*Psychology* Robert J. Sternberg, 2001 In this book Robert J Sternberg a highly respected expert in psychology and intelligence gives students a comprehensive introduction to psychology while emphasizing the development of their critical creative and practical thinking Throughout the text students are asked to think critically creatively and practically when considering topics     Subject Guide to Books in Print ,1991     *Forthcoming Books* Rose Arny, 1994-02     **Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004     Evil Twins John Glatt, 1999-05-15 They give a whole new meaning to the phrase Dead Ringers Identical twins with the exact same genetic information are a fascinating study in human behavior It is a known fact that when separated at birth they will often end up with very similar lives without ever having met one another So it seems to follow that if one twin turns out to be a bad seed the other will also go to the dark side the shocking stories in *Evil Twins* prove this to be the case time and time again And even more astounding are stories of twins turning upon each other in furious rivalries that may date back to the womb Here is just a sampling of the compelling true stories about evil twins Sins of the mothers Harvard educated chemical engineer Jane Hopkins stabbed her two young children to death before killing herself six years after her twin sister Jean had tried to poison her own two children My brother's killer Identical twins Jeff and Greg Henry were close as brothers could be inventing their own language and often exchanging identities But they grew up to become violent alcoholics and on one fateful binge Jeff turned on his own twin brother and shot him in the heart with a shotgun Loathsome Lotharios Handsome charming twin brothers George and Stefan Spitzer went to Hollywood to become famous actors But their movie star good looks never landed them any parts except in the lurid home movies they shot of themselves raping the unconscious women they doped up on Roofies Evil twins Double the deadliness with eight pages of shocking photos     *Mother Jones Magazine* ,1990-01 *Mother Jones* is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues     Esquire ,1979     *A Companion to Crime Fiction* Charles J. Rzepka, Lee Horsley, 2020-07-13 *A Companion to Crime Fiction* presents the definitive guide to this popular genre from its origins in the eighteenth century to the present day A collection of forty seven newly commissioned essays from a team of leading scholars across the globe make this *Companion* the definitive guide to crime fiction Follows the development of the genre from its origins in the eighteenth century through to its phenomenal present day popularity Features full length critical essays on the most significant authors and film makers from Arthur Conan Doyle and Dashiell Hammett to Alfred Hitchcock and Martin Scorsese exploring the ways in which they have shaped and influenced the field Includes extensive references to the most up to date scholarship and a comprehensive bibliography     **Romantic Prose Fiction** Gerald Gillespie, Manfred Engel, Bernard Dieterle, 2008-02-14 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically

Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization

The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents

Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams

Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd

Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments

Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more

Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World

This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations

As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix

No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age
