scholars in various fields Catholic Moral Theology in the United States Charles E. Curran, 2008-04-11 In this magisterial volume Charles E. Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day. He begins by tracing the development of pre-Vatican II moral theology that, with the exception of social ethics, had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness. Curran then explores and illuminates the post-Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology, the impact of *Humanae vitae*, Pope Paul VI's encyclical condemning artificial contraception, fundamental moral theology, sexuality and marriage, bioethics and social ethics. Curran's perspective is unique. For nearly 50 years, he has been a major influence on the development of the field and has witnessed first-hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church. No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States **Ethics and Spirituality**

Charles E. Curran, 2014 This volume compiles writings by leading moral theologians and ethicists on an important emerging topic in the field of ethics. As spirituality asserts its broad humanistic interdisciplinarity and moral theology emerges from its fixation on sin to address broader questions of human formation and Christian discipleship, the need for the two disciplines to be in dialogue is clear **Greater Good** Garth L. Hallett, 1995-09-01 Garth L. Hallett provides the first thorough systematic exposition and defense of proportionalism in Christian ethics. Prominent in both philosophical and theological ethics, proportionalism judges the morality of acts by their proportion of good and evil. Hallett proposes judging acts using a norm he calls Value Maximization. He defines this norm and offers a full response to such critics of all forms of proportionalism as

Finnis and Grisez. The author assesses the norm's moral and theological validity in and of itself in dialogue with the encyclical *Veritatis Splendor* and in comparison with various rival viewpoints stressing natural law, divine commands, respect for persons, inviolable goods, proportionate ends, irreducible rights, and agent-centered ethics. He appraises the norm's overall significance, showing its rootedness in Christian tradition, its inclusiveness and amplitude, and its relevance to those seeking a foundation for Christian ethical thought and moral activity *Journal of Moral Theology, Volume 8, Issue 2* David M.

A.C. Grayling, 2011-07-21 A C Grayling answers the most important question How do we live a good life One of the most fundamental questions in our life is to find out what we value what principles we want to live by and which codes we will use to guide our behaviour Most of us want to live a good life But what in today s secular society does good actually mean To classical Greeks the acquisition of knowledge the enjoyment of the senses creativity and beauty were all aspects of life to strive for Then came the volcanic declarations of St Paul and his fundamentalist ideas on sin and human nature In WHAT IS GOOD A C Grayling examines these and other proposals on how to live a good life from the heroic ideals of the Greek poets to Kant s theories on freedom and the UN Declaration on Human Rights **Taking Faith Seriously** Mary Jo. Bane, Brent. Coffin, Richard Higgins, 2009-06-30 Whether simply uneasy or downright hostile the relation between religion and liberal democracy in this country has long been vexed and complex and crucial to what America is and aspires to be Amid increasingly contentious exchanges over fundamentalism abortion rights secularism and pluralism this book reminds us of the critical role that religion plays in the health and well being of a democracy Attentiveness to Vulnerability Daniel J. Fleming, 2019-04-24 This book is an attempt to develop a dialogue between the philosophy of Emmanuel Levinas Jean Porter s Thomistic theory of the natural law and the virtue of solidarity as expressed in Catholic Social Teaching It seeks to explore the implications that such a dialogue would have for our understanding of moral reasoning Attentiveness to Vulnerability rests on the hypothesis that it is possible to develop a set of robust links between these thinkers and bodies of thought markedly different as they are in terms of philosophical disposition and framework Such links specify the ethical implications of Levinas thought and develop Porter s theory in an original way This work requires further specification through a developed anthropology which allows for expansion within the tradition of Catholic theological ethics The inclusion of Levinas and a focus on the virtue of solidarity allows for an advancement of virtue theory and theological ethics to the extent that the virtue of solidarity becomes a key aspect of any ethical reasoning Voting and Holiness Nicholas P. Cafardi, 2012 A collection of essays by noted Catholic scholars on how

Catholics should participate in the political process **From What We Should Do to Who We Should Be** Benedict Chidi Nwachukwu-Udaku, 2011-08-05 HIV AIDS constitutes a global problem A good number of scholars from different nationalities multiple rationalities religious sensibilities theological intelligibilities and ethical cultural and ecclesiastical backgrounds have affirmed that this worldwide quagmire constitutes a global health problem and social malady which does not have a well defined geographically limited spread The global nature of HIV AIDS as seen in the statistics does not however undermine the fact that the effects of this sickness are not felt proportionally from one nation to another This book proposes to situate the local as a veritable site of empowerment for communities dealing with HIV AIDS as it is the case with the African continent The author of this book over and above the way the problem of HIV AIDS has been constructed projected and reviewed decided to situate this epidemic of the 20th Century within the socio cultural and political context of the Nigerian nation with particular reference to the Igbo people The task of contextualizing this problem reveal the identity of the author as an Igbo and as a theologian who engages the indigenous ethical principles unsophisticated traditional wisdom cultural and religious values of his people in offering solutions that resonate the cultural identity of his people in dialogue with modern and post modern constructs Primary Source Readings in Christian Morality Thaddeus Ostrowski, Robert J. Smith, 2008 Primary Source Readings in Christian Morality presents the living words of the Catholic Church and the wisdom of everyday people addressing the moral issues that impact our lives One goal of Primary Source Readings in Christian Morality is to help students realize the connection between behavior and character Additionally the hope is that students will uncover that the road to authentic happiness and joy involves working on their relationship with God Within this book you will find writings from Pope Benedict XVI The Second Vatican Council Richard Gula SS Pope Paul VI Ronald Rohlheiser Erich Maria Remarque Pope John Paul II The United States Conference of Catholic Bishops A Christian Education in the Virtues James Arthur, 2021-06-24 A Christian Education in the Virtues examines the connection between human nature and human flourishing It draws on ancient and medieval sources to explore the formation of the person based on a Christian anthropology emphasising the communal nature of the virtuous life and provides a richer approach to the question of contemporary character education The book argues that the only way to understand and construct our character virtues is to have a clear picture of what is the purpose and meaning of human life It highlights the importance of engaging with moral issues and makes the case that for Christian educators human flourishing is inseparable from God's active relationship to human beings The book also explores a teleological approach to character education goals To educate the whole person in the light of an all embracing Christian worldview is challenged by secular and liberal ideology and is often seen as irrational to the modern mind Overall the text seeks to demonstrate that many aspects of a Neo Aristotelian Thomist theoretical underpinning for Christian character education holds out a viable option for Christians It therefore argues the case for the educational potential of Christian character education This important book will be essential reading for academics
