The Reception of Walter Pater in Europe Stephen Bann, 2004-11-28 Just over a century after his death Walter Pater's critical reputation now stands as high as it has ever been In the English speaking world this has involved recovery from the widespread neglect and indifference which attended his work in the first half of the twentieth century In Europe however enthusiastic disciples such as Hugo von Hofmannsthal in the German speaking world and Charles Du Bos in France helped to fuel a growing awareness of his writings as central to the emergence of modernist literature Translations of works like *Imaginary Portraits* established his distinctive voice as an aesthetic critic and his novel *Marius the Epicurean* was enthusiastically received in Paris in the 1920s and published in Turin on the eve of the Second World War This collection traces the fortunes of Pater's writings in these three major literatures and their reception in Spain Portugal Poland Hungary and the Czech Republic

The Reception of Walter Pater in Europe Stephen Bann, 2004 Just over a century after his death Walter Pater's critical reputation now stands as high as it has ever been In the English speaking world this has involved recovery from the widespread neglect and indifference which attended his work in the first half of the twentieth century In Europe however enthusiastic disciples such as Hugo von Hofmannsthal in the German speaking world and Charles Du Bos in France helped to fuel a growing awareness of his writings as central to the emergence of modernist literature Translations of works like *Imaginary Portraits* established his distinctive voice , Aesthetics of Space in Nineteenth-Century British Literature, 1843-1907 Whiteley Giles Whiteley, 2020-03-02 Uncovers the link between Ruskin and the tradition of the aesthetics of space Discusses a hitherto under researched tradition of city writing linking Ruskin to modernism Reads comparatively five important mid to late nineteenth century writers Marries close textual analysis with historically and geographically informed context Fills a gap in the critical literature on city writing between realism and early modernism Charting an aesthetic post realist tradition of writing this book considers the significant role played by John Ruskin's art criticism in later writing which dealt with the new kinds of spaces encountered in the nineteenth century With chapters devoted to the ways in which aesthetic and decadent writers such as Walter Pater and Oscar Wilde built upon and challenged Ruskin's ideas the book links the late Dickens to the early modernism of Henry James *The Aesthetics of Space in Nineteenth Century British Literature* gives a vibrant vision of what an aesthetically sensitive treatment of these spaces looked like during the period

Yeats and Pessoa Patricia Silva-McNeill, 2017-07-05 W B Yeats and Fernando Pessoa 1888 1935 regarded style as a tool for metaphysical inquiry and consequently they adopted distinct poetic styles to convey different attitudes towards experience Silva McNeill's study examines how the poets stylistic diversification was a means of rehearsing different

existential and aesthetic stances It identifies parallels between their styles from a comparative case studies approach Their stylistic masks allowed them to maintain the subjectivity and authenticity associated with the lyrical genre while simultaneously attaining greater objectivity and conveying multiple perspectives The poets continuously transformed the fond and form of their verse creating a protean lyrical voice that expressed their multilateral poetic temperament and reflected the depersonalisation and formal experimentalism of the modern lyric

Anglo-German Interactions in the Literature of the 1890s Patrick Bridgwater, 2017-12-02 This is a study of what the main aesthetic writers of late 19th century Britain made of German literature and of how Germany in turn reacted to them The impact of Anglo Scottish art nouveau in fin de siècle Austria and Germany made it predictable that Keats Pater and Rossetti among others would be well received but no one could have known in advance that by the time of their deaths Swinburne and Wilde would be more highly regarded in Germany than in Britain Bridgwater's documented study casts light on the central cultural issues of the day including ideas of morality truth and subjectivism in art comparing Pater and Wilde with Nietzsche and George Moore that chameleon of the decadent 90s with Schopenhauer

Cultivating Belief Sebastian Lecourt, 2018-04-05 This book explores how a group of Victorian liberal writers that included George Eliot Walter Pater and Matthew Arnold became attracted to new theories of religion as a function of race and ethnicity Since the early modern period British liberals had typically constructed religion as a zone of personal belief that defined modern individuality and interiority During the 1860s however Eliot Arnold and other literary liberals began to claim that religion could actually do the most for the modern self when it came as a kind of involuntary inheritance Stimulated by the emerging science of anthropology they imagined that religious experiences embedded in race or ethnicity could render the self heterogeneous while the individual who insisted upon selecting his or her own beliefs would become narrow and parochial By rethinking the grounds of religion this book argues these writers were ultimately trying to shift liberal individualism away from a classical Protestant liberalism that celebrated interiority and agency and toward one that valorized eclecticism and the capacity to keep multiple values in play More broadly their work offers us a new picture of secularization not as a process of religious decline but as the reinscription of religion as an ordinary feature of human life like art or politics or sex whose function could be debated

