Explaining Post-Conflict Reconstruction
Desha Girod, 2015-02-02 The international community has donated nearly one trillion dollars during the last four decades to reconstruct post conflict countries Where did the money go This book argues that foreign aid only fosters reconstruction when post conflict leaders are desperate for income and thus depend on aid that comes with reconstruction strings attached

Guerrilla Veterans in Post-war Zimbabwe Norma J. Kriger, 2003-05-29 Zimbabwe s guerrilla veterans have burst into the international media as the storm troopers in Mugabe s new war of economic liberation In this book Norma Kriger gives the unfolding contemporary drama a historical background and shows continuities between the present and past Between 1980 and 1987 guerrilla veterans and the ruling party colluded with and manipulated each other to build power and privilege in the army police bureaucracy and among workers Both relied chiefly on violence and appeals to their participation in the anti colonial liberation war as they sought to vanquish their then political opponents Today violence and a liberation war discourse continue to be salient as Mugabe s party and its guerrilla veterans struggle to maintain power through land invasions and purges of a new political opposition This study gives a critical review of guerrilla programs and the war to peace transitions literatures thus changing the way we view post conflict societies

At War's End Roland Paris, 2004-05-24 All fourteen major peacebuilding missions launched between 1989 and 1999 shared a common strategy for consolidating peace after internal conflicts immediate democratization and marketization Transforming war shattered states into market democracies is basically sound but pushing this process too quickly can have damaging and destabilizing effects The process of liberalization is inherently tumultuous and can undermine the prospects for stable peace A more sensible approach to post conflict peacebuilding would seek first to establish a system of domestic institutions that are capable of managing the destabilizing effects of democratization and marketization within peaceful bounds and only then phase in political and economic reforms slowly as conditions warrant Peacebuilders should establish the foundations of effective governmental institutions prior to launching wholesale liberalization programs Avoiding the problems that marred many peacebuilding operations in the 1990s will require longer lasting and ultimately more intrusive forms of intervention in the domestic affairs of these states This book was first published in 2004

Reconciling Indonesia Birgit Bräuchler, 2009-09-10 Indonesia has been torn by massive internal conflicts over the last decade The absence of functioning national tools of reconciliation and the often limited success of an internationally established reconciliation toolkit of truth commissions and law enforcement justice and human rights forgiveness and amnesty requires us to interrogate commonly held notions of reconciliation and transitional justice Reconciling Indonesia fills two major gaps in the literature on Indonesia and peace and conflict studies more generally the neglect of grassroots agency for peace and the often overlooked collective

and cultural dimension of reconciliation Bringing together scholars from all over the world this volume draws upon multi disciplinary theoretical perspectives extensive fieldwork and activists experience and explores the ways in which reconciliation connects with issues like civil society gender religion tradition culture education history displacement and performance It covers different areas of Indonesia from Aceh in the West to the Moluccas in the East and deals with a broad variety of conflicts and violence such as communal violence terrorist attacks secessionist conflicts localized small scale conflicts and the mass violence of 1965 66 Reconciling Indonesia offers new understandings of grassroots or bottom up reconciliation approaches and thus goes beyond prevalent political and legal approaches to reconciliation Reconciling Indonesia is important reading for scholars activists and anyone interested in current developments in Indonesia and the broader region and in new approaches to peace and conflict research

