Reasons For Believing:

50 Reasons People Give for Believing in a God Guy P. Harrison, 2009-09-18 Many books that challenge religious belief from a skeptical point of view take a combative tone that is almost guaranteed to alienate believers or they present complex philosophical or scientific arguments that fail to reach the average reader This is undoubtedly an ineffective way of encouraging people to develop critical thinking about religion This unique approach to skepticism presents fifty commonly heard reasons people often give for believing in a God and then raises legitimate questions regarding these reasons showing in each case that there is much room for doubt Whether you're a believer a complete skeptic or somewhere in between you'll find this review of traditional and more recent arguments for the existence of God refreshing approachable and enlightening From religion as the foundation of morality to the authority of sacred books the compelling religious testimony of influential people near death experiences arguments from Intelligent Design and much more Harrison respectfully describes each rationale for belief and then politely shows the deficiencies that any good skeptic would point out As a journalist who has traveled widely and interviewed many highly accomplished people quite a number of whom are believers the author appreciates the variety of belief and the ways in which people seek to make religion compatible with scientific thought Nonetheless he shows that despite the prevalence of belief in God or religious belief in intelligent people in the end there are no unassailable reasons for believing in a God For skeptics looking for appealing ways to approach their believing friends or believers who are not afraid to consider a skeptical challenge this book makes for very stimulating reading Reasons for Belief Norman L. Geisler, Patty Tunncliffe, 2013-02-15 Trusted Theologian Presents a Case for Christian Faith in Easy to Understand Language Seminary professor and bestselling author teams with a seminary trained apologist and teacher to give readers basic solid evidence for the Christian faith This book is ideal for both teens and adults Lay leaders and teachers as well as students will be equipped to explain the basics of Christianity to unbelievers and new believers The accessible and topically organized book is easy to understand and use *Reasons for Believing* Frank Harber, 1998-04 In this concise guide to questions about the Christian faith from Frank Harber a dynamic young evangelist readers acquire a handy resource for witnessing or for personal faith building and receive some answers about God's love in an evil world 192 pp **Reasons for Belief** John M. Oakes, 2005-06-01 This book is intended to provide a basis in fact for belief in the Bible as the inspired Work of God It will be helpful both for those who are coming to faith in God for the first time and for those who already believe but who want their faith deepened In this book most of the major questions asked by those who are skeptical of the Christian faith are addressed Why should I follow Jesus and not another of the world's major religious leaders Where do miracles fit in and can we really believe in miracles How can I be sure the events of the Bible records are true And what about the Bible itself Who wrote it and from where did they get their authority Is their message consistent and reliable What about the scientific accuracy of the Bible *Reasons for Belief* addresses these and other questions in a way that is easy to understand

Book Cover **Reasons to Believe** Scott Hahn, 2007-05-08 This book unravels mysteries corrects misunderstandings and offers thoughtful straightforward responses to common objections about the Catholic faith Bestselling author Scott Hahn a convert to Catholicism has experienced the doubts that so often drive discussions about God and the Church In the years before his conversion he was first a nonbeliever and then an anti Catholic clergyman In REASONS TO BELIEVE he explains the how and why of the Catholic faith drawing from Scripture his own struggles and those of other converts as well as from everyday life and even natural science Hahn shows that reason and revelation nature and the supernatural are not opposed to one another rather they offer complementary evidence that God exists But He doesn't merely exist He is someone and He has a personality a personal style that is discernible and knowable Hahn leads readers to see that God created the universe with a purpose and a form a form that can be found in the Book of Genesis and that is there when we view the natural world through a microscope through a telescope or through our contact lenses At the heart of the book is Hahn's examination of the ten keys to the kingdom the characteristics of the Church clearly evident in the Scriptures As the story of creation discloses the world is a house that has a Father a palace where the king is really present God created the cosmos to be a kingdom and that kingdom is the universal Church fully revealed by Jesus Christ **One Hundred and Fifty Reasons for Believing in the Final Salvation of All Mankind** Erasmus Manford, 1849 **7 Reasons To Believe** Kevin Simington, 2020-10-24 7 Reasons To Believe is a clear powerful presentation of the seven most persuasive arguments for the existence of God and the truth of the Christian faith Compelling evidence is examined from the fields of microbiology genetics cosmology history and personal experience Peppered with wit and brimming with meticulously researched facts this book will challenge even the most hardened sceptics and will strengthen the faith of those who already believe **101 Good Reasons to Believe** James D. Sideras, 2018-01-04 This book presents a strong case for the Christian faith by using scientific evidence and philosophical reasoning Although an abundance of Christian apologetic textbooks exist most are not easily accessible because they offer long and scholarly treatments of subject matter that may not appeal to lay readers This book differs in two ways First it presents the case for Christianity in a friendly scholarly prose which enables readers to plainly understand each reason to believe Second these reasons are concisely structured so that within minutes readers can quickly examine each argument in light of the evidence presented 101 Good Reasons to Believe is essential reading for theists who wish to strengthen their faith in God and for nontheists who desire to critically investigate the truth claims of the Bible This book includes topics such as astronomical evidence for the existence of God evidence for creation and intelligent design refutation of Darwinian evolution the historicity of Jesus why there is human suffering if God exists the accuracy of the Bible and evidence for heaven and hell The 101 reasons presented make thought provoking and compelling reading for scholars and non scholars alike **Reasons for Believing in Christianity** Charles Adolphus Row, 1885 **Existential Reasons for Belief in God** Clifford Williams, 2011-02-23 In this book philosopher Clifford Williams argues that needs desires and

The Importance of Being Rational Errol Lord,2018-05-24 The Importance of Being Rational systematically defends a novel reasons based account of rationality The book s central thesis is that what it is for one to be rational is to correctly respond to

the normative reasons one possesses Errol Lord defends novel views about what it is to possess reasons and what it is to correctly respond to reasons He shows that these views not only help to support the book's main thesis they also help to resolve several important problems that are independent of rationality The account of possession provides novel contributions to debates about what determines what we ought to do and the account of correctly responding to reasons provides novel contributions to debates about causal theories of reacting for reasons After defending views about possession and correctly responding Lord shows that the account of rationality can solve two difficult problems about rationality The first is the New Evil Demon problem The book argues that the account has the resources to show that internal duplicates necessarily have the same rational status The second problem concerns the deontic significance of rationality Recently it has been doubted whether we ought to be rational The ultimate conclusion of the book is that the requirements of rationality are the requirements that we ultimately ought to comply with If this is right then rationality is of fundamental importance to our deliberative lives

The Ethics of Belief Jonathan Matheson, Rico Vitz, 2014 How do people form beliefs and how should they do so This book presents seventeen new essays on these questions drawing together perspectives from philosophy and psychology The first section explores the ethics of belief from an individualistic framework It begins by examining the question of doxastic voluntarism i e the extent to which people have control over their beliefs It then shifts to focusing on the kinds of character that epistemic agents should cultivate what their epistemic ends ought to be and the way in which these issues are related to other traditional questions in epistemology The section concludes by examining questions of epistemic value of whether knowledge is in some sense primary and of whether the ethics of belief falls within the domain of epistemology or ethics The second section extends this traditional debate to issues concerning the social dimensions of belief formation It begins with essays by social psychologists discussing the past three decades of research in lay epistemics It continues by examining Humean Kantian and feminist insights into the social aspects of belief formation as well as questions concerning the ethics of assertion The section concludes with a series of essays examining a topic that is currently of great interest to epistemologists namely the significance of peer disagreement