Decadence and Orientalism in England and Germany, 1880-1920 Katharina Herold-Zanker, 2024-04-05 Decadence and Orientalism in England and Germany 1880 1920 examines the Orientalist portrayal of Middle Eastern cultures in Decadent Literatures in England and Germany at the turn of the century This book argues that the role of Orientalism in literary Decadence uniquely exposes its paradoxical engagement with other cultures In bringing together two

fin de siècle European literatures this comparative study makes a case for the transnational if not imperial nature of Decadence The East emerges as an indispensable mediator between various versions of European Decadence The book examines the role of the East with specific reference to selected English and German authors starting from Oscar Wilde's Victorian vision of Egypt and Arthur Symonds's and Violet Fane's image of Constantinople it moves to Paul Scheerbart's and Else Lasker-Schüler's Decadent Babylon and Assyria and concludes by turning to Stefan George's exclusion of the East from his poetic practice The geographical reach of the East focuses on regions of the Eastern Mediterranean and Northern Africa The cultural translation of specifically the Middle East into different European national contexts gains new sometimes oppositional meanings avoiding a one-sided representation of both the East and the two national literatures that absorbed it In arguing for a Decadent cosmopolitanism as a model of heterogeneous inclusivity that reaches beyond the binaries established by Edward Said's Orientalism the present book brings twenty-first century theories of cosmopolitanism into dialogue with art history and literature to uncover striking synergies and interdependences between the different manifestations of Decadence in England and Germany

Writing for Art Stephen Cheeke, 2008-12-15 This book covers a broad chronological range of writing and theorising about ekphrasis extending the subject to include literary works on photography and prose descriptions of artworks

Aesthetic Sexuality Romana Byrne, 2013-11-28 To understand why the concept of aesthetic sexuality is important we must consider the influence of the first volume of Foucault's seminal *The History of Sexuality* Arguing against Foucault's assertions that only *scientia sexualis* has operated in modern Western culture while *ars erotica* belongs to Eastern and ancient societies Byrne suggests that modern Western culture has indeed witnessed a form of *ars erotica* encompassed in what she calls aesthetic sexuality To argue for the existence of aesthetic sexuality Byrne examines mainly works of literature to show how within these texts sexual practice and pleasure are constructed as having aesthetic value a quality that marks these experiences as forms of art In aesthetic sexuality value and meaning are located within sexual practice and pleasure rather than in their underlying cause sexuality's *raison d'être* is tied to its aesthetic value at surface level rather than beneath it Aesthetic sexuality Byrne shows is a product of choice a deliberate strategy of self-creation as well as a mode of social communication

The Oxford Handbook of Victorian Medievalism Joanne Parker, Corinna Wagner, 2020-09-15 In 1859 the historian Lord John Acton asserted two great principles divide the world and contend for the mastery antiquity and the middle ages The influence on Victorian culture of the Middle Ages broadly understood then as the centuries between the Roman Empire and the Renaissance was both pervasive and multifaceted This medievalism led for instance to the rituals and ornament of the Medieval Catholic church being reintroduced to Anglicanism It led to the Saxon Witan being celebrated as a prototypical representative parliament It resulted in Viking raiders being acclaimed as the forefathers of the British navy And it encouraged innumerable nineteenth-century men to cultivate the superlative beards we now think of as typically Victorian in an attempt to emulate their Anglo-Saxon forefathers Different

facets of medieval life and different periods before the Renaissance were utilized in nineteenth century Britain for divergent political and cultural agendas Medievalism also became a dominant mode in Victorian art and architecture with 75 per cent of churches in England built on a Gothic rather than a classical model And it was pervasive in a wide variety of literary forms from translated sagas to pseudo medieval devotional verse to triple decker novels Medievalism even transformed nineteenth century domesticity while only a minority added moats and portcullises to their homes the medieval style textiles produced by Morris and Co decorated many affluent drawing rooms The Oxford Handbook of Victorian Medievalism is the first work to examine in full the fascinating phenomenon of medievalism in Victorian Britain Covering art architecture religion literature politics music and social reform the Handbook also surveys earlier forms of antiquarianism that established the groundwork for Victorian movements In addition this collection addresses the international context by mapping the spread of medievalism across Europe South America and India amongst other places

The Influence of Pre-Raphaelitism on Fin de Siècle

Italy Giuliana Pieri, 2007 This volume is the first comprehensive study of the influence of English Pre Raphaelitism on Italian art and culture in the late nineteenth century Analysis of the cultural relations between Italy and Britain has focused traditionally on the special place that Italy had in the British imagination but the cultural and artistic exchanges between the two countries have been much misunderstood This book aims to correct this imbalance by placing Pre Raphaelitism in its European context It explores the nature of its influence on Italy how it was transmitted and how it was manifested by focusing on the role of Italian Anglophiles the English communities in Florence and Rome the writings of Gabriele D Annunzio and a number of Italian artists active in Tuscany and Rome The works of Cellini Ricci Gioja De Carolis and Sartorio in particular fully demonstrate the impact of Pre Raphaelitism on the young Italian school of painting which found in the English movement an ideal link with its glorious past on which it could build a new artistic identity These artists show that English Pre Raphaelitism was one of the most powerful single influences on fin de siècle Italian culture

Modern European literature has traditionally been seen as a series of attempts to assert successive styles of writing as new. In this groundbreaking study Ben Hutchinson argues that literary modernity can in fact be understood not as that which is new but as that which is late. Exploring the ways in which European literature repeatedly defines itself through a sense of senescence or epigonality, Hutchinson shows that the shifting manifestations of lateness since romanticism express modernity's continuing quest for legitimacy. With reference to a wide range of authors from Mary Shelley, Chateaubriand and Immermann via Baudelaire, Henry James and Nietzsche to Valéry, Djuna Barnes and Adorno, he combines close readings of canonical texts with historical and theoretical comparisons of numerous national contexts. Out of this broad comparative sweep emerges a taxonomy of lateness of the diverse ways in which modern writers can be understood in the words of Nietzsche as creatures facing backwards. Ambitious and original, *Lateness and Modern European Literature* offers a significant new model for understanding literary modernity.
