Why People Stop Believing Paul Chamberlain, 2018-01-12 This book addresses a growing need in apologetic literature It is a response to the growing wave of Christian leaders who are rejecting Christianity and becoming some of its most ardent critics often supported by a plethora of new organizations arising to encourage such people to cut ties to their faith This is a new challenge from a different breed of critics who are using their instant credibility and insider's knowledge of theology the Bible church history even apologetics to debunk the faith they once believed and promoted They have taken aim at the foundations of Christianity including God the Scriptures miracles and the supernatural and Christianity's perceived inherent prohibition on free enquiry Readers will be introduced to arguments against Christianity by these critics which they claim compelled them to leave followed by responses that use examples questions and nontechnical language to make the reasoning accessible Every issue addressed has been raised by a former Christian leader and special attention has been paid to their precise formulations The book makes the case that however convincing the critics arguments may appear at first glance further analysis reveals them to be weaker than they appear and in many cases entirely unpersuasive **The**

Modern Schoolman, 1971 **Modernity, Civilization and the Return to History** Anthony F. Shaker, 2020-10-06 The modern concept and study of civilization have their roots not in western Europe but in the spirit of scientific investigation associated with a self-conscious Islamicate civilization What we call modernity cannot be fathomed without this historical connection We owe every major branch of science known today to the broad tradition of systematic inquiry that belongs to a region of being as Heidegger would say whose theoretical practical and institutional dimensions the philosophy of that civilization played an unprecedented role in creating This book focuses primarily on the philosophical underpinnings of questions relating to civilization personhood and identity Contemporary society and thinking in western Europe introduced new elements to these questions that have altered how collective and personal identities are conceived and experienced In the age of globalization expressions of identity individual social and cultural survive precariously outside their former boundaries just when humanity faces perhaps its greatest challenges environmental degradation policy inertia interstate bellicosity and a growing culture of tribalism Yet the world has been globalized for at least a millennium a fact dimmed by the threadbare but still widespread belief that modernity is a product of something called the West One is thus justified in asking as many people do today if humanity has not lost its initiative This is more a philosophical than an empirical question There can be no initiative without the human agency that flows from identity and personhood i.e. the way we the acting subject live and deliberate about our affairs Given the heavy scrutiny under which the modern concept of identity has come Dr Shaker has dug deeper bringing to bear a wealth of original sources from both German thought and Islamicate philosophy the latter based on material previously unavailable to scholars Posing the age-old question of identity anew in the

light of these two traditions whose special historical roles are assured may help clear the confusion surrounding modernity and hopefully our place in human civilization Proximity to Scholasticism and therefore Islamicate philosophy lent German thought up to Heidegger a unique ability to dialogue with other thought traditions Two fecund elements common to Heidegger Q naw and Mull adr are of special importance Logos utterance speech as the structural embodiment at once of the primary meaning essential reality of a thing and of divine manifestation and the idea of unity in difference which adr finally formulated as the substantial movement of existence But behind this complexity is the abiding question of who Man is which cannot be answered by theory alone Heidegger who occupies a good portion of this study questioned the modern ontology at a time of social collapse and deep spiritual crisis not unlike ours Yet that period also saw the greatest breakthroughs in modern physics and social science The concluding chapters take up more specifically identity renewal in Western literature and Muslim reformism The renewal theme reflects a point of convergence between the Eurocentric worldview in which modernism has its secular aesthetics roots and a current originating in Ibn Taymiyyah s reductionist epistemology and skeptical fundamentalism It expresses a hopeless longing for origin in a historically pristine golden age an obvious deformation of philosophy s millennial concern with the commanding creative oneness of the Being of beings

