The Philippines David Joel Steinberg, 2018-02-19 A unified nation with a single people the Philippines is also a highly fragmented plural society Divided between uplander and lowlander rich and poor Christian and Muslim between those of one ethnic linguistic and geographic region and those of another the nation is a complex mosaic formed by conflicting forces of consensus and national identity and of division and instability It is not possible to comprehend the many changes in the Philippines such as the rise and fall of Ferdinand Marcos or the revolution that toppled him without an awareness of the religious cultural and economic forces that have shaped the history of these islands These forces formed the focus of the first edition of *The Philippines* Of that 1982 edition the late Benigno Aquino Jr noted that anyone wanting to understand the Philippines and the Filipinos today must include this book in his must reading list The fourth edition has been updated through the final years of the Ramos presidency and contains a new section on the impact of President Estrada

The Chinese Question Caroline S. Hau, 2014-02-28 The rising strength of mainland China has spurred a revival of Chineseness in the Philippines Perceived during the Cold War era as economically dominant political disloyal and culturally different the Chinese presented themselves as an integral part of the Filipino imagined community Today as Filipinos seek associations with China many of them see the local Chinese community as key players in East Asian regional economic development With the revaluing of Chineseness has come a repositioning of Chinese racial and cultural identity Philippine mestizos people of mixed ancestry form an important sub group of the Filipino elite but their Chineseness was occluded as they disappeared into the emergent Filipino nation In the twentieth century mestizos defined themselves and based claims to privilege on white ancestry but mestizos are now actively reclaiming their Chinese heritage At the same time so called pure Chinese are parlaying their connections into cultural social symbolic or economic capital and leaders of mainland Chinese state companies have entered into politico business alliances with the Filipino national elite As the meanings of Chinese and Filipino evolve intractable contradictions are appearing in the concepts of citizenship and national belonging Through an examination of cinematic and literary works *The Chinese Question* shows how race class ideology nationality territory sovereignty and mobility are shaping the discourses of national integration regional identification and global cosmopolitanism

The Philippine Revolution and Beyond Elmer A. Ordoñez, 1998 *How Wars Are Won and Lost* John A. Gentry, 2011-11-10 This provocative book seeks to answer a most crucial and embarrassing question concerning the U S military why the United States is so often stymied in military confrontations with seemingly weaker opponents despite its superpower status This fascinating book examines a question that continues to puzzle soldiers statesmen and scholars why do major powers including the ostensible superpower United States repeatedly perform poorly against seemingly overmatched adversaries And what can they and the United States do to better achieve their military objectives *How Wars are Won and Lost* Vulnerability and Military Power argues that beyond relying solely on overwhelming military might the United States needs to focus more on exploiting weaknesses in their adversaries such as national will resource mobilization and strategic miscues just as opposing forces have done to gain advantage over our military efforts The author tests the vulnerability theory by revisiting six conflicts from the Philippine War of 1899 1902 to the ongoing actions in Iraq and Afghanistan showing again and again that victory often depends more on outthinking the enemy than outmuscling them
