of signs and portents prophetic rhetoric enjoyed extensive experimentation and varied application throughout early medieval political discourse Prophecy and Politics in the Early Carolingian World argues that claims of divine revelation resistant to any attempts to monopolize them provided a powerful means of speaking with authority for all participants in Frankish political discourse This authority proved instrumental in the articulation and dismantling of effective Carolingian royal authority from 768 to 840 The volume introduces and reinterprets early Carolingian political discourse and intellectual activity as well as the centrality of apocalypticism in the Carolingian period by emphasizing prophecy or revelation and authority rather than prediction and calamity Early Carolingian political discourse was a dialogue that took place across royal proclamations legal statements historical texts visions scriptural commentaries and manifestations of the natural world and in this dialogue the ability to interpret God s will was as powerful as it was problematic