European Security Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle

disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it Conflict, Security and Development Paul Jackson, Danielle Beswick, 2014-11-07 This textbook draws on academic theory field research and policy developments to provide an overview of the connections between security and development before during and after conflict This 2nd edition is revised and updated to take account of changes that have occurred in both policy and academic arenas which are relevant to students and practitioners in this area In an interdependent world it is often argued that the challenges of underdevelopment and insecurity have global implications This textbook charts an accessible course through these complex debates providing a comprehensive introduction for those encountering these issues for the first time The main aims of the revised edition are to set out how thinking on conflict security and development has changed over time and continues to evolve to explore the consequences of these changes particularly for the theory and practice of development and security promotion to introduce a range of case studies from across the globe in order to explore the implications of a combined approach to security and development The authors are experienced in both the theory and the practice of this field and illustrate the links between conflict security and development with practical examples drawing on key case studies from the past twenty years Each chapter is informed by student pedagogy and the book will be essential reading for all students of development studies war and conflict studies and human security and is recommended for students of international security and IR in general **The Responsibility to Protect** International Commission on Intervention and State Sovereignty, International Development Research Centre (Canada), 2001 Responsibility to Protect Research bibliography background Supplementary volume to the Report of the International Commission on Intervention and State Sovereignty Advances in Military Sociology Giuseppe Caforio, 2009-12-01 A selection of the papers presented at RC01 s international conference in Seoul July 2008 It offers an overview of the panorama of social studies on armed forces and conflict resolution in a context of fast moving change It presents studies that move beyond the very concept of globalization Conflict, Security and Development Danielle Beswick, Paul Jackson, 2013-06-17 This textbook draws on academic theory field research and policy developments to provide an overview of the connections between security and development before during and after conflict *Elgar Handbook of Civil War and Fragile States* Graham K. Reconciliation, Justice, and Coexistence Mohammed Abu-Nimer, 2001-01-01. Since the end of the Cold War, several political agreements have been signed in attempts to resolve longstanding conflicts in such volatile regions as Northern Ireland, Israel, Palestine, South Africa and Rwanda. This is the first comprehensive volume that examines reconciliation, justice and coexistence in the post-settlement context from the levels of both theory and practice. Mohammed Abu-Nimer has brought together scholars and practitioners who discuss questions such as: Do truth commissions work? What are the necessary conditions for reconciliation? Can political agreements bring reconciliation? How can indigenous approaches be utilized in the process of reconciliation? In addition to enhancing the developing field of peacebuilding by engaging new research questions, this book will give lessons and insights to policy makers and anyone interested in post-settlement issues.

The Credibility Challenge Inken von Borzyskowski, 2019-06-15 The key to the impact of international election support is credibility credible elections are less likely to turn violent So argues Inken von Borzyskowski in The Credibility Challenge in which she provides an explanation of why and when election support can increase or reduce violence Von Borzyskowski answers four major questions Under what circumstances can election support influence election violence How can election support shape the incentives of domestic actors to engage in or abstain from violence Does support help reduce violence or increase it And which type of support observation or technical assistance is better in each instance The Credibility Challenge pulls broad quantitative evidence and qualitative observations from Guyana Liberia Kenya Sierra Leone and Bangladesh to respond to these questions Von Borzyskowski finds that international democracy aid matters for election credibility and violence outside observers can exacerbate postelection violence if they cast doubt on election credibility and technical assistance helps build electoral institutions improves election credibility and reduces violence Her results advance research and policy on peacebuilding and democracy promotion in new and surprising ways

Warlord Democrats in Africa Anders Themnér, 2017-04-15 Post war democratization has been identified as a crucial mechanism to build peace in war ridden societies supposedly allowing belligerents to compete through ballots rather than

bullets A byproduct of this process however is that military leaders often become an integral part of the new democratic system using resources and networks generated from the previous war to dominate the emerging political landscape The crucial and thus far overlooked question to be addressed therefore is what effect the inclusion of ex militaries into electoral politics has on post war security Can warlord democrats make a positive contribution by shepherding their wartime constituencies to support the building of peace and democracy or are they likely to use their electoral platforms to sponsor political violence and keep war affected communities mobilized through aggressive discourses This important volume containing a wealth of fresh empirical detail and theoretical insight and focussing on some of Africa s most high profile political figures from Paul Kagame to Riek Machar to Afonso Dhlakama represents a crucial intervention in the literature of post war democratization

Political Culture, Soft Interventions and Nation Building Tiffany Jenkins, 2016-01-13 This book raises questions about cultural interventions an area of investigation somewhat overlooked in place of developing a critique of political interventions Whilst political interventions are more explicit coercive and have a wide reaching impact it is important also to examine the way culture is used in attempts to reconstruct society and peoples the soft side of statebuilding where heritage is utilised to play a role in the construction of the nation and the people in memory and identity For it can play a role in legitimizing myths and identifying symbolic historic events and implicitly informs the construction of infrastructure institutions and other aspects of civic life Contributors from the fields of politics anthropology archaeology and sociology examine interventions in state and nation building through cultural methods the soft side of statebuilding including the preservation and promotion of certain heritage the politics of remembrance and monument building and the repatriation of human remains and artefacts to communities in the name of making reparations for past atrocities These are timely contributions Heritage and cultural is too often considered in terms of how tourism might contribute to the economy post conflict neglecting the construction of meaning and memory through decisions about what is preserved or not It will be of special interest to those in the field of cultural studies archaeology and politics as well as international relations This book was published as a special issue of the Journal of Intervention and Statebuilding
