Safari Splash:

Fast Slide Melanie Jackson, 2010-10-01 Clay would much rather work as a lifeguard at the beach than at Safari Splash the new water park in town Clay is certain the summer will drag along despite his position at the park's fastest slide The summer job starts to get interesting when he learns that someone has been wandering the park in a lynx costume scaring the staff When forty thousand dollars is stolen from the till and his friends are under suspicion for the theft boring is starting to look good But Clay is certain that the mask and the thefts are connected and he's determined to solve the crime This short novel is a high interest low reading level book for middle grade readers who are building reading skills want a quick read or say they don't like to read

Green Asia Tania Lewis, 2016-09-13 Economic development in Asia is associated with expanding urbanism overconsumption and a steep growth in living standards At the same time rapid urbanisation changing class consciousness and a new rural urban divide in the region have led to fundamental shifts in the way ecological concerns are articulated politically and culturally Moreover these changes are often viewed through a Western moralistic lens which at the same time applauds Asia's economic growth as the welcome revival of a floundering world economy and simultaneously condemns this growth as encouraging hyperconsumerism and a rupture with more natural ways of living This book presents an analysis of a range of practices and activities from across Asia that demonstrate that people in Asia are alert to ecological concerns that they are taking action to implement new styles of green living and that Asia offers interesting alternatives to narrow Anglo American models of sustainable living Subjects explored include eco tourism in the Philippines green cooperatives in Korea the importance of tradition within Asian discourses of sustainability and much more