Does God Exist? J. P. Moreland, Kai Nielsen, 2009-12-02 Is there a God What is the evidence for belief in such a being What is God like Or is God a figment of human inspiration How do we know that such a being might not exist Should belief or disbelief in God s existence make a difference in our opinions and moral choices in the way we see ourselves and relate to those around us These are fundamental questions and their answers have shaped individual lives races and nations throughout history On March 24 1988 at the University of Mississippi J P Moreland a leading Christian philosopher and ethicist and Kai Nielsen one of today s best known atheist philosophers went head to head over these questions Does God Exist records their entire lively debate and includes questions from the audience the debaters answers and the responses of four recognized scholars William Lane Craig Antony Flew Dallas Willard and Keith Parsons Noted author and philosopher Peter Kreeft has written an introduction concluding chapter and appendix all designed to help readers decide for themselves whether God is fact or fantasy

Why be Moral? John Frederick Van Ingen, 1994 Simplistic accounts of egoism have encouraged incomplete and superficial answers to the question Why should I be moral This work defends an interpretation of the question as a genuine and fundamental question of practical importance Detailed description of the egoist s planning language use and reason giving provide a strongest case analysis of the amoral egoistic option in the spirit of Plato s account of the perfectly unjust man The framework for an answer is offered which draws out key theoretical assumptions and practical consequences of an egoistic system whose potential adaptability has been consistently underestimated

Philosophical Anthropology Luigi Bogliolo, 1984 **The Court of Reason** Beatrix Himmelmann, Camilla Serck-Hanssen, 2021-11-08 The Proceedings present the contributions to the 13th International Kant Congress which was

held at the University of Oslo August 6-9, 2019. The congress, which hosted speakers from more than thirty countries and five continents, was dedicated to the topic of the court of reason. The idea that reason stands before itself as a tribunal characterizes the whole of Kant's critical project. Without such a court, reason falls into conflict with itself. With such a court in place, however, it may succeed in establishing the possibility and limits of metaphysics, ethics, aesthetics, law, and science. The idea of reason being its own judge is not only pivotal to a proper understanding of Kant's philosophy but can also shed light on the burgeoning fields of meta-philosophy and philosophical methodology. The 2019 Kant Congress put special emphasis on Kant's methodology, his account of conceptual critique, and the relevance of his ideas to current issues in especially political philosophy and the philosophy of law. Additional sections discussed a wide range of topics in Kant's philosophy. The Proceedings will provide anyone who is interested in exploring the variety of present-day work on Kant and Kantian themes with a wealth of fruitful inspiration.

American Book Publishing Record, 1997-09. *John Dewey and the Challenge of Classroom Practice*. Stephen M. Fishman, Lucille Parkinson McCarthy, 1998. The first systematic exploration of Deweyan pedagogy in an actual classroom since studies of Dewey's own Laboratory School at the turn of the century. In Part I, using accessible language, Stephen Fishman discusses Dewey's educational theory in the context of Dewey's ideology and process philosophy. In Part II, Fishman joins composition specialist Lucille McCarthy to examine his own Introduction to Philosophy class. In doing so, the authors model a collaborative form of practitioner inquiry and bring to life such complex Deweyan concepts as student curriculum, integration, interest, and effort, and continuity and interaction.

Reason's Inquisition. Christopher A. Colmo, 2023-08-29. *Reasons Inquisition: On Doubtful Ground* is an exploration in the literature of political philosophy before and after Alfarabi and ranging from Thucydides to Leo Strauss and Eric Voegelin. These studies, most of them previously unpublished, open inquiries into theory and practice, reason and revelation, and the relation between thinkers ancient and modern. Readers may be surprised to see the Platonist Alfarabi presented as a critic of Plato's theory in the name of practice, while Alfarabi and Hobbes are shown to have a common interest in a theory commensurate with action. Strauss, Voegelin, and Lucien Febvre all explore the problem of reason and revelation in relation to the limits of human knowledge. An ambitious study of Shakespeare's *Macbeth* explores the ambiguity of both nature and knowledge in relation to male and female, good and evil, present and future. The contrast between ancients and moderns is explicit in questions of the modern aspects of Marlowe's *Doctor Faustus* and of Rousseau's reversal of Plato. Kierkegaard and Heidegger bring radical modernity into focus against a Platonic background. In the closing essay, These diverse essays attempt to follow the thinkers and themes explored in turning a critical gaze upon reason itself.
